### A Word About Our Incomparable Garment Lines

This store buys and sells more women's garments than any other two local houses combined. It is the largest establishment devoted to the selling of women's garments west of Chicago. We believe that our collection of winter models in Suits, Coats and Wraps is incomparably best and most varied, and that any observant woman who visits all the local stores will agree with us. The first qualification of the men and women entrusted with the important work of selecting and rejecting is trained experience, the second is a faculty for quickly grasping the trend of fashions, and the third is unerring taste. To the customers of this store are thus insured excellence of quality, styles in conformity to accepted modes, and widely variant touches of artistic individuality. We show today

### Unequaled Variety of Models

Suits Priced Up from \$15.00  
Coats Up from \$7.50

We show hundreds of handsome styles which cannot be seen elsewhere in this city. By far the larger number of our customers are buying coats in three-quarter length, or longer, and these we have in widest variety; but by many women the somewhat shorter coats are adjudged more becoming or more practical, and scores of smartly developed hip-lengths models are here. The fit of our coats is the wonder of many women; and be assured that this is not chance, but the result of exacting watchfulness. Careful tailoring is as important as stylish cut. Few of our coats require alteration of any sort. It is important to know, too, that this store is best equipped for fitting stout women and short-waisted women. Most of our practical models come in sizes up to 44 bust measure.
