

GET IN ON OWN TO LOOP VALLEY THEATRE ON EAST SIDE NEXT

This Is What Portland Must Do to Secure Belt Line, Says F. I. McKenna.

MUST ACT WHILE THERE IS YET THE OPPORTUNITY

Meeting Held at Eagles' Hall Indorses City Ownership of Link Line Railroad, Docks, Railroad Bridges, Boulevards and Increased Parks.

A pull altogether for a municipal belt line, high bridges, and boulevards that will yield a revenue to support themselves and a surplus sufficient for construction, was the determination made by men attending a meeting held last evening at Eagles' hall under auspices of the municipal enterprise committee of the Portland board of trade.

Strong speeches were made by Francis J. McKenna, Mayor Lane, Wallis Nash, F. A. Jones, W. B. Chase and C. W. Miller, favoring city ownership of a railroad belt line, bridges, boulevards and electric power.

Mr. McKenna believes the city could not only pay for the belt line, but also for the other improvements mentioned.

Willamette Valley Company Building Out of Salem Rapidly, Says J. R. Whitney.

REPUBLICAN CLANS TO GATHER AT SALEM

State Printer Whitney Announces Candidacy for Relection, Saying That Two Terms Are Necessary to Get Best Results in Office.

Construction work is progressing rapidly out of Salem on the proposed electric line which will loop Willamette valley, linking Portland, Salem, Albany, Woodburn, Eugene and other towns along the river.

The Willamette Valley company is making elaborate preparations to loop the valley with the finest electric road in the state.

There is going to be a gathering of the Republican clans at Salem on Lincoln's birthday, February 12.

Mr. Whitney believes in a second term, not because he wants it in this instance, but because he believes that it takes about a term in office for the average man to become thoroughly acquainted with his duties.

RUN DOWN AND NERVOUS

Vinol Restored the Health of Miss Blair, Free of Sophomore Club.

A member of the firm of Woodard, Clarke & Co., our well-known druggists, says: "Many people right here in Portland are just in Miss Blair's condition, all run down, hardly able to drag about, don't know what ails them."

MISS ROSE BLAIR.

"This condition is probably caused by a cold or cough which is hard to cure, overwork, or too close confinement to business. Such people need Vinol. We guarantee that it will cure them and build them up or return money whenever it fails, and the following letter is only one of many showing what Vinol will do."

Miss Rose Blair, president Sophomore Club, Kansas City, Mo., writes: "Last spring I was all run down, nervous and could not sleep. I tried many medicines without any benefit. Your cod liver preparation, Vinol, was recommended, and it certainly worked wonders for me. It was delicious to take and not at all like the greasy cod liver oil and emulsions I was used to. Vinol gave me a hearty appetite and restored me to perfect health and strength. I consider Vinol a wonderful remedy."

"Vinol cures conditions like this because it contains every one of the curative medicinal elements found in a cod liver oil without a drop of the useless oil to upset the stomach and retard its work, and it strengthens every organ in the body."

We ask every run-down, nervous, debilitated, aged or weak person in Portland, and every person suffering from stubborn colds, hanging-on coughs or bronchial troubles to try Vinol on our guarantee to return money if it fails. Woodard, Clarke & Co., Druggists.

For the purpose, especially in Montgomery gulch, which at present is regarded as only an eyesore. "If Los Angeles had Sullivan's gulch," said Mr. Sharkey, "it would either purchase it for a city park and spend \$100,000 on it, or it would be fanned up and tourists would be charged admission to see the great chasm. They make a virtue of their necessities, which is something we have never learned to do."

A skating rink has been opened on the top floor of the old Kadderly block at Union avenue and East Oak streets, which was partially ruined by fire last summer, but which has been rebuilt, so that it is practically new structure.

St. John's citizens will gather in mass meeting tonight to organize two loss companies and a ladder truck company. Apparatus is already on hand for three crews and with the new pumps and service tanks the water company is able to supply adequate pressure to most of the town.

The funeral of S. V. Hasbun, who for 14 years had been president of the Grattan & Knight Manufacturing company, was held this afternoon from the residence of S. Q. Pier, 157 East Thirty-first street. Burial was made in John Pier cemetery. Rev. J. J. Staub having charge of the service. Mr. Hasbun died at St. Vincent's hospital yesterday after a serious operation.

W. R. Reynolds is having constructed a two-story dwelling at East Davis and Thirty-first streets at a cost exceeding \$2,000.

MRS. MIMS WILL TALK ON CHRISTIAN SCIENCE

Complimentary Lecture Provided by Local Churches of Faith at Belasco Friday.

The semi-annual complimentary lecture on Christian Science to be given under the auspices of the First and Second Churches of Christ, Scientist, at the Belasco theatre next Friday evening, by Mrs. Sue Harper Mims, C. S. D., of the official board of lecturership of the denomination, will be an opportunity for people to hear the subject presented by one who for more than 20 years has been an earnest student and practitioner of this teaching.

Mrs. Mims at the beginning of her investigation of Christian Science was healed of chronic inflammation of the eyes, and since that time has devoted herself to the promulgation of the doctrine as practitioner and teacher. During the past six years she has lectured in most of the principal cities of the east, south and middle west, and the past month has addressed large audiences in California. She is en route eastward via Portland, Seattle, Walla Walla and Spokane.

The Richmond Times-Dispatch has the following to say of Mrs. Mims and her lecture recently delivered in that city: "Mrs. Mims is one of the first ladies of Atlanta, Georgia, being the wife of the ex-mayor, Major Livingston Mims. She is a typical lady of the land, most gracious and charming in her manner, very sweet and friendly, but when it comes to the matter of her lecture, she becomes really masculine in her grasp of the subject, the clear elucidation of its depth and the far-reaching logic with which its statements are driven home. She was listened to with the deepest interest and the audience departed evidently well pleased with their experience."

Mrs. Mims made it very plain that Christian Science healing results from the practical understanding that God is spirit and man as his child is spiritual and not material. True man can be seen as the spiritually perfect son of God, then his sins and sicknesses disappear. It is this truth of being that heals, not human will nor infirmities. Thus Christian Science teaches that sin and disease, have no divine authority.

The coming lecture by Mrs. Mims will be the eleventh provided the public by the churches of Portland, and if the probable attendance may be judged by the general interest and attendance on past occasions, the Belasco will be taxed to its capacity.

The admission will be free and no general reservation of seats will be made. The doors of the theatre will be open at 7:15 o'clock and closed at 9 o'clock, sharp, at the time the lecture begins.

PLAN TO TELL AMERICANS TO SEE AMERICA

Local Commercial Organizations Appoint Committees for Meeting.

Committees have been appointed by Portland commercial organizations for the see-America meeting to be held in Portland February 15. A program is being prepared for the occasion.

CAMPAIGN FOR PARKS.

Leading East Side Men Expect to Make This an Issue.

East side men who visited Los Angeles on the recent jaunt of the Commercial club and Development league to the south have returned with some larger ideas regarding what the east side should do in advertising and in park maintenance.

Mr. Sharkey suggested that nothing was ever done without money and passed himself on record as being willing to contribute liberally to any fund that would boom the east side.
