CAMBRIDGE CREW IS FAVORITE

Sixty-Second Annual Boat Race Will Be Rowed on Thames Tomorrow.

GREAT CROWD WILL WITNESS THE CONTEST

Both Crews Took Their Final Practice This Morning and, While Cambridge Men Are Hopeful, Oxonians Are Looking for Victory.

(Journal Special Service.) London, April 6.—The annual boat race between the crews of Oxford and Cambridge universities, the greatest aquatic event of the year in England, takes place tomorrow over the historic Thames course from Putney to Mortlake. There appears to be a general feeling that the race this year will be a close contest, and as a consequence great public interest is manifested in the event. Both crews took their final practice spin today, several thousand people, a goodly number belong to the betting fraternity, turning out to form their final judgments on the performances of the two crews. Cambridge is a slight favorite, though the Oxonians have had the benefit of the supervision of Fletcher White, the celebrated coach, and appear to be in splendid form.

This will be the sixty-second boat race between the two universities. Oxford has been the winner in 32 contests and Cambridge in 28, while the one of 1857 was a dead heat. The start tomorrow will be made between 1 and 2 o'clock, London time, the Thames being at high tide at 1.46.

The members of the two crews, their weights and the colleges they represent are as follows:

Oxford—G. M. Graham (New), 162 pounds; C. H. Illingworth (Pembroke), 187; J. J. Dewar (New), 176; E. L. E. Jones (Balliol), 197; A. G. Kirkby (Magdalen), 189; E. P. Evans (University), 188; E. A. C. Gladstone (Christ Church), 147; H. C. Bucknall (Merton), 155; Atkinson; L. P. Stedall (Merton), 118, coxswain.
 Cambridge—G. D. Cochrane (Trinity), 145; bow; J. P. H. Benham (Jesus), 162; E. M. Goldsmith (Jesus), 174; E. M. Donaldson (Trinity), 192; E. C. Johnstone (Trinity), 174; E. V. Powell (Trinity), 174; E. W. Powell (Trinity), 161; D. C. R. Stuart (Trinity Hall), 153; stroke; N. More (Calus), 116, coxswain.

EASTERN OREGONIANS LEAD IN LUNG POWER

(Special Dispatch to The Journal.) Eugene, Or., April 6.—Professor C. A. Burden, the gymnastic instructor at the state university has just finished arranging the comparative statistics of the physical standing of the freshmen class for this year, and figures given out show that the members of last year's freshmen class are stronger than the members of this year's body class.
 The average height of the freshmen last year was 5 feet 8 1/2 inches, while this year the average height is only 5 feet 8 1/2 inches. The average weight last year was 144, while this year it is 144. The other measurements and figures are as follows: Lung capacity of members of 1905 class, 360; of this year, 357; age of 1905 class, 20.3; of this year, 20.1. In last year's class

there were 12 men out of 54 that used tobacco, while this year there are 13 out of 49 who use tobacco in any form.
 The students from eastern Oregon again lead in having the largest lung capacity than students from the other sections of the state.
 In the freshmen class this year the ages vary from 18 to 24 years, while the members of last year's class were more nearly of the same age.

TRACK TEAM FOR EUGENE INSTEAD OF BASEBALL

(Special Dispatch to The Journal.) Eugene, Or., April 6.—Manager Winslow of the University track team and Professor C. A. Burden have kindly donated the use of the varsity oval and gymnasium to the students of the Eugene high school, who decided yesterday that they would put out a track team instead of a baseball nine this season. There is much better material in the high school this year for a track team than a ball nine, and prospects are very bright for some good men being developed. The varsity will send 10 men to compete in the Columbia meet on April 21, and the high school lads will also send five or six sprinters to make a credible showing in the junior meet. Active training with the high school began last evening.

YESTERDAY'S SUMMARY AT OAKLAND TRACK

(Journal Special Service.) San Francisco, April 6.—Yesterday's race results:
 Five furlongs—Dick Wilson won, Laura Van second. Integrity third; time, 1:01 1/4.
 Five furlongs—Blanche C. won, Elm-dale second, Pinkin third; time, 1:02.
 Mile—Tom Roberts won, J. K. F. second, Merry Go Round third; time, 1:42 1/2.
 Mile—Maloy Tenney won, Bird of Passage second, Joe's Jewel third; time, 1:42 1/2.
 Futurity course—Hector won, Martinmas second, Royal Rogue third; time, 1:10.
 Seven furlongs—Yada won, Toupee second, Sir Brillar third; time, 1:27 1/2.

INTERNATIONAL BOWLING BEGINS AT MONTREAL

(Journal Special Service.) Montreal, Que., April 6.—The international bowling tournament under the auspices of the Montreal A. A. will begin here this evening. The rules governing the tourney are not those of the Canadian Bowling association, as the games will be rolled on 40-foot alleys. Some of the bowlers of the United States and Canada are here to take part in the tournament, which is open to all American bowlers. A number of valuable prizes will be contested for.

COLLEGE WRESTLERS TO MEET IN FINAL BOUTS

New York, April 6.—A lively interest is displayed in the second annual intercollegiate wrestling meet, the preliminaries of which will take place this evening at the Columbia university gymnasium and the finals tomorrow night. The contestants represent Yale, Pennsylvania, Princeton and Columbia. Yale and Columbia are the favorites, their teams having made the best showing so far this season. The classes are seven in number, and are 115, 125 (special), 135, 145, 175 and heavyweight.
 Field Meet for Union.
 (Special Dispatch to The Journal.) Union, Or., April 6.—The Eastern Oregon High School field meet will be held in this city on May 25, the schools to compete on the field will be Union, La Grande, Pendleton and Baker City, all of which have put up strong competition in the past and which are expected to be represented by excellent teams this season.

BASEBALL SEASON TOMORROW

Portland Opens With Fresno, Oakland at Los Angeles and Seattle at San Francisco.

OUTLOOK NOT SO BRIGHT AS IN FORMER YEARS

Owing to Many Changes Made in Making Up Teams, It Is Impossible to Get a Correct Line on Strength of the Different Clubs.

Tomorrow afternoon another season of the Pacific Coast league will be inaugurated. Portland will open with Fresno, last year's Tacoma Tigers, at Fresno; Oakland will engage Los Angeles at the latter city, while Seattle will try conclusions with the Seals in San Francisco.
 While it cannot be said that the opening auspices and the general prospects are so propitious as the conditions that prevailed for the past three years, yet the predictions that have been forthcoming since last season closed come within 10,000 miles of being fulfilled. This season of successful baseball is assured the patrons and promoters of the game in the Pacific Coast league.
 Climatic conditions will always prevent the northern teams to open and close at home. In this respect the California clubs will always have the better of the proposition.

Portland opens tomorrow in the city of Fresno, noted only for raisins, and on May 3 Portland will begin the season in this city, engaging the Seattle team. It would have been a much better scheme had the opening game in this city been between Portland and a team from California, but the schedules framers decided differently. Portland opens with Fresno at Fresno, opens at home with Seattle, closes at home on September 23 with Fresno and ends the season with Fresno at Fresno on November 4. That is certainly going some.

Regarding the strength of this year's team, no one appears to know. It may be the best team in the league, as Manager McCredie thinks, and yet it may not be in the class of the competitors at all. Much has been predicted for the Giants and the fans are holding back all criticism until they see what the team can do.

Comparing this year's aggregation with the splendid collection of men that Portland had last year would be folly, indeed. Of course, had Portland secured Tim Flood for second and Jud Smith for third and added Garvin to the pitchers' staff this year's nine would look quite formidable, but in the absence of these players the chances for victories are not so bright. It may be that in the host of youngsters that

BALLARD'S HORSEROUND SYRUP.
 Immediately relieves hoarse, croupy cough; oppressed, rattling, rasping and difficult breathing. Henry C. Stearns, druggist, Shullsburg, Wis., writes, May 29, 1905: "I have been selling Ballard's Horsehound Syrup for two years and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it." 25c, 50c and \$1.00. Sold by Woodard, Clarke & Co.

Foster & Hensen, Sons

BASEBALL SEASON TOMORROW

Manager McCredie took to training quarters players may be found who can fill the bill, but even this appears doubtful.
 The one certain thing about the entire situation is that Portland must have a good ball team this year if the patronage of the fans is to be expected. The trade of Atz and Schlafly last year has not been forgotten, nor yet remembered.
 In that far away city of prunes and raisins—Fresno—the fans of Portland will be watching tomorrow, hoping that out of all the predictions and entanglements the Giants will rise to the occasion and win sufficient games to entitle them to the respect and attention to which a good ball nine is entitled.

Umpires Are Selected.
 President Bert has ordered Jim McDonald to report at San Francisco tomorrow, "Bull" Ferrin at Fresno and Phil Knell at Los Angeles to officiate in the opening ball games.

SUNDAY BASEBALL FOR THE NAVY

Rear Admiral Evans Has Been Requested to Give His Views on the Subject.

PROVINCETOWN CITIZENS MADE THE OBJECTIONS

Despite Protests, It Is Likely That Department Will Allow Sailors to Play National Game on Sunday as a Matter of Recreation.

(Journal Special Service.) Washington, April 6.—Rear Admiral Evans has been asked by the navy department to give his opinion of the petition received from the citizens of Provincetown, Massachusetts, protesting against baseball playing on Sunday at that place, while the ships of the Atlantic fleet are there for the summer exercises. The navy department will not be drawn into any controversy with citizens who find fault with baseball playing by enlisted men of the service.

Rear Admiral Evans will probably communicate his views to the navy department in terse and vigorous language, of which he is capable, personally and officially, and it is expected that he will suggest as a remedy and a relief to the objecting residents that the ships of his command perform their summer evolutions at a place where they will be more welcome and where there will be fewer restrictions upon the administration of the enlisted personnel. It is certain that Sunday baseball playing will not be prohibited in the navy. There are very good reasons why it should be permitted as a diversion of the men who have their routine work to perform on other days. It is considered that a pastime of this sort on Sunday, at a time and a place which do not interfere with the religious observances of the day is an important contribution to individual contentment. No one in the service believes for a moment that there will be any change in this policy.

FOUND DEAD IN CELL AT WALLA WALLA JAIL

(Special Dispatch to The Journal.) Walla Walla, Wash., April 6.—Edward Bettinger, a common laborer, given quarters in the city jail Wednesday night, was found dead in one of the cells yesterday morning when Officer Wolff went to give the prisoners their breakfast. Bettinger, who was employed by Erickson & Peterson, railroad contractors between Lewiston and Riparia, arrived in Walla Walla from Starbuck Wednesday afternoon. The man was drunk and appeared to be ill. He was taken to jail and cared for. Bettinger was 48 years of age, and formerly lived at Vallejo, California.

Convicted of Horse Stealing.
 (Special Dispatch to The Journal.) Walla Walla, Wash., April 6.—William Lafferty, known as "Chuck" Hays, a well-known Prescott boy, was convicted of horse stealing in the superior court yesterday evening. Lafferty's relatives made a strenuous effort to save him from conviction and the case will probably be appealed to the supreme court. Lafferty was arrested twice before on similar charges, but managed to escape at the preliminary examinations.

FAILURE

to properly digest food causes nearly every ill of the human body. The blood feeds the body—the stomach feeds the blood. If your food is not properly digested, your blood is carrying poison through your entire system. Put your stomach in a healthy condition and your other troubles will disappear. This is a bold assertion, but nevertheless true. CHASE'S DYSPEPSIA CURE, a simple liquid remedy, will positively and quickly cure any form of indigestion, or money will be refunded.

Dear Sirs—My principal trouble is wind and heartburn, from which I have suffered for years. I have taken medicine from six doctors besides taking a number of patent medicines. I have read about and heard of, but they did me no good. I saw your ad in the Bulletin and thought I would try that, and it has done me more good than anything I have ever tried. I shall continue to use Chase's Dyspepsia Cure and will also do all I can by exercising. Yours respectfully, A. F. BOWEN, JR. Warren, N. J.
