

GLEASON TO BOSS THE SEALS

Owner Clunie Did Not Get Along Harmoniously With the Cranky Jim Morley.

LEAGUE MEETING WAS NOT A LOVE FEAST

President Bert Restores Flood in Order Not to Embarrass Portland Club Financially—Says McCredie Should Have Known Better.

(Journal Special Service.)

San Francisco, Jan. 30.—Jack Gleason will be manager of the Seals, and Jim Morley will not, says the Bulletin. This in your hat. No matter what answer comes from Los Angeles, Morley is out of the running. He could not have the position now even if he wanted it. The worst way. This was learned from one who is very close to Andy Clunie, which will be a surprise to the fans. It has developed that the recent meeting of the league was not such a peace conference as some of the magnates represented it was. On the other hand there were a number of lively tilts between different ones, and some of the hottest had Morley and Clunie for principals. Both are inclined to speak their mind freely, and their impetuous dispositions involved them in a number of set-toes. Before the convention was over, Clunie formed a different opinion of Morley from the one he had when they sat down together. Andy came to the conclusion that Jim was not the man he wanted to manage the Seals. Jack Gleason was sent for soon after the magnates adjourned, and advised that he was the man.

"Morley disgusted Clunie by his actions," said the writer's informant. "Jim didn't act just right here. He was too selfish altogether, and this didn't make a hit with Andy. As the boys say he quavered himself, and Clunie would not have him under any consideration. Gleason will be the man. He will have charge of the team, but Clunie is threatening to sit on the bench with the players. When the time comes it is doubted if he goes on the bench."

It was ascertained that Jim Morley was not the man behind the Flood-Murphy case. His explanation throws a little different light on the matter. "I reinstated Flood at the request of Judge McCredie," said President Bert. "and it happened in this way. Flood-Murphy was a case. Walter, traded Ats and Schlatly for Flood and Smith. Morley assured me that my ruling would not prevent Flood from playing in other leagues. "In other words the McCredie thought they would be able to sell Flood or trade him, and as Flood was a high-class man, they figured that this could be done easily, so they made the trade. When they found that my ruling held all over the country you can fancy their embarrassment. To have kept Flood down meant a loss of at least \$1,000 to the Portland club. Of course if I reinstated Flood, I had to do the same with Murphy. What I want the public to know is that I did this to help the Portland club out of a difficulty."

What Bert Says.

President Bert announced that Jim Morley was not the man behind the Flood-Murphy case. His explanation throws a little different light on the matter. "I reinstated Flood at the request of Judge McCredie," said President Bert. "and it happened in this way. Flood-Murphy was a case. Walter, traded Ats and Schlatly for Flood and Smith. Morley assured me that my ruling would not prevent Flood from playing in other leagues. "In other words the McCredie thought they would be able to sell Flood or trade him, and as Flood was a high-class man, they figured that this could be done easily, so they made the trade. When they found that my ruling held all over the country you can fancy their embarrassment. To have kept Flood down meant a loss of at least \$1,000 to the Portland club. Of course if I reinstated Flood, I had to do the same with Murphy. What I want the public to know is that I did this to help the Portland club out of a difficulty."

It seems strange that Manager Walter McCredie, who has been playing professionally several years, should not know that a suspended player is ineligible to play in other leagues belonging to organized baseball. The writer will never believe that the trade in question was a bona fide one to begin with. McCredie, who hated Fisher, merely loaned Schlatly and Ats to Morley to help him beat Tacoma out of the championship. At the proper time you will see Ats playing with Portland and Smith and Flood with Los Angeles. Schlatly would have gone back to McCredie had he not been drafted. One of the best proofs that the deal was not on the level was that the draft money for Schlatly was turned over to Portland, and not to Los Angeles, which it would have been if McCredie and Morley had been sincere.

Empire "Slats" Davis has been asked by President Bert that he can look for a job in another league this season. The Pacific Coast league has a rule that if four clubs ask for the removal of an umpire the president must obey. It looks like a bad rule, but nevertheless it is on the books. The president of a league should have full and complete control over the umpires, and the power of removal of the same should not be vested in the least way in the managers. If he thought an umpire was competent a hundred managers could not induce Ban Johnson to depose him. At the recent meeting of the

league it seems that "Slats" Davis was without a friend. There was not one voice raised in his behalf, and one and all were clamoring for his scalp. President Bert would have felt like making a fight for Davis but for that scandal he was a principal of just before the season closed. This scandal impaired Davis' usefulness to a marked degree, which was to be regretted, for he was the most promising umpire this league has turned out in a long while. Just who will be on President Bert's staff is not known at this writing. Phil Knell most likely will have a trial, and if Jim McDonald's health will permit, he may have an assignment. Bull Perrine may also draw a berth. If Bull had more ginger and aggressiveness he would make his work easier and give better satisfaction.

For the benefit of the cranks it will be noted that the playing season will not be divided in two parts as it was last season. By cutting the season to seven months it was not necessary to divide. There will be continuous baseball at Recreation Park. When the Seals are not playing the Commuters will be.

HANLON AND BRITT MAY FIGHT NEXT MONTH

In All Probability Coffroth Will Match the Two Popular Native Sons for a Go.

(Journal Special Service.)

San Francisco, Jan. 30.—The February fight attraction will no doubt be a "battle of the native sons." It looks like James Edward Britt versus Edw. Hanlon. Although Young Corbett and Willie Fitzgerald were just as anxious to swap punches with the ex-champion Jimmy Coffroth, grand mogul of the pugilistic trust, seems to think that the two boxers who first saw the light of day on California soil would attract the most coin into the box office. Like all of the big monopolies, the mittologist trust has his eye on the almighty dollar, and in addition to its ardent desire to corner the fight market it wants to corner as much of the maxims as it possibly can.

"Cute Eddie" has been on the trail of Jimmy for many moons and is tickled to death to think that he will at last get a crack at him. "If there is one man that I can lick, it's Britt," said Hanlon, in talking of the proposed match. "Not only that, but considering everything, I really am entitled to first call. Didn't I stay the limit with Herrera, who trimmed Corbett in short order? On dope I am the legitimate choice, and I think the public would rather see me look up with Britt than any of the other boxers who are hankering after a fight with him. I am feeling all right now, and with a few weeks' active training will enter the ring in magnificent fettle."

As both boys have a big following in this locality, Coffroth probably has made the wisest selection, and if Hanlon is able to get into as good shape as he was for Young Corbett he stands an excellent chance of winning from Jimmy. His peculiar style will puzzle Britt somewhat, and as Spider Kelly will be behind Hanlon, the latter will have an advantage, as the Spider has always been Britt's chief adviser and is on to his curves, so to speak.

Outer to Coach Seattle.

Spokane, Wash., Jan. 30.—Winnie Cutler, who was a member of Matt Stanton's Spokane team in the Pacific National league, and Charlie McIntyre's team in the Northwest league, goes to Seattle this week to take complete charge of the track team of the State university.

An injury to his pitching arm last season cost him his release. Since then he has been coaching. He is an old college athlete, having captained the track and baseball teams of the Santa Clara college. He has a remarkable list of records, including almost every event on the card from the 100-yard dash to the hammer throw.

DISFIGURED WITH ECZEMA

CUTICURA REMEDIES WORK WONDERS.

"As I was a sufferer with eczema I write to tell you what a great friend I found in Cuticura Remedies. In six months I had tried three doctors, but did not get any better. It was on my body and on my feet so thick that I could hardly put a pin on me without touching eczema. My face was covered, my eyebrows came out, and then it got in my eyes. I then went to another doctor. He asked me what I was taking for it, and I told him Cuticura. He said that was a very good thing, but that he thought that my face would be marked for life. But Cuticura did its work and my face is now just as clear as it ever was."

"My brother-in-law told me about the wonderful Cuticura Remedies. I took his advice and got the Ointment, Soap, and Resolvent. I washed with the Cuticura Soap and then applied the Ointment, and took Cuticura Resolvent as directed. In a short time my face began to get better, and when I had taken one bottle of Resolvent I could brush the scales off my face like a powder. When I had taken four bottles my face was as clear as ever."

"I told all my friends about my remarkable cure. I feel so thankful I want everybody far and wide to know what Cuticura can do. It is a sure cure for eczema. (signed) Mrs. Emma White, 641 Cherrier Place, Camden, N. J., April 25, 1905."

AUTOS FLY OVER TWO MILES A MINUTE

De Mogueit Wins Wreath by Making Two Miles in Fifty-Eight and Four Fifths Seconds.

(Journal Special Service.)

Ormond, Fla., Jan. 30.—The fastest time ever made in an automobile was run by Victor De Mogueit yesterday afternoon in the two-mile race here, when that devil driver made the distance in 58 4/5 seconds, an average speed of 123 miles an hour. The two mile event was the closing race of the meeting and the excitement was intense. Marrott made the first try, but could do better than 1:02. De Mogueit clipped off the two miles in 1:01 4/5. Another trial was given and Marrott shot along in 59 2/5 seconds. The spectators thought that this mark would stand as the world's record, but when De Mogueit came tearing along on his big French 200-horse power machine and made the distance in 58 4/5 seconds the crowd showed its appreciation by giving the victor a great ovation. After De Mogueit was covered with the victor's wreath the parade started and all the races were over. The day's races were: Thirty mile handicap, American cars, all powers—Marrott, 46-horse power steamer; time, 34:18 2/5; actual time, 28:38 2/5. Fifteen mile open championship—Lancia, 110-horsepower, gasoline; time, 10:15 1/5. Ten mile open championship and ten mile heavy-weight championship (run together)—Lancia, 110-horsepower, gasoline; time, 6:19 3/5. Ten-mile handicap—Lancia (scratch); 110-horsepower, gasoline; time, 6:18 2/5. Two mile a minute trial—First set, De Mogueit, 290-horsepower, gasoline; 1:01 2/5; second set, De Mogueit; time, 0:58 4/5.

The Judge Is Hopeful.

Dear Journal—Again tell the fans not to worry. Things loom up bright for Portland again this year. My predictions last year, while somewhat off, were as strong as I could make them. There is nothing like handing out the dope early in the game. I arrived home last evening from California, where I represented Portland and where I saw, say, everything that I asked for. I was anxious for Portland to open the season at Fresno, because two years ago Portland made \$125,000 during the opening week, being getting a box of Fresno's celebrated raisins. This year we expect to get no money, but a liberal supply of raisins. They help to all up and make the men play "swell" ball. This year we do not want such men as old man Fleming's "Sigh" Perry, "Rip" Hoffman, Swindells or Corbett. We are going to have real live ones. I have completed several very important details for next season. Portland lovers of the noble American game will be pleased to learn that a very important position has been filled by the best man for the place in the country—that is, "Joistie" Higgins has been assigned to sell tickets. The team will also be greatly strengthened by having reinforced seats in their uniform trousers. Second base will be greatly improved. The sack here is somewhat worn out, and a new one will be put in position. As the judiciary is calling me, I must be away and will report to you later. Happily yours, THE JUDGE.

Sport at Spokane.

(Special Dispatch to The Journal.) Spokane, Wash., Jan. 30.—Efforts have been made by fans interested in the O'Keefe-Parker fight at the S. A. A. C. February 16, to induce Kid Scaler and Freddy Weeks to meet for a 15 or 20-round bout before the main event. Scaler has objected to fighting a preliminary card, so Manager Eddie Quinn has been induced to bill a double event. The pictures of all four scrappers will be on the bills and money will be offered for the Weeks-Scaler bout than has ever been offered for a preliminary at the club.

Scaler refuses to consider a meeting with Weeks unless he can see enough money in it to justify the trouble of training. He says that if \$500,

ABANDONED LAND IS BEING SOWN TO WHEAT

(Special Dispatch to The Journal.)

Echo, Or., Jan. 30.—A tract of land south and west of Echo, which was once in cultivation and which was abandoned by the old settlers in 1854, when the wheat went down to 25 cents per bushel, on account of the hard times throughout the country, is being filed on again on account of the wonderful coming out of the country. Pioneers say that as high as 35 bushels of wheat was raised on this land. Different parties now have as high as three and four hundred acres of this land, which will be put under cultivation this spring. The land lies about five miles south and west of Echo and extends from 15 to 25 miles. A portion of it was under the old survey of the old John Day project and is very productive.
