## BUSINESS CHANCES.

**100 MAY MAKE YOU INDEPENDENT.**  
We have a deed for eight claims in the heart of the Klamath, Alaska, oil and coal district. These claims are known as the "Crown" group and cost \$10,000. We propose to incorporate a coal and oil company and have the 100 shares of stock divided into 1,000,000 shares at \$1 per value each. Of this half will be placed in the treasury. The balance will be promotion stock and will go toward the purchase of the property and of this we set aside half for advancing the preliminary business, advertising, legal expense, etc.; the other 250,000 shares will be divided into 2,500,000 shares of \$100 each and which will give to each member 10,000 shares of stock at the rate of \$10 per share (as fast as money is required under terms of deed). In other words, those who come in and secure these memberships are the promoters and secure that amount of stock at the price of \$10 per share. We will be prepared to issue stock at once, as all preliminary work is done forward incorporating the company and stock is a short time we expect to be offering this same stock in the same place for the treasury. For more information, call on us or write to us for a prospectus. This is a great opportunity that you will not want to miss.
