has the credit of being the track on which the late f. S. Brown's Broom-stick ran a mile and a quarter in 2024-5, the day he won the Brighton handicap from Irish Lad in 1804. That was not long after Irish Lad had cre-ated new figures for a mile and three-cighths at Sheepshead Bay. where, on June 25, he was timed in 21173-5. Good-rich has held the record for a mile and a half-2:30% -ever since 1898, when he made it in Chicago. Africander's 2:451-5 for a mile and five furiongs. In 1903, is a best on record, while the erratic Major Daingerfield hung up 2:57 for a mile and three-quarters in 1908. There are very few races at two miles nowadays. Ten Broeck in a race against time at Louisville, 1875, ran this dis-tance in 3:27%, a record that still stands, although Judge Denny equaled it in California in February, 1898. The peerless Ethelbert's record of 3:49'1-5 for two miles and a quarter has never been equaled since he put it on the books by winning the Brighton cup at the beach, August 4, 1990. But with the improved condition of this track and modern training methods those fig-SEES-WITH HIS the beach, August 4, 1990. But with the improved condition of this track and modern training methods those fig-ures are bound to fall one of these days. Drake Carter ran three miles at the bay in 5:24, on September 6, 1884, but this is a distance seldom raced over now. At four miles Lucretta Borgia holds the record of 7:11, made against time at Oakland, 1897. The list is com-plete gith the 10-mile record of 26.18, made in 1880 by Mr. Brown at Ranco-ons. Fighting "Trust" Is Doing More Boxing Talk at Their Meetings Without a Decision Than All of the Fighters in California.

At a meeting of the fight trust last night the main point developed was that Coffroth and Willie Britt have deter-mined to dictate who shall be permitted to fight in San Francisco, while Eddie Graney, backed by Morris Levy, is equally determined that the game shall be an open one, says Tuesday's Chron-icle. The lines were drawn over the matter of matchmaker for the trust. Britt and Coffroth standing out for Coffroth or no one, while Graney would only accept either Levy or a rotation of matchmakers. Back of it all was an effort on the part of Coffroth and Britt to put Billy Nolan. Nelson's managet, and Joe Gans out of the game. Graney, although a partner of Coffroth in some enterprises, will not stand for this. He is willing each club ownar in the trust should make the matches for his own date, or he will trust Levy, but he will not permit Coffroth and Britt to shut the men they cannot control out of the game altogether.

They further aver that many predictions made by the enigms have already come to pass. Been yesterday at this residence, 234 Third strept, near the corner of Salmon, Professor Chesterfield said: "Tomathly some of the reports are exagger-ated, but then you must remember that T have been indorsed by such authorities as the Press Outh of Chicago, practically by the Universities of Ann Arbor, Amsterdam, Upsals and St. Petersburg and a long string of others; again, smong the moted personages whose palms 1 have read are the most distinguished of either been indo you pretend to read one's future?"
