Bishop David H. Moore, accompanied by Dr. John W. Butler, Rev. H. A. Bassett and a party of other Methodist Episcopal clergymen who are working in Mexico, recently attended a church conference at Orizaba, Republic of Maxico, which lasted several days. At its conclusion the party, which numbered about 26, including the wives of several of the clergymen, returned to the Mexican capital, where Bishop Moore preached a series of sermons. It is not definitely known when the bishop will getter to Portland.

Harriman Harriman IIIs apples? If so, plant out its coop layer.

Work will soon be begun on replanking the upper dock of the steel bridge and the building of new walks on that structure. For weeks it has been known that the planking was in bad condition, but owing to unavoidable circumstances work could not be begun on repairs as soon as they were needed. Bids are to manding officer to recruit the troop to be advertised for at once for the work

## BAKER, NURSE AND COOK

Mrs. James Douglas, With Sick Husband, Attends Store and Household Duties.

Probably the busiest woman in Portland is Mrs. James Douglas, wife of a stoneoutter who was seriously injured Monday while at work on the new officers' quarters at Vancouver barracks. Mrs. Douglas has undertaken a number of duties, any one of which would frighten the average woman.

How, with the care of three children, the nursing of an injured husband, and the conducting of a bakery, confectionery and grocery stose, Mrs. Douglas finds time to attend to her household and other numerous duties is a mystery to those who have investigated. She lives with her family at Hoyt and Twenty-first streets.

plaining she is proud that she can do them.

"Oh, yes, my hands are pretty full just now," she said this morning. "but it might be worse. Suppose all the children were sick, or suppose we had been in the fire Sunday night. You see we all have plenty to be thankful for.

"But even with what I have to do I find time for entertaining my friends who call and am thinking of going to prayer meeting and church this week if something unexpected doesn't arise."

Milwaukie Country Club. Los Angeles and Oakland races. Take

Aurora, Or., Feb. 16.—Gardeners in this vicinity have begun to plant seeds and set out bulbs and roots, and all kinds of shrubs and fruit trees are budding. Peach trees are well budded and advanced, about aix weeks earlier than usual. No cold and freezing weather so far this winter in this section has brought about this condition of things. Not a drop of rain has fallen here for the past two weeks, and the warm, sunshiny weather has made all kinds of vegetation and crops come along a-jumping.

# FOR HOUSE

City Council, in Zeal to Specify **Exact Appropriations, Makes** Botch of Job.

Another serious mistake made by the city, council in the appropriation of funds for the extension of the city fire department has been detected. In the anxiety of the councilmen to specify the different items for which money should be expended, they forgot to provide sufficient funds with which to purchase a lot for the fire engine house on Portland Heights, although they appropriated \$14,700 for the purchase and installation of apparatus and the building of a house.

ated \$14,700 for the purchase and installation of apparatus and the building of a house.

The sum of \$4,000 is set aside for the erection of a house and the purchase of grounds, but the grounds alone will cost at least that sum, according to prevailing prices for land on the heights, leaving nothing for the building.

One offer of a lot has been received. It is located on Spring street between Nineteenth and Twentieth attreets and is \$7 by 100 feet. On the ground is the old barn of the Portland Cable company. The whole is offered to 8the city for \$4,000. If this property is purchased it will take approximately \$5,000 to removate and improve the old barn in order to make it habitable for the engine company. This expenditure will necessitate the appropriation of additional funds by the city council.

At the time the city council was making the appropriations for the year it was rumored that the citizens of Portland Heights had agreed to contribute a lot to the city for the engine house, providing the city furnished the house and apparatus and installed the company. Inquiry by the members of the fire committee of the city executive board has falled to disclose any augh phillanthropic movement. The fire committee called on Council mas Mestern one of the members of the ways and measure committee of the cannot who made the appropriations to use if nap-body would be utiling to contribute at for the members of the ways and measure committee of the contribute and the appropriations to use if nap-body would be utiling to contribute at for the members of the ways and measure committee of the contribute and the members of the ways and measure committee of the contribute and the members of the members of the ways and measure committee of the contribute at the contribute at the contribute at the contribute and the contribute and the members of the contribute at the
