Cigar Men Propose to Sublet Part of Space to Sam Vigneaux for Cafe-Rowe & Martin to Move to Adjoining Store.

It is said that the owner of the property is agreeable to the proposition made her by Brown & Schiller as it means a much larger rent than she is now receiving from the druggists. The leases for the stores under the Lange hatel expire on June 30. Rowe & Martin were desirous of extending their holdings, but were outbid.

The cigar company will vacate on June 30. Whether the Imperial people will open up another store is problematical. They recently acquired the stand at 151 Sixth street and will probably greatly enlarge it, making it the company head quarters for a time at least.

at least.

Brown & Schiller will occupy only a portion of the store room. Sam Vigneaux, former baseball club manager and saloon man on Washington street, between Fourth and Fifth streets, will sub-lease the rear portion and open a cafe. He will close his present place, according to the proposed plans, when he moves further up the street.

The leasing of the drug store corner by Brown & Schiller is a striking example of the wonderful advancement Portland is making. Less than five years ago Mrs. Kelley offered the building and lots upon which the Lange hotel stands for \$48,000. During the last three years she has collected that amount in rents.

It has practically twice the capacity of its antetype, is equipped with machinery of about 150 horsepower and is pro-vided with trucks especially designed for rounding curves at a high rate of speed.

The appointment of a woman detective, empowered with police authority, whose duty it would be stoplace obstacles in the downward path of girls and young women in Portiand, is one of the suggestions that will be submitted Sunday afternoon at a special meeting of the Women's auxiliary of the Municipal association.

Though vested with pelice powers, the woman's duties would be of a persuasive or deterring nature rather than the conspicuous and aggressive. She would, of course, be expected to exercise her authority when necessary, but an equally important and far more difficult function in connection with her work would be to avoid, by all possible means, the bringing of notoriety or disgrace upon the girls under sur-
