FRANKIE NEIL AND HARRY TENNY WILL BE FEBRUARY CARD ON 'FRIACO'S' PROGRAM.

MATCH WILL EXCITE CONSIDERABLE INTEREST

NEIL HOLDS A DECISION OVER TENNY, YET THE PUBLIC WANTS TO SEE ANOTHER CONTEST—"HONEY" MELLODY HAS WELTERWEIGHT CHAMPIONSHIP.

(Journal Special Service.)
San Francisco, Feb. 2.—In discussing the local fight situation, W. W. Naughton has the following to say in Wednesday's Examiner:
"The public opinion concerning the fight between Frankie Neil and Harry Tenny will furnish the pugilistic excitement for San Francisco's big crowd of fight followers this month. The little fellows are Frankie Neil and Harry Tenny, and they will meet in a bout at the Mechanic pavilion on the night of February 27. The articles require the middle to make a ring-side weight of 135 pounds, and the 50 per cent of the receipts allocated to the boxers will be divided in the proportion of 75 and 25 per cent, the winner, of course, taking the larger share."
"The match will excite interest for more than one reason. To begin with, the bout is the last of the year, and, although Neil gained the decision, the contest was of a character that left the question of superiority between the pair undetermined so far as public opinion was concerned."
"Since then many attempts have been made to bring about a return match, but without success until Morris Levy of the Associated Athletic club undertook to sign the boys. Matters were brought to a head last evening, when Neil and Tenny attached their signatures to an agreement calling for a bout under the terms mentioned."
"Neil has arranged to train at Croli's Gardens in Alameda. Tenny has not selected quarters yet. It is believed he will go into camp at Shannon's road house, San Rafael."
"Who is the welterweight champion? Some time ago, when it became evident that Joe Walcott, owing to gathering years and the fact that he had shot some of his fingers away while fooling with a revolver, was no longer able to defend the title, it was practically agreed that Buddy Ryan had the best claim to the distinction. But Buddy was defeated by Jimmy Gardner, and Gardner in turn struck his colors to Mike (Twin) Sullivan. Recently Sullivan went under to Joe Gans."
"It so happens that Gans has no desire to be known as the best of the welterweights. He claims the lightweight championship and is devoting the whole of his energies to bringing about matches with Battling Nelson and Jimmy Britt to decide who is the best 135-pound man at present engaged in the fighting business."
"Meanwhile 'Honey' Melody of Boston seems to have laid violent hands on the welterweight title. He has bought a stock of brand new stationery and has had the name of Melody embossed on his lettershells beneath his picture."
"The writer is in receipt of a communication from Melody in which 'Honey' issues a challenge to Gans. He says: 'I am ready to box Gans at the weight he boxed Sullivan, 145 pounds at 3 p. m. and will post \$1,000 to bind the match. Am not averse to boxing any other writer out there if terms are satisfactory.'"
"It isn't likely that Gans will turn aside from his pursuit of Nelson and Britt to engage in other fights under welterweight conditions, but it looks as though Melody will be seen in the ring here in March with Mike (Twin) Sullivan for an opponent."
"As a matter of fact, Melody was offered the February contest, but he declined on the score that he had signed to box at Chelsea, Massachusetts, this month. He asked that the March date be set aside for his match with Sullivan and the leaders of the local fight trust have about decided to grant his request."

WATER SPORTS INTEREST MANY AT MULTNOMAH

Water polo enthusiasts had their inning at the Multnomah club last night, the occasion being a polo match and several other water contests. In the diving for objects competition, Davis pulled up 34 out of 35, and was declared winner. Stepp was second and Otten third. Blagden won the 100-yard race with Brandt second and L. Thomas third. Blagden captured the 440 race, G. Thomas second, and Stepp third. The polo game between the Junior teams of the Y. M. C. A. and the M. A. C. resulted in a tie, two goals apiece. The lineup was:
M. A. C.—Sharp and Donnell, forwards; Douglas, center; Blagden and Cox, backs; Stepp, guard. Y. M. C. A.—Riley and Smith, forwards; Korroll, center; Hughes and Rose, backs; Allen, guard.

SPORTING GOSSIP

Jack Gleason, the new manager of the San Francisco baseball team, will be compelled to give up his position as leader of the Olympic club on account of professionalisms. The rules of the Olympic club provide that any one connected with a professional club forfeits his membership, as he is deemed a professional. What shall constitute a professional?

VINOL'S RELIABILITY

Countless physicians and druggists are now prescribing and endorsing Vinol as the most valuable cod liver preparation known to medicine, and it is fast superseding all other forms of cod liver oil.
A prominent physician writes: "I am satisfied that Vinol derives its wonderful life-giving and strength-creating power from the medicinal curative elements found in cod's liver. It is the best strength-creating and vitalizer for old people, weak women, children and the convalescent that I ever saw."
Another physician writes: "I could cite many cases where health has been restored in a surprisingly short time by Vinol. I should be very sorry to have to do without Vinol in my practice. It has no equal for hard colds, throat and bronchial troubles."
Now, when we tell you that we have never sold in our store a remedy of such remarkable curative and strength-creating power as Vinol, for the weak, the sick and the aged, and that if it fails to accomplish what we say it will we will refund your money without question, no ailing person should hesitate to try Vinol with such an understanding.
In cases where cod liver oil, emulsions and other forms fail, Vinol will heal, strengthen and cure." Woodard, Clarke & Co., druggists.

FOUR CYLINDER TOURING CAR

We present the Stevens-Duryea to the user, present and prospective, for consideration with a well-justified confidence, which past successes have brought. We know that it is just as much to our interest to sell you a good car as it is to your interest to buy a good one. We do not claim to be the only dealers who look at this business from that standpoint, but we know that there are many who do not. Some dealers think that they serve their best interest when they select the big, low-looking car that sells best to the unophisticated public—whether they make a satisfactory automobile, a booster for the business in general and a future customer never enters their minds. Suppose, however, you buy an automobile. It gives you good satisfaction, much pleasure, and does not cost you a fortune to keep it going. Your friend comes to you and says: "Old man, how do you like it?" "Fine, you will say. He is what we would call a booster. The Stevens-Duryea is the car that makes them."

The arrangement of the power plant in the Stevens-Duryea marks the most important improvement in the history of four-cylinder cars. The engine, multiple disc clutch and sliding gear transmission are combined into a single unit, which is supported in the car at three points. This three-point support protects the mechanism from all road strains, and so greatly increases the life of all parts. The three-point support idea isn't new, but the working out on the Stevens-Duryea is. It is something that you will hear more and more about from now on.
If you are interested, call Main 5465 and make arrangements for demonstrating ride.

TO BUY A SUMMER RESORT FOR POOR CHILDREN

New York City Figuring on Purchase of Long Beach as Outing Place.
(Journal Special Service.)
New York, Feb. 2.—The board of estimate of New York is holding a public hearing today in regard to a gigantic proposition for the creation of a municipal fresh air charity for children and convalescent hospital patients. The plan is to purchase a large tract of land on Long Beach, Long Island, as well as the purchase of the entire property at that place, owned by the Long Beach Hotel company. This includes the Long Beach hotel, as well as over 20 cottages. The plan was originally suggested by Mayor McClellan in his annual message and since then the project has been carefully investigated by the friends of the plan. Nothing definite could be learned as yet in regard to the price which the Long Beach Hotel company puts on its property. It has a total acreage of something like 3,000 acres. Of this only the 1,000 acres along the waterfront is desired by the city. It is understood, however, that the company valued its entire holdings at several million dollars and that part which the city would purchase is the scheme goes roughly at about \$1,000,000.
The plan has many friends and supporters, but there is also some strong opposition to it. The Rockaway Beach Taxpayer's association is among the opponents of the Long Beach plan and will strongly advocate that, instead of purchasing the Long Beach property, the city acquire the barren and sandy waste at Rockaway Park.

COLONY OF JAPANESE SETTLED ON ARID LAND

(Journal Special Service.)
North Platte, Neb., Feb. 2.—In setting aside irrigable lands, which come under the big government canal near Guernsey, the government has discovered that a colony of Japanese has obtained control of a big body of the best located of the lands and are busy farming them. The lands were almost worthless when the Japanese took charge of them, but now the fertile and valuable. The Japanese were brought in to work in the sugar beet fields, but soon emancipated themselves and started their own farms. They cannot be dispossessed.

NEW ORLEANS SEEKS TRADE OF PANAMA

(Journal Special Service.)
New Orleans, Feb. 2.—As the result of constant complaints that the merchants of New York had the advantage in selling goods, the Panama canal commission has been appointed the purchasing agent of the Panama Railroad company, and for the next year it will buy just one half of all the supplies needed in New York, the other half in New Orleans. Heretofore all these supplies were purchased in New York. At the end of the year the purchasers will determine which city offers the better advantage in selling goods. The various changes in the local merchants will make energetic efforts to hold the Panama trade, if it can be done.

TO USE FORT SILL FOR ARMY MANEUVERS

(Journal Special Service.)
Washington, Feb. 2.—The bill now before congress to make the government reservation at Fort Sill, Oklahoma, the great maneuvering ground for the United States army has received the indorsement of many prominent army men and there is every reason to believe that it will meet with favorable action. It is said that the government can get control at a reasonable price of a tract 16 by 30 miles in dimension, the pick perhaps of any in the whole country. In favor of the project it is pointed out that the climate in that locality is most favorable and that the location is exceedingly convenient, particularly as regards the army posts of the southwest.

When You have a Bad Breath

Food does not tickle them enough to make them act. That's Constitutional! Castor Oil, or "Physio" will help to slide out one load of trouble, but they can't help the Cause.
In fact, they weaken the Bowel-Muscles more than ever by stimulating them, and by doing work for them which they should do for themselves. When your Arm-Muscles grow flabby they need Exercise, to strengthen them—not a sling to support them. When your Bowel-Muscles grow flabby they need Exercise, to strengthen them—not "Physio" to pump them. Then carry the little tin-encased "Castor Oil" box constantly with you, and take a Castoret whenever you catch your need it.
One Castoret at a time will promptly cleanse a foul Breath, or Constipated Bowels, thus proving clearly its ready, steady, sure, but mild and effective action. Have the little 10c Emergency box of Castorets constantly near you! All Drugists sell them—over ten million boxes a year, for six years past. Be very careful to get the genuine, made only by the Sterling Remedial Company and never sold in bulk. Every tablet stamped "CCC."

How Athletes Keep Strong and Healthy

Their Diet Should Be a Revelation to All Men and Women.
Physical perfection, great endurance and a healthy, active life are the result of a diet that is properly balanced. In schools where "training tables" is provided for the athlete, only the most nutritious food is served, and in cases where there is no training table now athletes are advised to eat the most healthful food only. Whether or not he follows such advice is soon shown by his physical condition. If the average man—the business man—the lawyer, the teacher, the clerk, the mechanic, the doctor—look such care as to the food he eats as the athlete does, they would be far less of sickness and suffering in this world.
Among athletes the food value of whole wheat is recognized. They have demonstrated what scientists have long declared to be true: that the various food elements found in wheat are the food elements with which the blood and muscles, the sinews and cells, the bones and brain of the human body must be replenished if life and perfect strength are to be sustained.
Every nutritive element of the best white wheat grown in Malawi-Vita and it is fast becoming a popular among other people as it long has been among athletes.
And Malawi-Vita is so good to eat! Always deliciously crisp, refreshing, satisfying! All grocers.

THIRD INFANTRY MEN HOLD INDOOR MEET

Professional club is left to the discretion of the board of directors. Gleason feels that he can retain his leadership in the club, but the rules appear to be against him. The matter will be settled this evening.
Dear Editor—I witnessed the eclipse of the moon last evening and was awed. I never saw such a thing before, and it reminded me forcibly of how easy it is for even such great planets to be eclipsed. At nine, by the watch, "Jontie" and I took a car to Portland Heights in order to observe the phenomenon from the observatory. The judge thought it would be better to view it from the grandstand in Recreation park, but "Jontie" says that he never saw anything worth looking at in the grandstand, so to the heights we went. After seating ourselves comfortably and before I could get him alone we were both thrown out. I had often heard that the moon affected people, but never thought that it would disturb "Jontie." What I really wanted to tell you was this: There is too much talk entirely about that trade I made with Morley last year, and the sooner all of you guys close up the better you will fare when the summer comes again. I'll admit that Uncle Judge put his foot in it when he said that he helped to fire Mike Fisher out of the league, but I can't keep track of everything. I am the only one of the family conversant with the rules, and when they "butt" in it makes me sore. I am glad to announce the sale of the park to the trust. It will mean much to us in a financial way. In passing, transfer and free tickets to the judge was told last year not to ride on a pass, as it was contrary to judiciary etiquette, but he is so foxy that no one can ever catch him handing the conductor a little red ticket. I called "Jontie" down yesterday for not reporting to me about the grass on the diamond. Please keep this letter secret. Yours forever, WALTER.
