IS DURST PLAN A SOLD ONE?

Much Controversy as to What Will Happen When These Large Blocks Sell.

ENGLAND WILL BUY FOR NEXT SEASON

Hops Sold There at Low Figures This Year Will Mean That So Many Losses Will Be Disposed of During the Coming Season.

Front Street, Feb. 12.—The principal feature of the Portland wholesale markets today are: Consignment of hops; Oregon market in breaking; Chickens very firm at top; Dressed veal in demand; Beef steady; Several cars bananas due tomorrow; Heavy arrivals are firm.

Consignment of Hops Unpopular.

Although the Journal does not care to take sides in the controversy between factors as to the advisability of consigning hops to the London market, it cannot ignore the fact that the London market is a market of some importance. It has no intention of doing so. Either side can make their statements in line with its policy of looking into all propositions concerning the producer and the consumer. It is a general rule that the dealer in hops is not to be considered as a regular dealer in the market value and cannot very easily sell under that figure and remain in business. It is a general rule that the dealer in hops is not to be considered as a regular dealer in the market value and cannot very easily sell under that figure and remain in business.

By Holding a Controlling Interest in Most of the Oregon Hops Mr. Durst Would Have a Heavy Voice in the California Market.

The interest of Mr. Durst in the California market is made by the California that if these hops are taken out of the market and shipped to London it would be a heavy blow to the California market. This might be so, but there is an example: In England about 50,000 tons of hops are sold in a given year and the interest of Mr. Durst in the California market is made by the California that if these hops are taken out of the market and shipped to London it would be a heavy blow to the California market.

There is a Much Weaker Feeling in the Egg Market Today.

There is a much weaker feeling in the egg market today. Arrivals are much increased, and some sales are being made today at 20c with others ranging from that figure up to 25c. The poultry market continues to show a good degree of strength. Arrivals are few with demand in all lines. Prices at the very top sometimes over.
