

NO SINECURE FOR COACH CUTLER

Difficult Task Confronts Clever Athlete at the University of Washington.

CLUB ATHLETES EASILY DEFEAT THE VARSITY

Both on Track and Diamond the Northern Men Fail to Come Up to Expectations—Sprinters and Distance Students Rank Very Well.

(Special Dispatch to The Journal.) Seattle, Wash., March 6.—The indoor track meet which was held Friday evening between the Seattle Athletic club and University demonstrated the fact very clearly that Coach Cutler of the University track team will have a hard time to put out a winning team this season. The members of the club team, with practically no training at all, were able to win all except three first places and won the meet by a large margin. Captain Rex Smith of the varsity took first in the 20 yard dash and high jump, and Sam McDonald won the shot put. The latter athlete, however, will likely not be a member of the team in the intercollegiate meets, as he has taken charge of Dr. Roper's work in the gymnasium, and all his time is taken up with that.

Several members of the college team were kept out of the meet on account of their low standing, and some of these may be able to make up their work before the season proper opens, but other valuable men are out for the season.

Harry Watson, the star in the intercollegiate distance runner, refused to enter the indoor meet, as it interferes with his outdoor training. Had he been in the meet Friday night the University would have certainly had first place in the mile and half runs.

It is pretty hard to pick out any particular weak spots in the team, for outside of Smith in the sprints, and probably Watson in the distances, the candidates are only second and third place men. But Coach Cutler has taken charge of the work with a vim, and he may be able to brighten the prospects in the best few weeks.

Not alone in the track work are the athletic prospects of the University bad, but also on the diamond there is gloom and disappointment. To begin with, Brinker, who had been chosen to coach the basketball team, signed as pitcher with Indianapolis, and will leave the middle of the month for that place. This will throw the burden of coaching upon Coach Cutler of the track team, and he already has his hands full in that department.

M'CONNELL AND BROWN IN TRIM FOR BATTLE

Manager Tom Tracy announced this morning that everything was in readiness for tonight's battle between McConnell and Brown at Vancouver. Tracy has the principals examined this morning and declared that they were in tip top condition for the fray.

Those attending the contest will be looked after in first class fashion. Special cars have been chartered to carry the guests to and from Vancouver, and will leave Seattle and Washington streets at 7:30, 7:40 and 7:45. Besides the regular cars, there will be sufficient extra ones to handle the fans.

There are two preliminaries on the card this evening, and Tracy says that they will be worth the price of admission. The first will be between Wilson and Stanton, two soldiers from Vancouver barracks, scheduled for 10 rounds, and the second a four round bout between two surprises that the management will spring. Ewing and Gleason each own 450 shares, and Teddy Goodman owns 100. The management of the team will be left to Gleason.

BRIEF EXPERIENCE TIRES CLUNIE OF BASEBALL

As predicted in The Journal last week, Andrew Clunie, who purchased the San Francisco ball club several months ago, sold out his interests yesterday to Cal Ewing, manager of the Oakland team, and Jack Gleason, manager of the San Francisco team. Clunie says that he had sufficient baseball to last him a life time. He was displeased over the deal whereby Seattle secured Mohler, and the general manner in which the players endeavored to hold him up for higher salaries. Ewing and Gleason each own 450 shares, and Teddy Goodman owns 100. The management of the team will be left to Gleason.

NELSON GAMING IN VIRGINIA

Battling Dane and His Manager Enjoying the Wilds and Sport of the South.

STURDY FIGHTER ROAMS HILLS FOR EXERCISE

Nelson Paying Strict Attention to Training in Order to Be in Fine Fettle for Terrible Terry McGovern Next Week.

Billy Nolan and his protegee, Battling Nelson, are at present sojourning in the sunshine land of West Virginia, and the account of their routine while at camp is especially of interest to devotees of the ring. In a letter to an eastern paper Nolan writes as follows:

"Camp Nelson. "Barbersville, W. Va., Feb. 28, 1924. "Dear Friend: Well, we arrived here, seven miles from Huntington, and completed our first day's work for the Nelson-McGovern contest. We have heard much of Virginia here, but as far as climate is concerned, these first two days would make southern California look like a selling plate. While it was a little frosty in the mornings, the cool breeze, which he refused to do, together with the fine, fresh mountain air and spring water, is a combination that will put the best athlete on edge for a grueling encounter. This week's rest here will be a case of great improvement. Instead of weight reducing, as Nelson tips the scales at 134 pounds this morning, and it is now 14 days before the date of battle. Contrary to the general expectation, Battling Nelson is today at least five pounds lighter than he was when both of the boys stripped for pictures side by side in the office of the New York American on Sunday, February 24, and the sporting writers who also both of them up were astonished when they were confronted with the proof, and my order to Humphreys to put both boys on the scales, which he refused to do. Terry, you can depend on it, will be every ounce as heavy as the Battling when he enters the ring on the night of March 14. My work this week will be all done in the open air, to gymnasium or boxing will be done while here, as Nelson has certainly had plenty of sparring for the past two weeks, twice a day. This time in dating back three weeks before he knocked out Calumet, and you know he was on the road the day following that memorable victory, and has not had a rest since. While it is customary while preparing for a pugilistic contest to refrain from alcohol, or fat-producing food, while here this rule will be overlooked, as Nelson will eat and drink all of the corn bread, hot sweet potatoes, buttermilk, etc., that he wishes. It will assist the plenty of mountain climbing and road work, as Nelson is very fond of hunting, and especially as he has plenty of time; you can always find a shotgun on his shoulder.

"We have been invited to a 'possum dinner' on Sunday next by a delegation of colored sports from this section. Now, we do not know whether they are friends or not of George, but in general rule are we suspicious, but there is one thing certain, we won't attend that 'possum dinner on the above date.

"Rules for training while here: Arise in morning 7 o'clock; 15 minutes' slow stroll before breakfast; 8 a. m., breakfast; 10 a. m., slow tramp over the hills for two hours; 12 noon, dinner; in the afternoon we go horseback riding or driving; supper, 8 p. m.; we retire at 9:30.

"This will be our routine until we leave here. My main aim is to be in the open air as much as possible, as there is nothing as bracing as the fresh air, this good, fresh mountain air. Training a pugilist is only the exercise of good, plain judgment and common sense. It is a case of taking good care of yourself and having regular, temperate habits, which will bound to improve one's condition. How often you hear of one of the boys going to the springs for a few weeks, after being on a spree for awhile, and on his return he attributes the benefit to the spring water, when, as a fact, he has been living a regular life, out in the mountain air, taking walks, and away from his congenial companions, taking the regular sleep, etc. In fact, he has been doing a mild system of training, about on the same lines that an athlete must do. It's that training and taking proper care of yourself, not the water from the springs, as is generally supposed. The same holds true of the water at any good country place without the springs. Of course, there may be some exceptions to this rule.

"Very respectfully,
"BILLY NOLAN"

FALLING HAIR

Came Out Constantly—Hair Finally Had to Be Cut to Save Any—Scalp Now in Good Condition and No More Itching—Another Effective

CURE BY THE CUTICURA REMEDIES

"I will gladly give you all the information concerning my case. I used the Cuticura Soap and Ointment for a diseased scalp, dandruff, and constant falling of hair. Finally I had to cut my hair to save any at all. Just as the time I read about the Cuticura Remedies. Once I tried them I abandoned my hair with the Cuticura Soap, and I used the Ointment twice a week. In two months' time my hair was long enough to do up in French twist. That is now five years ago, and I have a lovely head of hair. The length is six inches below my waist line, my scalp is in very good condition, and I never dandruff or itching of the scalp. I used other remedies that were recommended to me as good, but with no results. If you wish to publish any of what I have written you, you are welcome to do so. I am, respectfully, Mrs. W. F. Greiss, Clay Center, Neb., Oct. 23, 1907."

BOTHNER MEETS KAZZI TONIGHT ON MAT

Lightweight Champion Catch-as-Catch-Can Not Afraid of His Turkish Opponent.

(Journal Special Service.) New York, March 6.—George Bothner, the lightweight champion catch-as-catch-can wrestler, will wrestle Ibrahim Kazzi, the Turkish lightweight wrestler, to a finish at the Grand Central palace this evening and sportsmen in general and lovers of the wrestling sport in particular are awaiting the result of the match with a great deal of interest. Bothner is quite confident that he will be able to defeat the Turkish wrestler and has made the statement that he is not afraid of any rough practices which the Turkish champion may see fit to employ. Bothner has made a careful study of Ju-jitsu and believes that his knowledge of the tricks of that style of defense will enable him to counteract any rough work on the part of Kazzi. It is understood that Bothner intends to take the offensive from the very beginning.

During the last few weeks Bothner has been training carefully and practicing attacks with John Farrell, the big Italian heavyweight wrestler. Bothner believes that after the training with Farrell he is prepared to meet any wrestler even should he be heavier than his Turkish opponent will be tonight. A large number of Princeton students will attend the match and will "root" for Bothner, who is wrestling instructor at Princeton.
