

# OREGON AIR FOR TUBERCULOSIS

### State Board of Health Certain Than Open-Air Sanatorium Will Cure Disease.

### WANT SANATORIUMS THROUGHOUT STATE

### Campaign of Education to Be Begun With View to Arousing Public Interest and Securing Appropriation From State Legislature.

After visiting the Open-Air sanatorium on the river bluffs north of Milwaukie, and noting the wonderful results being achieved there the members of the state board of health are more thoroughly convinced than ever that tuberculosis is curable within its environments. They contend that the climate of Oregon cannot be surpassed as a curative, with a prescribed course of treatment, that it is not necessary for persons afflicted with consumption to seek a higher or drier altitude.

With a view to impressing those facts upon the public and arousing interest in the state, the board at its special meeting yesterday afternoon decided upon an educational campaign. Its scope is fully explained in the following statement by Dr. C. J. Smith of Pendleton, president of the board.

"The public must be educated up to the fact that consumption can be cured in Oregon; that physicians must not feel constrained to send their patients away, and that the state legislature must appropriate money for a number of open-air sanatoriums. The great mass of statistics that the board has collected from specialists from all over the world are convincing that the open air treatment, with proper food, is the only treatment for the disease.

"The board does not favor one large state sanatorium, but a number of smaller ones, similar to the one north of Milwaukie. They are nominal in cost, easily maintained and conducive of more good than usually supposed. The cost of food is the greatest expense in connection with the maintenance of such an institution.

### PUBLIC SCHOOL RALLY IS HELD AT LEBANON

(Special Dispatch to the Journal) Lebanon, Feb. 8.—(Journal) A rally was observed as a rally day by the Lebanon public schools. Superintendent of Instruction J. H. Ackerman and President H. M. Crooks of Albany college, together with several prominent citizens of the town, addressed the pupils and visitors at the school building in the afternoon. The work of Principal E. K. Barnes and his corps of teachers was highly commended. In the evening at the Methodist Episcopal church a book shower was held and a generous supply of books was received, which will be added to the school library.

### A QUESTION OF COST.

In any number of stores you'll see various preparations of cod liver oil at as many different prices. You'll wonder, perhaps, why Scott's Emulsion costs more than some other kind in as large a bottle. Hearing only one side of the question, you may be led into buying the "just as good as Scott's" at the lower price. That's false economy. Scott's Emulsion costs more because its more expensive to make. Every ingredient is tested and guaranteed of the purest quality. No adulteration, no shaving of quality. There's no economy in bargain medicine. If you can afford to experiment with your health, substitutes may satisfy you. We take it, however, that you want a pure preparation, a reliable remedy and something that's going to help you. That's what you get in Scott's Emulsion. Thirty years the standard.

### THE VALUE OF CHARCOAL

Very few people know how useful it is in preserving health and life. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

### WANT SANATORIUMS THROUGHOUT STATE

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking, drinking or eating onions and other odorous vegetables. Charcoal effectively clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

### RIDES OVER VETO, TWO OPPOSE

### All but Councilmen Vaughn and Menefee Favor Harnessing Departments.

### MAYOR PLEADS FOR MORE ELASTICITY

### Masters Says Action Is Only as Charter Requires, Bennett That Constituents Demanded It—Veto of Fish License Sustained.

All the ordinances making appropriations for the current year were passed over the mayor's veto by the city council last night. Councilmen Vaughn and Menefee were the only two members who dissented from the action of their fellow-members in specifying the amounts to be expended during the year for each item in the different departments.

### Benefit for Priest Who Was Burned

A musical and literary entertainment for the benefit of Rev. Father Alexander Castellani is to be given at the Baker theatre Saturday evening, February 10. The entertainment was given at the burning in the fire which gutted the parsonage in the rear of St. Michael's Italian Roman Catholic church, corner of Fourth and Mill streets, last December. The program for the benefit follows:

### DIG UP STREETS FOR EXERCISE

### Inspectors Find Many Evidences of Gross Negligence on Part of Plumbers.

### LEAVE UNCONNECTED PIPES UNDER FILL

### Expense, Trouble and Danger Caused by Carelessness of Private Contractors Tearing Up East Side Streets to Make Repairs.

The east side office of the Journal is in the store of J. M. C. Miller, 200 East Morrison street. Telephone East 724.

The city sewer inspector and other municipal officials whose duty it is to oversee work that necessitates the tearing up of streets and the relaying of pavement are open in their opposition to the present city ordinance that allow any licensed plumber to tear up a street and after completing the particular job he had to do to leave the rest of the pipes and street surface in any condition that he may see fit.

Recently a short drain was laid on Union avenue near Broadway. Workmen in excavating through the new fill discovered that some plumber had left a three-quarter-inch water pipe disconnected, allowing a steady stream to soak into the fill. Because of this negligence it took several days more to build the sewer than would have been necessary ordinarily. The entire fill below the street was saturated to a mass of mud. The workmen had to build a frame in order to lay their conduit and the water office is short several thousand gallons of water that had seeped during the weeks and probably months since the plumber departed. The water had caused the fill to settle materially near the leak and the car company will be forced to supply a few loads of dirt to bring the street back to grade.

Such instances are said by the inspectors to be by no means rare, and they favor a change in the city laws that will insure a plumbing job being finished when started. The policy of the corporations in tearing up recently laid pavement when by the exercise of a little forethought the underground changes might be made before the pavement was laid also condemned by the inspectors, and on this subject the East Side Improvement association has taken a decided stand. So far as possible, east side councilmen are having wires, pipes and drains laid on streets to be improved before the pavement is laid and on several large municipal contracts recently the contractor has been notified to leave certain blocks until the old pavement is torn up and the city is ready to start work on the new contract.

### FEW BIG PARTY LINES.

### Wanted a Contractor.

University Park Has Two Big Grading Jobs With No Bidder in Sight.

University Park citizens may have to form themselves into a pick and shovel brigade and do their own street improvement work. Several important contracts in this suburb are waiting a bidder, for, though extensively advertised, no one has come forward even to make an estimate. At a mass meeting of the board of trade, to be held February 12, the matter will be taken up and an effort made to reach an understanding with some contractor so that work can be begun at once. It is desired to bring the main street of the suburb, Dawson street, to grade and lay sidewalks. Dawson street bisects the place and for more than a mile a two-foot cut will have to be made, while no fills will be necessary, giving the contractor a quantity of dirt for fill contracts elsewhere.

### WANTED A CONTRACTOR.

### Everyone Should Know How to Cure Croup and Be Ready When the Attack Comes.

### A Mother's Darling Saved—Read What She Says.

"I feel that God has blessed Dr. Acker with special knowledge to prepare that grand medicine called Dr. Acker's English Remedy for Croup and Whooping Cough. I have used it many times and it has cured my children every time they were attacked by Croup. My mother should know about it, and I will tell you about my experience. I had a darling boy four years old with Croup. My doctor did all he could, but the child could not be made to vomit. That was here in the winter of 1918. I got a bottle of Dr. Acker's English Remedy. After I had heard of it I got a bottle. When our little eight-months-old girl was stricken with Croup, I gave her this medicine, and inside of twenty minutes she vomited and was better right away. During the winter she had Croup four times, and it brought her through each time all right. I myself had Bronchitis pretty bad and Dr. Acker's English Remedy cured me completely. Before I close, I want to tell you about my neighbor's boy, named Job Nana. He had Bronchitis, too. He got worse all the time. His mother went over to his home and told him about my case. Then his mother sent for Dr. Acker's English Remedy and he took it. He came over to our house a few days later and said he was all right and also said two doses relieved him from the start. You can understand by my letter why I think so much of Dr. Acker's English Remedy. It says that God's blessing must really have been bestowed upon Dr. Acker. (Signed) Mrs. John Yeager, Rochester, Pa.

### HYOMEI CURES CATARRH

Has Healing Salts Kill All Catarrhal Germs—Sold Under Guarantee by Woodard, Clarke & Co.

There is no more common disease than catarrh, and none that is more dangerous. It weakens and debilitates the whole system, if it is allowed to run, leads to serious, and sometimes fatal, complications. It is a noteworthy fact that among the many medicines and treatments for catarrh there is only one which Woodard, Clarke & Co. sell under their positive guarantee to refund the money if it does not cure—Hyomei. Nature's remedy for the cure of catarrh.

No dangerous drugs are taken into the stomach when Hyomei is used. Breathed through the small pocket, inhaler that comes with every Hyomei outfit, its healing balsams penetrate the most remote parts of the throat, nose and lungs, killing the germs of catarrh, healing the irritated mucous membrane and making complete and lasting cures.

The complete Hyomei outfit, consisting of an inhaler that can be carried in the purse or vest pocket, a medicine dropper and a bottle of Hyomei, costs only \$1. The inhaler will last a lifetime, while extra bottles of Hyomei can be procured, whenever needed, for only 50 cents.

In the city but main lines at a flat rate. Gradually the party service will be weeded out and every patron given the undisturbed use of his line.

### LONG TRAMP FOR GAURDSMEN

Local Militia May Take Practice March Instead of Going Into Camp This Year.

### ANOTHER MILLION DOLLARS IS ASKED

If the Additional Appropriation Is Made, Says Adjutant-General Finser, There Will Be More Money to Spend for a Target Range.

Oregon's national guard may go on a practice march this year instead of enjoying camp life. The matter is now under consideration by Adjutant-General William E. Finser and the other officers of the guard. The proposed deviation from the general rule and the establishment of a standard gauge target range, will depend largely upon a bill now pending in congress "to increase the efficiency of the militia and promote rifle practice."

The bill carries an additional \$1,000,000 for the annual use of the militia of the country. The National Guard association which recently met in Washington endorsed a bill drafted a year before at the organization's session in St. Paul, Minnesota, asking for an extra \$1,000,000.

Adjutant-General Finser said this morning that if congress appropriates the extra funds it will have an important bearing upon the decision as to whether the guard this year shall go into a regular camp or go out on a practice march of about 40 to 75 miles. The selection of a site for a target range will also be affected by the action of congress, for with the passage of the act the guard will have additional money with which to rent the ground.

Congress annually appropriates about \$100,000,000 for the regular army, which has about 65,000 men and officers. The National guards of the country number about 125,000 men and officers and we only get \$1,000,000 a year. You see we are not asking much when we petition for an additional \$1,000,000.

The extra \$1,000,000 will mean about an additional \$7 per man from the government for our guard. The state gives us, in round figures, \$42 per man and officer. We have lots of use for the money, which can be advantageously expended for ammunition for the target range, better equipment and a thousand and one incidental things.

Big Shipments to Mill. (Special Dispatch to The Journal) Aberdeen, Wash., Feb. 5.—The Western mill now has extensive improvements under way which will cost about \$5,000. These include a dry kiln, an addition to the mill, a lumber shed, planing mill and the installation of new machinery.
