LET THE RAILROAD IN.

THE PEOPLE of Portland are beginning to fret over the prolonged delay in granting to the Portland & Seattle railroad an entrance into the city.

The announcement that the railroad was coming here stiffened prices and stimulated everybody here. It realized every dream that had been based upon the coming of a new railroad to Portland.

They feel that much of the opposition so far shown toward the Portland & Seattle has been both captious and unwarranted and they have reached a point where they have grown exceedingly tired of it.

PERJURY IN THE PRIMARIES.

ANY REPUBLICAN VOTER who falsely registers as a Democrat solely for the purpose of voting in the Democratic primaries and without any intention of voting the Democratic ticket in the general election, is clearly guilty of perjury.

The truth of these propositions is not lessened by the difficulty of convicting those who are guilty of the crimes. It must always be difficult to prove the voter's intention and to show that he has not in good faith changed his party.

THE USE OF THE "BOLTER."

THE Junction City Times, whose editor, S. C. Moorehead, has enjoyed considerable political stentenance, says: "Charles A. Hardy of Eugene announces himself a candidate for representative. Is he the same Charles A. Hardy who bolted the Republican nominee for state senator four years ago?"

Let the farmer remain upon his farm, but let him bring to the farmhouse the higher things of life. Let him bring the best books to the home. Let him put in a telephone, help make a road in front of his place, plant trees and seed a lawn.

SMALL CHANGE

Ab, that awful sentence of Smith! Bless the lovely hen; you can now buy absolutely fresh eggs for less than \$1 a dozen.

MR. GILHOOLEY ON FOOTBALL

From the New York Sun. At an early hour yesterday morning the college men's dinner of Montclair closed with all athletic questions settled.
