Makes Use of Pilgrim's Progress Allegory in Paying Respects to Those Who Write of Scandal at the National Capital.

CORNERSTONE LAID OF HOUSE OF REPRESENTATIVES BUILDING

Ceremonies Are Similar to Those Used by George Washington on Capitol Building a Hundred and Thirteen Years Ago

Washington, April 14.—Seldom has the national capital witnessed a more brilliant and distinguished assemblage than was gathered on the Plam this afternoon, when, with solemn and impressive ceremony, the cornerstone of the new office building of the house of representatives was laid by President Roosevelt.

The foundation of the magnificent new building is completed and on the floor beams of the first story a temporary floor was laid and seats provided for the invited guests to witness the ceremony. On the president and his cabinet, Speaker Cannon and the members of the officers of the army and navy in sulf dress uniform, the members of the supreme court, members of copperation of the caremony might be had by persons not provided with seats. The night would not no way but downward, with a mach rake in his hand, with a calestial story when the man did not not of the supreme court, members of copperation of the supreme court, members of the supreme court, members of the supreme court,

The ceremony was almost identical ith the laying of the cornerstone of the United States capitol by President ashington, nearly 112 years ago. Similarly marked the event, and all presistent was avoided. The articles placed the cornerstone, as far as practicate, were identical with those placed in exapitol stone by the Federal Masonic dige, and, as both President Roosevelt and Speaker Cannon, as was President Tashington, are members of the Masonic order, the occasion in every way

washington, are memora to the second order, the occasion in every way harmonized with the spirit of the ceremony directed more than a century ago by the same Masonic jurisdiction.

The ceremony was preceded by a parade of Knights Templar and members of the Masonic grand lodge. The music was furnished by the Marine band. A cheer from the large assemblage announced the arrival of the chief participants in the ceremony. The official cheer from the large assemblage announced the arrival of the chief participants in the ceremony. The official program began with the invocation by the Right Rev. Dr. Satterlee, bishop of Washington. Grand Master Walter A. Brown, who presided over the exercises, then delivered the opening remarks and at the conclusion introduced Speaker Cannon, who made a brief address appropriate to the occasion.

These two buildings, when completed, will take the place of additions originally proposed to the capitol building.

Cannon. Who made a brief address appropriate to the occasion.

The ceremony was attended by the cabinet, supreme court, members of the house and senste, representatives of the foreign governments and a great concourse of citizens. With the historic gavel used by Washington, Grand Master Brown struck the block three times and pronounced it well and truly laid. Brown then delivered a formal address. Following a selection by the Marine band, President Roosevelt stepped to the platform and delivered the address of the day. Brief addresses were made by Speaker Cannon, Congressmen Hepburn and Richardson of Tennessee, building commissioners of the house. The president said in parti

dent said in part:

"In Bunyan's 'Pilgrim's Progress' is a description of a man with a muck rake, who looked downward, and, with the muck rake in his hands, even when offered a celestial crown for the muck rake, he would not look up nor regard it, but continued to rake to himself the fifth. This man is set forth in the alleger as an example of the man way when

legory as an example of the man whose vision is fixed on carnel instead of spiritual things.

"It is necessary and we should not flinch from seeing vile things, but the man who never sees anything else becomes not a help to society, but one of the most potent forces for evil.

"I hall as a benefactor every man who on a platform or in a publication assails corruption, providing that the attack be absolutely truthful. A liar is no better than a thief. The soul of every secundrel is glad when an honest man is assailed.

"It is easy to twist out of shape what I am saying. Some persons are incapable of understanding that to denounce mudslinging does not mean an indersement of whitewashing. Any excess is sure to invite reaction which will likely take the form of punishing the unoffending and give immunity to offenders.

Sensationalism Condemned.

Then said Christians, 0 deits from this muck-rake. That prayer, said the Interpret lain by till it is almost rusty.

tacked in a sensational, lurid and un more damage to the public mind than

the crime itself." Wear Sonate Building.

The new building will be bounded by B atreet. New Jersey avenue, First street and C street, and will cost \$3,000.000. It will contain \$10 office rooms.

but which were objected to on the ground that they would mar the architectural scheme of that structure. Each of the new buildings will occupy a complete square of ground and they will be magnificent white structures of classic design to harmonize with the capitol and library of congress. They will contain offices, committee-rooms and numerous other conveniences for the members of congress and will greatly relieve the present congestion of the capitol building. They will be connected by underground passages with the capitol so that the members may conveniently pass to and fro.

MRS. DEPEW RETURNING; MAY SEEK SEPARATION

New York, April 14.—One of the pasengers on the White Star liner Celtic, due tomorrow from Liverpool, is Mrs. Chauncey M. Depew. Her arrival from her long stay abroad is coincident from her long stay abroad is coincident with the renewal of the report that she has brought a suit for separation against her distinguished husband.

There is a rumor current in Wall street that Senator Depew is in a state of complete mental and physical collapse at Scarboro on the Hudson. It is significant that Charles Spaulding. Senator Depew's nephew, did not know of the arrival of Mrs. Depew from abroad. When questioned concerning her whereabouts he gave answers indicating his belief that she would remain abroad indefinitely. Concerning the rumor that she had retained a lawyer to bring suit for separation, he said:

"That is a malicious falsehood."

CURE IS DISCOVERED FOR LOCOMOTOR ATAXIA

"Gross, reckless assaults on character create morbid, victous public sentiment. At the same time it acts as a deterrent to able men of normal sensitiveness and prevents them from enturing the public service at any price.

"It is hard to get capable men to handle the Panama canal because they are certain to be attacked within and without congress as to character and especity. It is equally hard to get peaceable men in other positions of public trust.

"To expose grime and to munt the originals in just, but remember that even in the case of crime, if it is at-(Journal Special Service.)

WILL APPEAR AT ZION TO APPEAL TO PEOPLE

Power of Attorney Held by Voliva Revoked in Lake County-Conference in Progress Over Settlement of Troubles.

forces as reported, waiving his tem-poral claim for the consideration of five per cent of Zion's assets.

"The question will never be settled on a dollar and cent basis. Any suggestion that Dowie will accept a setto Mexico without his appearance at Zion and the opportunity to see and talk to those he has worked for are entirely without a foundation." is the statement issued.

Voliva threatens to disclose what he alleges are the methods of bribery used by Dowie with a number of deacons. Dowie's attorneys have filed in Lake county a revocation of the power of at-torney held by Voliva. This admits that Dowle's attempt to revoke the power by telegraph availed nothing. At-torney Barnes, for Voliva, and Dowle's ounsel are conferring in Chicago.

GIRLS HERE'S A CHANCE TO GET MAN AND MONEY

Washington. April 14.—Henry Stark, possessor of \$590,000, according to his claims, announced in his apartments at the new Williard hotel today that he would be willing to settle \$200,000 upon any woman whose beauty and talents would inspire in him the love necessary to matrimony. Stark, whose home is ir New York, says that he made his money by lucky mining strikes in the Klondike and that he hit it rich in speculations in the Brazil diamond mines. Now he is tired of knocking about the world and will settle \$200,000 on any young eligible woman who pleases his fancy and is willing to marry him.

Chicago, April 14.—John Alexander BISHOP MORRIS LEAVES CHI DOLLAR EACH, ALL ELSE TO WIDOW

Makes Request That Widow Cive One Thousand Dollars to Episcopal Fund of Oregon Diocese, an Equal Sum to Christmas Fund for Disabled Clergy and Other Gifts.

By the terms of his will, which was probated this morning in Judge Webster's court, the late B. Wistar Morris, bishop of the Episcopal diocese of Oregon and an equal sum to the Christmas fund for disabled ciergy of the same diocese. Although the general missionary fund of the diocese of Oregon is indebted to me several thousand dren \$1 each. A separate will bequeathing all the church property and money beld in trust by him to his successor up the inventory of my estate. ing all the church property and money held in trust by him to his successor was opened, but the court held that it was an advisory document to his wife, was an advisory document to his wife, who was named as executrix of the

to be probated.

Neither the value of the personal estate nor that of the church held in trust by the late bishop, is given in the wills. From those who have been intimate with the bishop it is understood that he left quite a snug personal fortune and had a large amount of church funds in his hands. The personal will in full is as follows:

"In the name of the Father, Son and Holy Ghost, amen.

"In the name of the Father, Son and Holy Ghost, amen.

"I, Benjamin Wistar Morris, of Portland, Oregon, give and bequeath to my beloved wife, Hannah Rodney Morris, ail the property, real and personal, of whatever nature and wherever situated, of which I shall die possessed, to have and to hold as her own, to use and dispose of according to her own will and pleasure, subject only to the special and specific bequests mentioped hereafter in this instrument. I do hereby bequeath unte each of my four children, as herein named, the sum of the diocese which he held in trust are deposited in the First National bank, Ladd & Tilton's and the Portland Trust company banks,

Vote In Executive Session Indi- Celebrated Russian Novelist Is cates That Port of Portland Commission Wants to Let New Road In.

LIKELY TO GRANT IT MOST LIBERAL TERMS

Hill Company Opposes Demands Made Upon It Because the Harriman Lines Have Escaped Similar Exactions-Prospect for Free Competition Grows Brighter Daily.

A vote laken in executive session of the Port of Portland commission shows that the commission is on the verge of throwing down every bar to the en-trance of the Northern Pacific and Great Northern railway companies and per-mitting them to come into Portland on their own terms. On a resolution to accept the proposition of the railroad companies without modification, the vote stood 3 to 4, and the resolution was lost by but one vote.

companies without modification, the vote stood 3 to 4, and the resolution was lost by but one vote.

It is believed the commission realizes that the entrance of the two railroad companies on advantageous trackage rights would be the best thing that could happen to the city of Portland, and their refusal to enter the city as contemplated would be the worst thing that could occur for the interests of the whole community. It is said the commission is simply trying to find some ground on which it can stand with a show of having secured from the railroad companies some special advantages for the city. One commissioner said:

"Personally I am keenly desirous of seeing the Hill lines come into the city, and if they can be secured in no other way I am in favor of giving them a bridge charter on their own terms. But as the matter now stands, the commission has conceded everything and the railroad people have conceded nothing. We think we should get something out of them that would be of special benefit to the city—for example, \$16.000 a year to cover damage to shipping, or as a price for the franchise."

It is said the Hill companies will not listen to such a proposition, as they know that the Harriman people do not flow material to the city for catally and in the first the speration.

The actress manced the act will injunct or a service of the first or the city of Portland, and the railroad people have conceded nothing. We think we should get something out of them that would be of special benefit to the city—for example, \$16.000 a year to cover damage to shipping, or as a price for the franchise."

The actress was prominent at titing of Gerky's arrest and was furnitional forms of the wint and has fulfilled his companies with the such as a price for the franchise."

The actress was prominent at titing of Gerky's arrest and was fulfilled his companies with the purposes of the trip to America the should be of special benefit to the city nor of matters in the circle with the assumed the title. She is a wome of attractive p

public the use of the upper deck of the steel bridge.

"The Northern Pacific and Great Northern Railroad companies are willing to pay about \$1,500 yearly toward dredging the channel at the bridge they desire to build," said a Portland & Seattle official. "This is all they are willing to pay, and it is all that they can be justly asked to pay. The other company having a bridge in this harbor has no such charge imposed upon it. The road the Hill lines propose to build into Portland means absolutely no interference with sirect travel and it does not want to be involved in any warred. does not want to be involved in any interference to bridge traffic over it nor navigation through it. The tracks will run through the peninsula on a level that gives overhead crossings for every street, road and boulevard. It means that the tracks of these comments are tracked to the tracks of the tracks of the tracks.

that gives overhead crossings for every street, road and boulevard. It means that the trains of these companies can make the run between Portland and Varicouver in less than 10 minutes. The public professes to desire rapid transit. That is what we want to give them."

Upper Deck Less Popular.

It has been conceded by those who have been watching the bridge controversy since the last meeting of the Portland commission that the proposed upper deck on the bridge to be built by the Hill lines across the Williamette river would be impracticable. Business men and others interested are now looking for some other means of connecting the city with the lower peninsula.

"A high bridge at St. Johns, clearing all shipping and devoted exclusively to uses of streetcar, vehicle and foot travel, could be built with better advantage to the city, and would be a ten-times better project for the general public than the proposed upper deck. There is capital now ready to build such a high bridge," said F. I Mc-

eral public than the proposed upper deck. There is capital now ready to build such a high bridge," said F. I Mc-Kenna, president of the initiative com-mittee of 100.

mittee of 100.

He said there were drawbacks as well as benefits for the public in the upper as benefits connected with the as benefits for the public in the upper deck proposition connected with the railroad bridge. This bridge would be open more than any other bridge in the city, and would be a constant source of dissatisfaction. Every ship and boat that comes into the harbor from the north would have to pass through it. The draw would be open more than half the time, and there would be long waits by streetears and constant interruption of truffic over such a bridge.

of traffic over such a bridge.

A Better Plan Proposed.

A high bridge at St. Johns, connecting at the west end with the St. Helens road and also with the bullevard that passes north and south along the ridge of the hills, would be a far greater benefit to the city and cost much less in the long run. He said the city is now paying \$500 or \$500 a month for use of the ateci bridge, and this expense will go on forever. With a high bridge at St. Johns used by streatcars and vehicles at a small toll, and free to foot passengers and bicycles, the bridge would pay for itself and could then be made free to the public, while the city would always derive a good revenue from the streatcars making over it. He said the limited Bullways company is ready at the present lines to enter a contract to use such a bridge. He believed it could be
