## Art Pottery at HALF PRICE

All our stock of this beautiful Art Ware offered this week at half the regular price—seeing is believing. Sells regularly from 80c to \$6.00. Now

# 40c to \$3.00

Every piece of our splendid stock offered at great reduction during this sale.

Such inroads have been made upon our extensive display of Cut Glass during the past week that we have found it necessary to place several additional orders to be ready for the holiday demand. A large number of new pieces have already arrived and joined our collection on display and sale. We desire to impress upon you the fact that this is a rare showing—an extraordinary attempt—and, judging from the sales, a successful one, to provide Portland homes with rich and beautiful Cut Glass in unusual shapes and cuttings at a price much less than regular.

Sample prices which are convincing:

	Reg.	Special.

## WANT FAIR FIRE APPARATUS

Large Districts on East Side in Danger From Inadequate Protection.

### ENGINE HOUSES NOW MUCH TOO FAR APART

Exposition Equipment Could Protect Warehouse District and Engine Now Used There Might Be Moved to Guard Charitable Institutions.

The east side office of The Journal is in the store of J. M. Miller, 300 East Morrison street. Telephone East 44.

East sides are terribly in earnest in their demand for better fire protection. The whole eastern part of the Ross City is at the mercy of the fire fiend, and the present force would be a wee toy in the hands of a giant in case of a serious conflagration. There are more than 30 square miles between the river and the eastern limits of the city, and to protect the large area Chief David Campbell has three engine companies with hose wagons, one independent hose company, two chemicals and one truck. Of course, the fireboat will answer all waterborne calls.

At present, the engine companies are so located that two of them never appear at the same fire until a general alarm is rung in, and then the distance to travel is so great that a vast amount of property might be destroyed while the companies were making the run. While the chemicals are adequate to attend to small fires, there should be a hose company, it is said, to answer a call with them. But by the present arrangement of things, the chemical companies fight fires that a regular engine company might fear to tackle without aid.

Hundreds of east side taxpayers are in favor of the city's buying the fire engine and other apparatus at the Exposition grounds from the fair corporation. This fighting force, it is said, is just as good as new and can be purchased for cash at a great reduction from the original factory price that the city would otherwise have to pay.

It is proposed to place the new engine at station No. 7, at the corner of East Third and East Pine streets, where it would be used to protect the large east side manufacturing and warehouse district, and to move the old engine now at that station to some point near the corner of East Twenty-eighth and East Couch streets. Chief Campbell says that an engine company is so badly needed out in the latter district that he can almost hear the very earth asking for it.

### FIREMEN HAVE TROUBLES.

One Loses Three Teeth, Another Breaks Kneecap, Other Just Sick.

When Otto Dunn, a fireman with engine company No. 7, was a little boy, his greatest desire was to become an active member of some big league baseball team. But while the dreams and longings of his youth along this line were never fully realized, Dunn did play ball, and he was playing ball with another member of his company the other day. His friend threw him a swift catch, and Dunn muffed it, one ball slipping between his hands and striking him in the mouth. He lost three teeth.

Another member of engine company No. 7 is recovering from a serious accident. While drilling several weeks ago, Pipeman C. F. Smith fell and broke a kneecap. He is now able to be around on crutches, but it will be some time before he can resume work in the department.

Captain D. M. Lloyd of chemical company No. 3, is ill with stomach trouble and his place is filled by Lieutenant L. J. Gardner of engine No. 7.

### HARRIMAN'S MASSIVE DOCK.

Work Being Rushed and Structure May Be Completed December 20.

Work on the new Harriman dock, which is to replace the Albina dock destroyed by fire last summer, is being rushed as rapidly as possible and the contractors have promised to have it ready for the loading of deep sea ships by December 20. The planking has not all been laid as yet, but the part of the dock will be finished within a few days and then the work of building the warehouse will begin.

Although members of the O. R. & N. company's engineering department say that they have no idea what the new dock will cost, men who are in the general cost of structures of a like nature are of the opinion that by the time it is ready for ships to moor alongside, the great mass of piling and lumber will have taken from the company's treasury nearly \$100,000.

### TO DISCUSS IMPROVEMENTS.

Each Business for the East Side Workers at Tonight's Meeting.

A large crowd is expected to attend the meeting of the East Side Improvement association to be held tonight in the rooms of the justice court at the corner of Union avenue and East Washington street. It is thought that much of the time will be spent in discussing the proposed fills, and a lengthy report is expected by the committee.

George C. Flanders, chairman of the committee which is endeavoring to interest the Harriman railway officials in building a large freight depot for the

## HOME NEWS

OF Interest to Everyone In Portland.

In every newspaper in the country you will read statements made by people living in out-of-the-way places who are supposed to have been cured or derived great benefit from some wonderful remedy or "cure-all." But here in Portland we only publish statements made by Portland people—the testimony of your friends, neighbors and fellow townsmen.

E. Meredith, the well-known brick-mason, contractor and builder, who lives at 217 Twenty-first street, says: "Doan's Kidney Pills is one of the best remedies I ever used, and I cheerfully recommend them in any one suffering with kidney complaint, and no medicine gave me permanent relief until I procured Doan's Kidney Pills. I was so well pleased with them that when my wife had a severe attack a short time ago and could hardly get about to do her work, I had her take Doan's Kidney Pills. In two or three days they straightened her up in fine shape. We both endorse the claims made for Doan's Kidney Pills and have nothing but the highest terms of praise for such a valuable remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no other.

### EAST SIDE NOTES.

Work on the new machine shops for the fire department has been begun, and it is expected to be completed the latter part of this week. The shops are being built on the south side of the fireboat station. The machine department now is located in the second story of the fire headquarters.

The Home Telephone company, which is installing an automatic telephone system in Portland, will build two stations on the east side. One of them will be located in Albina, while the other is to be built in the southern part of East Portland. The sites have not been purchased as yet, as the buildings are not to be erected until next spring.

F. P. Dabney is the choice of Mount Tabor citizens for a place on the water committee, and at a meeting of the Push club of that suburb last night it was decided that Mayor Lane be requested to appoint him. Chairman W. G. Kerns appointed Frank Perkins, J. Lawton and D. W. Dore as a committee to attend the meeting of the East Side Improvement association this evening and urge that the summit of Mount Tabor be made a public park.

Next Sunday morning, Rev. S. E. Dubois will hold his first services as pastor of the Grand Avenue United Presbyterian church. Mr. Dubois recently resigned the pastorate of the First United Presbyterian church at St. Louis to accept the Portland call.

### DISASTROUS FALL OF MR. FESTINE WALL.

Rockpile Candidate Makes Futile Attempt to Instruct Police Judge Cameron.

Festine Wall, arrested for vagrancy and drunkenness, was found guilty by Police Judge Cameron and asked if he would leave the city, provided his sentence was suspended.

Squaring his shoulders and striking an attitude as if defying the lighting, he declared that he would not leave town until he desired.

"I am going to stay here until I get gone and ready to go," he growled, "and you can't make me go, either."

Judge Cameron looked at the man in surprise. Then he drew a long breath and smiled.

"My strong-minded friend," he said, "you speak the truth—I cannot make you leave the city, but I can see that you are well taken care of as long as you are here. You will be given quarters in the city prison for the next 20 days, and we will consider your case further at that time."

"Then it was that Wall grew indignant. He stamped his foot in his rage. "You can't do that," he yelled.

"Can't eh?" remarked Deputy City Attorney Fitzgerald. "I can't make you, Mr. Wall, whereupon the bailiff bundled the protesting prisoner off to a cell."

Mr. Fitzgerald announced afterward that he will endeavor to get Mayor Lane to re-establish the city rockpile.

"Men like this would as lief remain in prison and be fed as be at large," he said. "If they had to break rock for a while we would not have so much trouble dealing with them."

### REDUCED SEASIDE RATES

Vis the A. S. C. R. B. to Clatsop Beach.

In order to promote a big winter travel to the coast the above company has named the very low rate of 4, good going Saturday morning, returning Monday evening, and \$2.50 for the round trip on Sunday. Several hotels at the beach will remain open all winter and cheap rates will be made to induce patronage. All information at the city office, 248 Alder street, or telephone Main 905.

### SELLWOOD RESIDENTS WANT BAPTIST CHURCH

Delegates from the 14 Baptist churches of the city gathered at the White Temple last night to attend the annual meeting of the Portland Baptist union. J. H. Bennett, the churches' city missionary, told of the work during the past year. New churches had been organized at University Park and St. Johns. Three new pastors have joined the local fold during the past 12 months, and another, an assistant to Dr. J. W. Broughton, is soon to be added.

H. W. Stone urged that a church be erected at Sellwood. He thought that the Sellwood church should cost at least \$2,000. Mr. Stone urged also that a Baptist church should be organized in the vicinity of Sawyer street.

At the election of officers for the
