EIGHT CLOSED EARS TO APPEAL FOR DECENCY

Council Votes for Another Investigation to Be Conducted by Committee of Three and Passes Clearly Unconstitutional Ordinance.

Again the liquor element in the city council triumphed last eight by frus-trating the attempt of the majority of the members of the liquor license com-mittee to revoke the liquor license of the notorious Richards establishment, and by refusing to accept the box ordi-nance recommended for passage. Eight members of the council closed their ears to the appeals of respectable people of Portland and of Mayor Lane, and in the face of the most convincing evidence that all the laws of decency and respect, besides the municipal laws

and respect, besides the municipal laws had been violated by the proprietor of the place, they poked fun and made light of the matter and declared that the investigation into the charges made by Mayor Lane against the establish-ment by the liquor license committee had been a force of the stablish-

by Mayor Lane against the establish-ment by the liquor license committee had been a farce. Annand and Shepherd, two of the most ardent supporters of Richards last night, are members of the liquor ticense committee and participated in the in-vestigation which the committee' made on the charges of the mayor. In order to avoid the issue they proceeded to cast reflections, not only on their fellow members of the committee, but unvit-tingly on themselves by declaring the investigation a farce. investigation a farce.

Ordinance Unconstitutional. Instead of taking away the license the council voised by \$ to \$ to call sin-other investigation to be condinated by a committee of three appointed by the mayor. Later in the meeting this com-mittee was clothed with the power of a judicial body by the passing of an or-dinance to compal witnesses to appear when summoned before a council com-mittee and force them to give testi-mony under penalty of fine or imprison-ment. Such an ordinance is clearly un-constitutional, as it confers on the council the authority of a judge. It was passed for the purpose of forcing the which the liquor interests are and the source.

Investigation Was Thorough. Investigation Was Thorough. "This matter was most thoroughly in-vestigated." said Vaughn. "We cited witnesses to appear, had a stenographer here to take the testimony, Richards was here with his attorney, who cross-examined the witnesses, and if he failed to bring in his own witnesses he him-self was derelict. If there is a place in Portland which should be closed it is the Richards hotel.

Shepherd rose to a point of order and said that instead of talking on the point at issue Vaughn wag talking to the

Portland, Feb. 8.—To the Editor of The Journal—Some days since the Ore-gonian had an article so worded as to throw upon the Methodist church the responsibility for a condition which is contrary to Methodism. At the request of the official board of Grace M. E. church I was asked to write a state-ment of the position of the Methodist church on the liquor traffic and make it entirely impersonal. I did so, men-tioned no one's name, nor the name of the church used by the Oregonian. The Journal—For the purpose of clear-ing up some evident misunderstandings regarding the relation of the Portland Municipal association to the question of the box ordinance. ordinance and of various new ordinances which have been introduced as sub-stitutes therefor. All such statements are untrue and the only foundation upon which they can have gained currency is the expression of opinion which in-dividuals may have given as to the merits of such changes or new measures.

From the very beginning of the dis-From the very beginning of the dis-cussion with the present council and its liquor license committee this asso-clation has consistently and persistently maintained that it desired no change in the ordinance passed by the previous council, but that the same should have a fair trial accorded it. The ground which we have always taken has been the entire elimination of the box from the store aligner restaurant. the entire elimination of the box from the saloon and liquor-selling restaurant, and we have insisted that no com-promise measure would ever be satis-factory to the citizens of Portland who have the deepest welfare of the com-munity at heart. That the original or-dinance would accomplish the end in view we had good reason to believe, and the very best evidence of this is the eagerness which the liquor inter-ests have displayed in seeking its re-peal or amendment. For the time be-ing they seem to have succeeded with the council, and the amendment se-cured by them has effectively defeated this object inasmuch as it allows boxes of a specified size. In view of this and last night's action in the Richards mat-

Remarkable Progress. The success that has been attained in bringing into general demand and mak-ing popular all over the United States Moet & Chandon "White Seai" cham-pagne, vintage of 1900, is shown by the Custom house statistics of importations during the year 1906. No less than 99,387 cases of Moet & Chandon cham-pagne were brought into the port of New York had year, keeping this grand wine at the head of the list, the amount being over 50 per cent greater than the importations of the brand which stands second on the list. Recently a mountain of evidence has been rolling up that shows Portland to be directly in line for a large share of the Alaska business. It is said the starting of a steamship line will not only be a boon to the jobbers and manufacturers, but that all business and industry is vitally interested. The wealth that comes from Alaska should and will come in large measure to Portland if steamships are running from Seward, Valdes, Nome and the Copper river country to Portland. Millions of dollars' worth of merchan-dise sent up from Portland to those points will bring back other millions of money to be invested in Portland's commercial, financial, industrial and real estate propositions.
