Effective November 13, changes will go into effect in the running of some of the Southern Pacific trains in the Willamette valley. Schedules modified to meet requirements of travel to the exposition will be restored to normal running time, but not to quite the same as the schedules in force prior to the strike. The passenger department has given attention to the wishes of people along the line and made the new schedule to accommodate them. Train No. 6, on the Yamhill division, which has been leaving Portland at 6 o'clock p. m. will hereafter leave at 7 o'clock p. m. and will go to Eugene, made to accommodate travel during the fair, will be made permanent.

Postmaster Minto is making a strong effort to induce the postoffice department to allow three more carriers for Portland. Two are needed in the extreme northern portion of the city, which is building up with extraordinary rapidity, and the other would be assigned to the southeastern part of the city, in the vicinity of Sellwood. The postmaster is also trying to induce the department to allow him to retain permanently the ten clerks who were appointed for the exposition season. In any event they will hold their places for a period of 90 days from the closing of the fair, but the postmaster believes that all of them will be needed permanently on account of the growing business of the Portland postoffice.

Mrs. Ella J. Longway, who lives near Clackamas and believes that she has power to raise the dead, has disappeared again from her home on her mission of revivifying all who have departed this life. Her husband has instituted another search for her, but no trace of her whereabouts has been found. The woman disappeared several weeks ago and local police aided in the search. She finally was located at Salem and returned to her home. She remained there until last Thursday. Her husband, H. Longway, requests this afternoon formation concerning her he sent to him at Milwaukee.

At the Montavilla Baptist church last night Miss Gail Laughlin of New York delivered an address in the interest of equal suffrage. She based her plea on the grounds of unselfishness, declaring that the ballot for women would mean the betterment of both men and women. She touched upon the question of wages and showed the absence of which girls and women in New York City are subject. The speaker was introduced by Miss Ring, who presided.

Judge Arthur L. Fraser, who presides over the juvenile court, will deliver an address at Gresham tonight in the interest of the movement for organizing a boys' club at that place. He will be accompanied by Marion Johnson, chief probation officer. The purpose of the club is to provide diversion for boys and keep them from mischief. The club will supply reading matter of the proper kind.

The Winter Social club at the Y. M. C. held its first meeting yesterday afternoon. Secretary H. W. Stone explained the objects of the organization, the orchestra played and the club had a short prayer meeting and heard an address from E. B. Herminston, the evangelist in charge of the chapel car, Emmanuel. Mr. Herminston will conduct prayer meetings every day at 12:10 and 9:15 p. m.

The recent opinion of Attorney-General Crawford to the effect that school officials could not force the vaccination of pupils, does not apply to the Portland public schools, according to City Superintendent Frank Ringer. The local school board frequently excuses pupils from vaccination on recommendation of the family physician.

In Judge Fraser's department of the circuit court this morning the case of Ed Riner of Tanner creek sewer fame was called and set for trial. It will be heard on Wednesday. Riner is charged with attempting to obtain money by false pretenses.

Persistent burglars entered the residence of W. A. Merriman, 522 East Nineteenth street, last night and secured \$9 1/2 money. They scattered articles about the place, but took nothing but money.

### BERNARD ELOPES WITH GIRL

**Police Search for Thomas Hicks, Who, It is Alleged, Deserted Family.**

**MOTHER'S PROTESTS PROVE UNAVAILING**

Before Leaving, It is Claimed, Hicks and May Cunningham Stole Several Paintings From Girl's Mother to Provide Wherewithal for Journey.

Deserting his wife and child for May Cunningham, a 17-year-old girl, Thomas Hicks, it is alleged, eloped from Green Acres, Washington, with her a week ago. Hicks and the girl are believed to be in Portland. The police have been notified of the circumstances and asked to try to locate the couple.

In addition to a communication from the authorities, Chief Getzmaier received a letter last night from Mrs. Margaret Cunningham, the mother of the eloping girl. She detailed fully the circumstances of the affair and enclosed a photograph of Hicks. He is said to have shaved off his mustache before leaving Green Acres with Miss Cunningham.

Prior to the elopement, according to Mrs. Cunningham, her daughter and Hicks went to the mother's home in absence and, breaking open a door, stole several paintings from the walls, the value of which was about \$50. It is believed they have disposed of these paintings in order to secure money on which to travel.

Hicks is reported to have a brother in Portland named Frank Hicks, who is engaged in the saloon business.

Entrance was gained by raising a pantry window and unlocking doors. Ten days ago burglars entered in the same way and the crimes are believed to have been committed by the same persons. An officer was called last night, and after his departure the burglars made two more attempts to enter the place.

Representatives from the Port of Portland commission, the city executive board, the East Side Civic Improvement association, East Portland property owners and civil engineers are in conference this afternoon at the call of Mayor Lane over the proposition to dredge the Willamette river and pump the debris into the sloughs on the east side. Considerable interest has been manifested in the meeting and some plan for immediate action may be decided on for the improvement of the east side and the harbor.

Eugene P. Nollan, proprietor of the United States Knitting mills at Nollan, Pennsylvania, is in Portland to investigate the opening here for a knitting factory. He has examined a number of sites in Portland. It is said he is negotiating with Manager Ross of the Sellwood wool-scouring plant, to start a knitting mill in connection with that institution.

Work on the Irvington district sewer is progressing rapidly. The Pacific Bridge company, the contractors, have a large force of men, employed in order to have everything in readiness for the wet weather. The outlet of the sewer is nearly finished and the tunnel started. City Engineer Taylor is pleased with the progress made.

Investors would do well to note the Sherman D. Brown's ad in The Journal for the next three days of waterfront property. Splendid opportunity to make good money on a small investment.

Ladies' gymnasium class, the Ringler Physical Culture school, \$1 per month.

Fritz's tamales at the best.

Excitement Among the Boys.

Great interest and enthusiasm is being stirred up among the boys of the city as the result of a unique and original offer made by Samuel Rosenblatt & Co. This store announces that the salesman for Ederheimer, Stein & Co., makers of Xtragood boys' clothing, Chicago, will call upon them within 15 days and they offer to give, free, any \$5 Xtragood suit in their store to the first boy under 14 who finds and identifies this salesman.

A feature of the plan is the one set expression which must be used by the young detectives, who are required to say: "You are from Ederheimer, Stein & Co., Chicago, and sell Xtragood clothes." The salesman, it is said, will not admit his identity unless addressed in these precise words.

No active have the boy stranger in their search that every stranger who reaches town is quickly besieged and questioned by a crowd of young sleuths.

### SEVEN ADD TO HARBOR FLEET

**Four Schooners and Three Steamers Arrive to Load for California Points.**

**OLYMPIA CHARTERED FOR FREIGHT TO SAN PEDRO**

Steamer Has Carrying Capacity of About Three Thousand Tons, and Will Be Largest Craft on Coast Run Out of Portland.

In the past 24 hours the fleet in the harbor was increased by the arrival of four schooners and three steamers, all of which will carry cargoes to California ports. The sailing vessels are the Mabel Gale, Virginia, Crescent and Eric, which will be fitted out with lumber cargoes at the Portland and Inman-Poulsen mills. Owing to the heavy fog they were anchored in the stream all morning below the bridges.

The steamers are the Olympia, the Homer and the Wasp. The Olympia came from Seattle and will be placed in regular commission for six months between Portland and San Pedro. She is under charter to the Campbell-San-Helen, who employ the vessel to carry grain and general freight on the down trips. She is at the Mersey dock, where she will take on about 2,000 tons of wheat. It is planned to have her ready for sailing tomorrow night.

The Olympia has a carrying capacity of about 3,000 tons and will be the largest craft in service on the coast run out of Portland. She is owned by the Northern and Western company of Tacoma and for a time was engaged in the trans-Pacific trade. Of late she has been lying idle. Before leaving the sound she was placed on the drydock for overhauling and is now said to be in first class condition. She is in command of Captain Truebridge. While she was engaged for the express purpose of transporting grain down the coast, shipments of various sorts will be made.

Nearly 2,500,000 feet of lumber will be taken out by the four schooners which arrived last night. The Crescent is a five-masted, one of the few of that description on the Pacific coast. She was built last year at Eureka and this is her first visit to this port. She is capable of handling 1,000,000 feet. Her cargo will be received at the Portland and the Virginia and Mable Gale are old traders here, having averaged a trip to Portland once a month for the past year.

**TO CARRY FREIGHT ONLY.**

Steamer Costa Rica Will Bear Combustibles for Use in Railroad Building.

Combustibles and every sort of material will be brought to Portland on the steamer Costa Rica, which is now said to be operated regularly, but will carry no passengers. The steamer is scheduled to leave San Francisco today for Portland and is expected to arrive on Wednesday.

It was learned definitely this morning that big shipments of powder are going to be made from San Francisco to Portland on the Costa Rica, and it is said the explosives will be consigned to Douglas Brothers of Astoria, who are some of the opinion, however, that the powder will be for the use of the Oregon Railroad & Navigation company in pushing the construction work of its projected new lines in this territory. It is reported that the Harriman people would not be likely to operate one of its boats as a freighter to assist an opposition line.

**IRISH BARK COMING.**

**Dunboyne, of ill-fated Line, Arrives at Astoria and Will be Towed Up.**

Another windjammer, the British bark Dunboyne, arrived at Astoria this morning from Callao, Peru, bound for Portland. She came in ballast and will leave up the river as soon as a tug boat can be secured. The vessel is under charter to T. M. Stevens & Co. to transport a cargo of grain to the United Kingdom.

The Dunboyne is one of three vessels in commission owned in Dublin, the others being the British barks Pinal and Howth. Until a few years ago there was a ship known as the Rathdown which hailed from the big Irish port, but while bound for Portland from Europe she was lost. Her fate is not yet known and she was added to the long list of the missing. She belonged to the same line as the Dunboyne, which arrived in the river this morning.

Apparently an unlucky star was hovering over the Rathbone at the time she was launched, for she experienced all sorts of difficulties during her short career. In 1900 she was at Portland and was badly damaged while going through the Raritan straits. Three days ago a part of her rigging was carried away and she was forced to remain in port a couple of months. It was the following year that she sailed from her home port never to return.

**ALONG THE WATERFRONT.**

Captain Allan of the steamer Charles R. Spencer will take a vacation for a couple of weeks after he returns from The Dalles tomorrow.

Owing to a slight disagreement with the sailors the schooner Louis did not

### FUND FOR THE UNFORTUNATE JEWS REACHES \$3,000

(Continued from Page One.)

Morrison took his text from Paul, and said in the course of his remarks: "The writer of this epistle dearly apprehends the tremendous difficulties which confront those who have undertaken to preach and practice the religion of Jesus. It is a prophetic vision of a tremendous struggle against a combination of powers at variance with the spirit and the truth of the Gospel. A struggle not merely with flesh and blood, physical forces, but with the very elements of humanity. A struggle against old customs, customs, traditions, and doctrines, which are intended to be a bloodless revolution, involving the overthrow of power, the overthrow of principles and national government, and a spiritual campaign against wickedness in the established religion of the age."

**A Travesty on Religion.**

The method of extension of the Christian religion, as applied to the individual, has nothing to commend it but the intrinsic value of the teaching of Jesus. A religion destined to revolutionize the civilization of the world had before it a stupendous task, involving the overthrow of the old, the destruction of life, devastation of property.

"We are horrified beyond description to find that in our own time a Christian, whose earnest styles himself as protector of the faith, with an established church; is guilty of the barbaric horrors recently enacted in the Jewish massacres. A peace-loving, law-abiding, virtuous people have been beaten and butchered with unpeppering ferocity."

"What a travesty upon the religion of the gentle Nazarene who said to Peter, 'Put up thy sword.' It is to be found in history."

"I appeal for sympathy and aid for the unfortunate Jews, the most distinguished people of history—not a people to be despised, hated, despised, or destroyed, but rather to be respected for their achievements; a people who have produced a Moses, a Solomon, a Jesus, a Paul."

In the First Congregational church at the conclusion of Dr. E. C. House's treatise of the subject the contribution amounted to \$100.

Dr. McGlade of Missah Presbyterian church denounced Russia vigorously and urged his congregation to contribute to the relief of the Jews. He said, in part:

**Denounces Russia.**

"The Russian nation stands before the pitiful gaze of the world today a complete and despicable failure in the obligation of existing for the welfare of the governed, and instead existing that it may be a crushing tyrant and an absolute despot; to provide a spy network for homes and peoples; to defame speech and provide a Siberia for an exile home for those who may dare maintain their rights. Let protest upon protest be made, even if, in no avail, and let the people everywhere lend financial aid with liberal hand, that in some degree distress may be alleviated, the naked clothed, the hungry and starving fed."

Dr. Edgar P. Hill of the First Presbyterian church announced before his sermon that the contribution of the Jewish relief fund and the response was liberal.

**Others Ask for Funds.**

Dr. Brougher of the White Temple expressed his sympathy with the movement and invited his flock to contribute. The result was about \$50.

Dr. Montgomery of the Third Presbyterian and Dr. Staub of Sunnyside (Congregational) were others who spoke on the subject and obtained contributions.

The Jews of Oregon City sent Mr. Selling a check for \$150 yesterday. This morning the treasurer was further gratified at the receipt of \$100 from Gus Simon and \$100 from Mrs. Flora Jacobs, while innumerable smaller donations have been pouring in all day.

"That we will send \$10,000 from Portland is a certainty," said the treasurer this afternoon. "We will strive to increase that sum to \$15,000."

The Journal today received a contribution of \$5 from G. H. Maxwell, 189 1/2 Fourth street.

**Additional Contributions.**

The Journal has received from Harry C. Whittier of Olds, Washington, \$100; from Mrs. Whittier, \$100; from Mrs. Some of the opinion, however, that the powder will be for the use of the Oregon Railroad & Navigation company in pushing the construction work of its projected new lines in this territory. It is reported that the Harriman people would not be likely to operate one of its boats as a freighter to assist an opposition line.

### CLAIMED WESTERMAN'S MILK IS PART WATER

Henry Westerman, milkman, has been arrested again. His milk is alleged to be from 25 to 30 per cent water. Westerman is said to have been arrested more than a half dozen times during the past two years for selling watered milk. At the same time he arrested Westerman this morning State Food and Dairy Commissioner J. W. Bailey laid the hand of the law upon the head of Frank O'Neil, a groceryman at 602 Hood street, who was buying a consignment of the above named dairyman's milk. Mr. Bailey avers that Westerman keeps changing the locations of his milk routes, hoping in this manner to throw the officers off his track, but as long as Westerman sells milk, both he and his stock in trade will be carefully watched.

**Several New Houses.**

The following permits for new buildings were issued Saturday: Lou Wagner, store, Thurman near Twenty-fifth streets, cost, \$250; Ida M. Steele, cottage, East Taylor near East Thirty-third street, \$1,550; Mrs. J. R. Wiley, residence, downtown during the past two years for selling watered milk. At the same time he arrested Westerman this morning State Food and Dairy Commissioner J. W. Bailey laid the hand of the law upon the head of Frank O'Neil, a groceryman at 602 Hood street, who was buying a consignment of the above named dairyman's milk. Mr. Bailey avers that Westerman keeps changing the locations of his milk routes, hoping in this manner to throw the officers off his track, but as long as Westerman sells milk, both he and his stock in trade will be carefully watched.

**Excitement Among the Boys.**

Great interest and enthusiasm is being stirred up among the boys of the city as the result of a unique and original offer made by Samuel Rosenblatt & Co. **IT DIFFERS**

Tradition hard wheat with electricity makes White River Flour different from other hard wheat flours. Its contact with lightning shattered air while in the mill, the electric wheel oil is expelled, leaving the nutritive value of the ordinary Oregon wheat flour as an easily digested form.

This process lightens the grain of the flour and makes it greatly superior to hard wheat flour.

White River flour is made of white wheat, the best of the wheat of the Northwest. It is now developed that other flour millers who are preparing to take similar action.

Is not only to beautify it, desirable as that is, but to preserve wood and metal. Paint from our stock meets both purposes. Another thing: Quality guaranteed (any reasonable test will show it), we guarantee cost for the same article against any competitor. We want your business and will merit it.

**Fisher, Thorsen & Co.**

FRONT AND MORRISON STS.

get away yesterday as had been planned. She will leave today lumber laden for San Francisco.

Steamer Alliance will sail for Eureka and way ports tonight with a full cargo of general freight and the usual number of passengers.

With a cargo of grain, flour and general produce the steamer Columbia sailed last night for San Francisco; she had almost a full list of passengers.

This afternoon the steamer Eureka will reach port from the south and will begin loading grain tomorrow morning for the return trip.

Steamer Homer, Captain Donaldson, which arrived last night from the Bay City, completed the round trip passage from Portland in just seven days and 20 hours. Of this time almost three days were spent at the ends of the line receiving and discharging freight. The steamer is scheduled to go out tomorrow night.

A portion of the coal cargo which was brought from Newcastle, N. S. W., by the British ship Blythwood, will be discharged at Astoria, and it will probably be a week yet before the vessel comes up to Portland.

Charters Whittier and Ascension, are at Portsmouth, discharging liquid fuel, arriving last night from San Francisco.

### UNIQUE ARGUMENT FAILS TO SAVE TUXEDO

**Attorney Gleason Holds Police-men Incompetent to Judge Girl's Age.**

In Judge George's department of the circuit court this morning arguments were heard in the case of the city canal, McJohn & Johnson, former proprietors of the Tuxedo saloon, on Alder street. They were charged with permitting women under the age of 21 in their saloon.

Detectives Kay and Jones raided the Tuxedo, July 13, and found a number of men and women in the place. One girl, 18 years of age, was in a maudlin state of intoxication. McJohn is said to have carried the girl to an up-stairs room in the hope that the officers might not find her.

Attorney James Gleason, representing the defense, insisted this morning that the arresting policemen were incompetent to testify concerning the girl's age. He contended that one must have been present at the birth before he could testify of his own knowledge concerning another's age.

The jury was out brief time and returned a verdict of guilty.

**OLD ROMAN WALL FOUND IN HEART OF LONDON**

(Journal Special Service.)

London, Nov. 13.—In Jewry street, Aldgate, the demolition of some old buildings has brought to light a splendid specimen of the old Roman wall of London in a good state of preservation. It was found about eight feet below the street level. It is about eight feet high and nine feet thick. Three tiers are of tiles, the other part being built in cubes and the wall is a perfect specimen of Roman masonry. Great care has been taken to preserve the wall as a memorial of early London.

**PRINTING HOUSES MOVE TO GET RID OF STRIKES**

(Journal Special Service.)

Chicago, Nov. 12.—The Chicago Commercial association, formed to promote the growth of Chicago and prevent the removal of factories, upon being informed that 192 institutions employing 25,000 men, had left the city in the last few years, is again alarmed at the exodus of industries of various kinds.

Now comes the information that the large printing firms that compose the Chicago Typographic, harassed beyond endurance by a succession of strikes are considering a general exodus to small towns where immunity from labor trouble is guaranteed.

The inauguration of the exodus came to light through the removal of the establishment of Strongberg, Allen & Co., which employs 150 men and women. It was now developed that other firms employing in the neighborhood of 1,500 men are preparing to take similar action.
