Mrs. Ada Wallace Unruh Says Coast States Are Far

W. C. T. U. OUTLOOK MOST INCOURAGING EVERYWHERE

Texas, Tennessee, Mississippi, Arkansas and Georgia Almost Entirely Without Saloons, Says Temperance Worker on Return From Tour.

Mrs. Ada Wallace Unruh, national organizer and lecturer for the Women's Christian Temperance union, has found another point in which the west is far behind the cast. Returning last week from a nine months' tour of states east of Oregon, she is profoundly impressed with the remarkable headway made by many states in the anti-liquor fight.

"The outlook for the W. C. T. U. never before was so encouraging," she said. "Many of the eastern states have adopted prohibition, and in almost the entire southeast territory liquor promises to be swept out of the whole region soon. Texas, Tennessee, Mississippi, Arkensas and Georgia are almost en-

Mrs. Ada W. Unruh.

tirely without saloons, and in Georgia 164 counties out of 127 are prohibitory. In the west the work is slower. In Montana there is one dry county and the promise of two more soon. In California there are two dry counties and 175 dry cities.

### naa "Staam". numan ətedin ; Keeping It Up

This Is the Secret of That Seemingly Tireless Energy Possessed by Some People.

There is another kind of steam than that in which the boy James Watt, watching his mother's tea-kettle, first saw the great possibilities that long since have become realities.

This other kind of steam is human "steam." And it is a most important factor in our affairs.

Some people call this human "steam" by other names. They call it "push" sometimes, or "hustle," or "get-up," or "life." Well, it's all of these, but after all it's just "steam." It's the power to do things — a seemingly tireless power which some people possess.

Tou can call to your mind right this minute some men and women, boys and girls, perhaps, who always go about their work or play "with full steam up." They can accomplish more and do things better than other people. It's their "steam" that gives them increased power.

"steam" that gives them increased power.

Malta-Vita, the perfect malted whole-wheat Tood, fills men and women and children with the power to do things. It makes them strong in body and mind. It keeps up their "steam."

When Maita-Vita comes from the ovens, every flake baked crisp and brown, it is the most delicious and most healthful food in the world, containing only one per cent of moisture. The other 99 per cent is nutrition. And all this nutrition is digested most readily, even by the weakest stomach, because the gelatinized starch of the thoroughly cooked wheat has been converted by fine mait extruct into maltose, or mait sugar.

And Malta-Vita is so good to eat! There's no other food like it; none "just as good"; none that can take its place. Sold by all grocers.

# Hyomei Cures Catarrh Breaths it-

No dangerous drugs or alcohol concections are taken into the stomach when Hyomei is used. Breathed through the inheler, the balsamic healing of Hyomei penetrates to the most remote cells of the nose and throat, and thus kills the catarrhal serms, heals the irritated mucous membrane, and gives complete and permanent cure.

Hyomei is the simplest, most pleasant and the only guaranteed cure for catarrh that has been discovered. Complete outsit, \$1.00; extra bottle, \$0 cents. If you cannot obtain Hyomei of your dealer, it will be forwarded by mail. postage paid, on receipt of price. Write today for a free sample bottle and consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth company. Hyomei Building, Ithaca, N. Y. Woodard, Clarke & Co.

Mrs. Unruh toured eastern Oregon, idaho, Jowa, Michigan, New York, Pennsylvania, Maine, Massachusetts, Delaware and finally, on her return west. California. In Maine she spent four menths and found there the most vital results of the prohibitory laws. During her three days in Portiand she searched carefully, but falled to find a sign of ilquor being sold.

carefully, but falled to find a sign of liquor being sold.

Spoke at Colleges.

One of the features of Mrs. Unruh's trip this time was her speaking at colleges. She gave talks at Cornell, Albion college (Michigan), Bangor college (Maine), Mount Vernon college (Iowa). Presbyterian Occidental college and Whittier college (California) and Los Angeles Normal, besides a number of minor institutions. Everyhere there is a deep interest in the purity work, and Mrs. Unruh thinks that this phase has interested more people in the W. C. T. U. than any other department. She is, by the way, national superintendent of this department. Personal purity is the schools is the subject on which she addresses teachers' conferences. The question is now being taken up from the scientific rather than the ethical side and the common sense of the arguments appeals to many whom the movement did not touch before. With the interest of such men as President Jordan of Stanford and Luther Burbank, botanist of the University of California, the question takes on new importance.

Interest in Purity Work.

So great was the demand for talks on the subject when Mrs. Unruh was attending the national convention at Los Angeles in September that she could easily have put in her whole time on that subject had she been willing to miss the meetings. The convention was the most successful ever held. Ex-Governor St. John of Kansas, who is one of the oldest supporters of the W. C. T. U. and its purposes, was there; Mrs. Bidwell, whose husband was can-

one of the oldest supporters of the W. C. T. U. and its purposes, was there; Mrs. Bidwell, whose husband was candidate for president on the Prohibition ticket some years ago and who has worked faithfully with her husband on the famous Chico ranch in northern California for the Indians; Mrs. Abigail Scott Duniway, the pioneer suffrage worker and club woman of Oregon, and I. H. Amos, the prohibition worker of this city, were among important guesta. The next convention will be held in Hartford. Connecticut, immediately following the world's convention at Boston.

Talked in T. P. Roe's Church. Two interesting incidents in the visit of Mrs. Unruh will remain to mark this of Mrs. Unruh will remain to mark this trip. She was speaker one day at the church of Highland Falls, adjoining West Point. This church represents the only pastorate held by E. P. Ros before he acquired note as a writer of novels. Later, when his books had made him wealthy he gave the new church to the parish in memory of his stay there.

Mrs. J. Pierpont Morgan entertained Mrs. Unruh at tea at her home on the Hudson and she was a delightful hostess.

"It was delightful," said her guest.

hostess.

"It was delightful," said her guest, "to see in the midst of all the osientatious philanthropy of her husband, her quiet way of carrying on many beautiful charities. I do not admire Mr. Morgan but I admire his awest, unobtrusive wife greatly. She is interested in all good works and though she is not a member of the W. C. T. U., she sympathizes with its work and quietly lends her aid."

Work on the temperance literature for the year and woman's suffrage work will occupy Mrs. Unruh for the several months which she will now spend at home. She is an earnest laborer in the suffrage association and believes that the two organizations should walk hand in hand.

"Whatever the belief of a woman be fore entering the W. C. T. U.," she argues, "that work will drive her to be lief in the ballot for women. Women's lief in the ballot for women. Women's suffrage has not always accomplished what its most ardent supporters have expected, yet the practical results give confidence that it does tend to uplift morality. Unfortunately, suffrage has been granted women in states where the male population was so vastly in the majority that the best results have not yet had an opportunity to show themselves. Yet even thus there has been much purifying."

**Boise Says Property Owners Ar** Ready to Deposit Cost of Work.

ALL ENTHUSIASTICALLY FOR THE IMPROVEMENT

City Engineer Has Crew at Work Making Survey of Ground to Be Filled-Small Dredge Available in

Preliminary work toward dredging the harbor and filling the lowlands on has been started by City Engineer D. W. Taylor and Engineer J. B. C. Lockwood. The former has a crew engage in making a survey of the ground which is to be filled and the latter will begin a survey of the river Monday. As

gin a survey of the river Monday. As soon as the surveys have been finished and the estimate of the cost of doing the proposed work is made, he engineers will report to the committee of five representing the parties interested in making the improvements.

"The property owners will be ready to deposit the sum which the improvements will cost them as soon as the surveys and estimates are made," said Whitney L. Hoise, at a meeting of the committee yesterday afternoon. "All are willing to have the streets filled. Mr. Ladd, one of the leading owners, is much interested in the proposition. I am informed that all who have property between East Washington and East

## CASTORIA For Infants and Children. The Kind You Have Always Bought

Morrison streets desire to have their property filled. When the streets are filled the fire risks will be minimized.

"The Port of Portland should make the soundings and determine what it will charge to do the work. The estimates of the fills should be made by the engineers, and then it would not take long for the property owners to say what they will do. I believe the bulkheading should be done by the city, the property owners should pay for the cost of operating the dredge and the Port of Portland should stand the cost of keeping the dredge in repairs. The wharf property owners should also be willing to pay something as the deepening of the river would be of great benefit to them."

G. C. Flanders was of the opinion that the ground should all be filled to the basement grade with the dredges and above that the fills should be made with dump cars, as he did not think it would be practical to bulkhead and pump gravel from the river.

Engineer Lockwood said the small dredge would be ready to start work in about six weeks. It would be through on the Columbia Saturday but would be laid up for repairs for several weeks.

Mayor Lane suggested that a district

Mayor Lane suggested that a district assessment should be made to pay the cost of the improvements.

DELIGHTFUL NEWPORT. Splendid Weather at This Popular

## INDIAN BATTLEFIELD TO BECOME BIG RESERVE

(Special Dispatch to The Journal.)
Butts, Mont., Nov. 17.—Amos Buck of
Stevensville, representing the pioneers
of western Montana, has petitioned the state's representatives in congress to work for a measure this winter providing for the reservation of the historic Indian battlefield in the Big Hole country, where Chief Joseph of the Nez Perces battled the whites. Congressman Dixon had planned to make a trip into that country with relidents of the vailey, but the cold weather has prevented. Mr. Dixon will introduce the measure at the next session of congress Should the bill pass the restdents of Montana who participated in the skirmishes with the Indians in the Big riole country will start a fund for embellishing the place and erecting STORE 208 FRONT STREET, BETWEEN TAYLOR AND
