CAKE, THE MAN IN MULTNOMAH

Probably Nominated for U. S. Senate Though Bourne Is Strong in the State.

WITHYCOMBE AHEAD IN MARION COUNTY

Geer Carries Multnomah for Governor But May Not Be Able to Overcome His Opponent's Vote in the State—Latest Figures.

Probable Republican nominees:

State ticket—U. S. Senator, H. M. Cake; Governor, T. T. Geer or James Withycombe; Secretary of State, Claude Gatch or Frank Benson; State Treasurer, Ralph Hoyt; Supreme Judge, Robert Eakin; Attorney-General, A. M. Crawford.

superintendent of instruction, J. H. AcKerman; state printer, Willis Duniway; commissioner of labor, O. P. Hoff; congressman, first district, W. C. Hawley; congressman, second district, M. R. Ellis.

County ticket—Circuit judge, department three, A. F. Sears; circuit judge, department four, C. U. Gantenbein; county judge, L. R. Webster; sheriff, R. L. Stevens; county commissioner, Frank G. Barnes; county clerk, Frank S. Fields; county treasurer, John M. Lewis; county auditor, Carl Brandes; county coroner, J. P. Finley.

Returns from 61 precincts of the 90 in Multnomah county give Cake a plurality over Bourne of 1,404 votes for the Republican nomination for United States senator. Lowell is a poor third. It is estimated that Cake's plurality in this county on a complete count will be close to 2,000.

Many points down the Willamette valley and in southern Oregon show a strong vote for Cake and his nomination for senator seems reasonably certain, although Bourne has given him a hard rub in Clackamas county, where Bourne's plurality was over 700, and in Josephine, which went for Bourne by 186. Partial returns from Linn county give Bourne 386, Cake 531. In Silverton, Marion county, Bourne had 48, Cake 142. Hillsboro gave Bourne 205, Cake 348.

The fight between Geer and Withycombe for the Republican nomination for governor furnished the sensational surprise of the primaries. Geer carried Multnomah county by a plurality of 1,159 in 61 precincts, with 29 precincts yet to hear from. The vote of the outside counties may overcome Geer's vote in Multnomah, and until returns are more nearly complete the result will be in doubt. Withycombe was very strong in the Willamette valley, but broke about even with Geer in eastern Oregon. Josephine gave Geer 386 and Withycombe 300 (partial count). In Albany Withycombe rolled up 688, while Geer had but 241. In Silverton, Marion county, Geer had 48, Withycombe 124.

The fight between Gatch and Benson for secretary of state is very close but indications point to the nomination of Gatch. He has carried Marion county by a sweeping plurality, estimated at nearly or quite 2,000, and this offsets Benson's gains in many ober counties. The two candidates were almost neck and neck in Multnomah county, 61 precincts giving Benson 1,806 and Gatch 1,800.

Stevens is the Republican nominee in this county for sheriff. Bird takes second place and Kelly third.

The returns from 61 precincts (complete) give the following results:

U. S. Senator—Bourne 1,693, Cake 2,097, Lowell 985, Smith 630, Watson 847.

Governor—Brown 858, Geer 2,966, Johns 1,399, Schlbrede 248, Withycombe 1,807.

Secretary of State—Benson 1,806, Gatch 1,800, Pearce 575, Wrightman 659.

State treasurer—Aitkin 616, Carter 798, Hoyt 1,687, Jennings 188, Ryan 770, Steel 1,413.

State Printer—Clarke 1,185, Duniway 4,532, Whitney 1,311.

County Judge—Giltner 1,394, Lewis 1,337, Webster 3,627.

Sheriff—Bird 1,860, Kelly 1,424, Rogers 432, Stevens 2,371, Storey 904.

Clackamas County.

(Special Dispatch to The Journal.)

Oregon City, Or., April 21.—Complete returns from 27 out of the 39 precincts in the county show:

Joint Senator—Bailey 762, Connell 251, Orton 711.

Joint Representative—Campbell 1,091, Cross 758.

On the county ticket Brown was nominated senator. Representatives are Huntley, Jones and Hayes; county judge, Dimmick; county commissioner, Counsell or John H. Lewillen; sheriff, Dimmick or Eli Maddock; county clerk, Greenman.

The race for recorder is close, and it is hard to say whether Dedman or Ramsby is elected.

Tufts is surely nominated county treasurer and Hungate surveyor. Holman is nominated coroner and Stipp justice of the peace.

SAN FRANCISCO, THURSDAY, APRIL 19, 1906.

EARTHQUAKE AND FIRE: SAN FRANCISCO IN RUINS

DEATH AND DESTRUCTION HAVE BEEN THE FATE OF SAN FRANCISCO SHAKEN BY A TEMBLOR AT 5:13 O'CLOCK YESTERDAY MORNING, THE SHOCK LASTING 48 SECONDS, AND SCOURGED BY FLAMES THAT RAGED DIAMETRICALLY IN ALL DIRECTIONS, THE CITY IS A MASS OF SMOULDERING RUINS. AT SIX O'CLOCK LAST EVENING THE FLAMES SHREWDLY PLAYING WITH INCREASED VIGOR, THREATENED TO DESTROY SUCH SECTIONS AS THEIR FURY HAD SPARED DURING THE EARLIER PORTION OF THE DAY. BUILDING THEIR PATH IN A TRIANGUAR CIRCUIT FROM THE START IN THE EARLY MORNING, THEY JOCKEYED AS THE DAY WANED, LEFT THE BUSINESS SECTION, WHICH THEY HAD ENTIRELY DEVASTATED, AND SKIPPED IN A DOZEN DIRECTIONS TO THE RESIDENCE PORTIONS. AS NIGHT FELL THEY HAD MADE THEIR WAY OVER INTO THE NORTH BEACH SECTION AND SPRINGING ANEW TO THE SOUTH THEY REACHED OUT ALONG THE SHIPPING SECTION DOWN THE BAY SHORE, OVER THE HILLS AND ACROSS TOWARD THIRD AND TOWNSEND STREETS. WAREHOUSES, WHOLESALE HOUSES AND MANUFACTURING CONCERNS FELL IN THEIR PATH. THIS COMPLETED THE DESTRUCTION OF THE ENTIRE DISTRICT KNOWN AS THE "SOUTH OF MARKET STREET." HOW FAR THEY ARE REACHING TO THE SOUTH ACROSS THE CHANNEL CANNOT BE TOLD AS THIS PART OF THE CITY IS SHUT OFF FROM SAN FRANCISCO PAPERS.

AFTER DARKNESS THOUSANDS OF THE HOMELESS WERE MAKING THEIR WAY WITH THEIR BLANKETS AND SCANT PROVISIONS TO GOLDEN GATE PARK AND THE BEACH TO FIND SHELTER. THOSE IN THE HOMES ON THE HILLS JUST NORTH OF THE HAYES VALLEY WRECKED SECTION PILED THEIR BELONGINGS IN THE STREETS AND EXPRESS WAGONS AND AUTOMOBILES WERE HAULING THE THINGS AWAY TO THE SPARSELY SETTLED REGIONS. EVERYBODY IN SAN FRANCISCO IS PREPARED TO LEAVE THE CITY, FOR THE BELIEF IS FIRM THAT SAN FRANCISCO WILL BE TOTALLY DESTROYED.

DOWNTOWN EVERYTHING IS RUIN. NOT A BUSINESS HOUSE STANDS. THEATRES ARE CRUMBLED INTO HEAPS. FACTORIES AND COMMISSION HOUSES LIE SMOULDERING ON THEIR FORMER SITES. ALL OF THE NEWSPAPER PLANTS HAVE BEEN RENDERED USELESS, THE "CALL" AND THE "EXAMINER" BUILDINGS, EXCLUDING THE "CALL'S" EDITORIAL ROOMS ON STEVENSON STREET BEING ENTIRELY DESTROYED.

IT IS ESTIMATED THAT THE LOSS IN SAN FRANCISCO WILL REACH FROM $150,000,000 TO $200,000,000. THESE FIGURES ARE IN THE ROUGH AND NOTHING CAN BE TOLD UNTIL PARTIAL ACCOUNTING IS TAKEN.

ON EVERY SIDE THERE WAS DEATH AND SUFFERING YESTERDAY. HUNDREDS WERE INJURED, EITHR BURNED, CRUSHED OR STRUCK BY FALLING PIECES FROM THE BUILD-

REPRODUCTION OF PART OF THE FIRST PAGE OF THE SAN FRANCISCO COMBINATION NEWSPAPER, THE FIRST ISSUED AFTER THE EARTHQUAKE.

USE LIQUID AIR IN FRANCE

From the New York Herald.

A group of savans of the Academie des Sciences, Paris, very recently paid a visit to a factory at Boulogne-sur-Seine to witness the manufacture for industrial purposes of enormous quantities of oxygen and nitrogen, extracted in a liquid state from atmospheric air.

"Georges Claude, the inventor of the interesting process, furnished the explanations," says Consul Brunot. "As the liquid oxygen flowed out from the generator it was of a bluish hue, while the nitrogen was colorless. Several experiments were made for the visitors to prove the importance of having an abundant supply of oxygen at one's disposal. A forge set up in the grounds showed the wonderful effects of the gas. The fire, which had almost died out, was immediately rendered incandescent by a current of oxygen from the blowpipe. A bar of iron was brought to a red heat and then melted like lead. Two pieces of iron were welded in a few minutes by the aid of a powerful flame from the blowpipe. Much costly and tedious riveting will be no longer necessary; iron will be welded against iron, copper against copper, etc. The doctors already foresee the possible treatment with liquid air of certain affections of microbian origin, such as osteomyelitis, anthrax and the malignant disease of the skin termed lupus.

"Liquid air has been tried in mines as an explosive agent, and for this purpose marl is wet with petroleum and then saturated with liquid air. The paste thus formed constitutes a good explosive when fired with fulminate, and has the advantage when it hangs fire to be without danger, as the liquid air evaporate very rapidly.

"The price of oxygen, according to M. Claude, for industrial purposes will not exceed 4 to 6 mills per cubic metre. Will it be possible to use liquid air as a motor power? The idea is very tempting and will be studied. It would be in any case particularly applicable to submarine boats, balloons, automobiles, etc. For the present it is sufficient to say that the invention of Georges Claude is quite recent, and that the easy and practical production of liquid air has only just been realized. Consequently it may be expected with every confidence in this century of rapidly advancing progress that the dreams of today may be the realities of tomorrow."

Tallest Captain on Atlantic Seaboard.

From the Providence Journal.

"Somewhat tall? Yes, possibly, but 'twas not always thus," said Captain Fickett of the barkentine Arlington, just arrived from the West Indies.

"After my 20th birthday they measured me and said I was six feet seven inches in my stocking feet. Yes, my berth aboard my ship was made to order, likewise the Irish linen sheets and the elderdown quilts which cover me.

"Some of your doors in this town compel me to bow my head to save my scalplock, and some of your electric light fixtures hang too low for my entire safety, but I manage to get around without serious injury. Oh, no, not so heavy, only 184 pounds."

He is the tallest sea captain on the Atlantic seaboard. He has been in the employ of the Boston firm who own the Arlington for many years, going most of the time off shore to the west coast of Africa and the West Indies. He was born near Millbridge, Maine, about 37 years ago.

Other captains here in port speak in high terms of Captain Fickett, of his qualities as a navigator and master mariner and all around good fellow, and say further that the great strength which goes with his tremendous height has stood him in good stead more than once.

Ability to See Everything.

From the Journal of Surgery.

A surgeon occasionally takes an applicant for a position on the house staff of the hospital with which he is connected, and bids him look out of a window and describe what he sees. Some men practically see nothing at all; others notice but a few things, not always the most important, while the balance appear to observe everything. It is from among the latter class that the successful candidate is commonly chosen. It is to the men who see everything that every art and science is indebted for whatever progress they have made, and the surgeon's method of gauging the probable value of a young man's service has nothing in it that is trivial and unimportant.

FAIR HANDS BUSY AT ARMORY

Women of Portland Respond Nobly to Call for Aid for the Suffering.

ALL WORK FAITHFULLY PACKING GREAT BOXES

Needlework Guild to Contribute at Least Two Pieces Each—Wagons Call for Clothing, Which Is Sorted and Prepared for Shipment.

The true spirit of Portland in the time of San Francisco's distress could have been read at the armory in the faces of more than 100 devoted women, who worked steadily and quietly from an early hour this morning packing boxes of relief supplies for the stricken thousands. As early as 8 o'clock some of the women were in their places receiving goods that were brought in, and before that boxes had been deposited for packing. The response to the call for clothing from Portland's homes was exceedingly generous and conveyances have not been able to answer the calls as quickly as they came in.

Large stocks of clothing are being brought in constantly from every part of the city and the supply shows no evidence of giving out. This morning 32 large packing-cases containing men's, women's and children's clothing of all kinds and bedding in unlimited amount were packed and the piles of unpacked stores remain almost as high as before. And through it all moved dozens of women working devotedly with no complaint of exhaustion and no wish for cessation, but only a word of thanks that the offerings continue to pour in so that they may go on working.

Many were there who have loved ones in San Francisco from whom they have not yet had word and they were among the most untiring workers. Only in labor for others have they been able to find some relief from their own anxiety.

Plan Systematic.

The large drill-room is the scene of a systematic and well-arranged working plan. Two large receiving tables stretching from the back entrance are presided over by several women, who sort the supplies brought in and send them to various points about the room, which are marked with large placards. One long table is devoted to women's clothing, and there are sections for underwear, suits, cloaks, aprons and shoes; another table for men's clothes is sectioned in the same manner; boys', girls' and infants' clothing have each their separate places. A complete list of everything that goes into each box is kept.

What the women of Portland are doing for the homeless people of San Francisco cannot be measured in money. This morning 33 cases were packed containing miscellaneous collections of clothing and bed linen. At least as many will be packed this afternoon and if the supplies continue to come in at the present rate the women will be kept busy all tomorrow as well. At one table a number are busy mending worn-out garments that come in. A large portion has had to be sent to the cleaners or to the laundry. The women appreciate the kindness that prompts people to give what they can, but they regret the thoughtlessness that makes an extra expense necessary.

Needlework Guild Busy.

The Needlework guild is doing its part in the work, and has a table for itself. Mrs. J. S. Reed, president, issued an emergency call this morning, asking for two articles from each member. Many are bringing in more than two, and as there are in Portland 56 directors of the guild and each one has from 10 to 30 members in her district, this alone will net from 1,500 to 2,000 pieces.

The work of sending clothing is only a beginning of what the Portland women are ready and preparing to do. Their work began almost as soon as the disaster was heard of, with the sending of an emergency corps of nurses and physicians, with drugs and groceries on a special train in the evening. Scarcely was this work done when the committee began its next work. A large meeting was held at the Portland yesterday.

The committee appointed to superintend the work at the Armory was: Mrs. A. J. Meier, chairman; Mrs. A. F. Rockey, assistant chairman; Mrs. W. J. Honeyman, Miss May Failing, Mrs. W. J. Burns, Mrs. J. K. Kolloch, Mrs. Morton Insley, Mrs. Ludwig Frank, Mrs. W. L. Brewster, Mrs. A. B. Steinbach, Mrs. James S. Green, Mrs. W. A. Mears, Mrs. A. C. Fenton, Miss Clementine Wilson, Mrs. R. R. Hoge, Mrs. Ben Selling, Mrs. T. B. Wilcox and Mrs. Max Hirsch. A great many of the young women are helping in the work. The purchasing committee consists of Mrs. J. N. Teal, Mrs. Richard Koehler, Miss Failing and Mrs. Isam White. The boxes will be sent this evening directly to Dr. K. A. J. Mackenzie, who is in charge of the emergency corps of physicians and nurses.

To Find Shelter for Refugees.

The women have also undertaken to find shelter for the refugees who will soon begin to arrive. Many are opening their homes unreservedly, and all are ready to help in meeting the unfortunates and helping them to their friends. Mrs. Millie Trumbull announced at yesterday's meeting that the board of charities would be ready to look after destitute. The Travelers' Aid association announced through Mrs. W. J. Honeyman its willingness to meet refugees at the depot and to give them all assistance.

The women's committee is confining itself to receiving clothing and bedding only and the money and food supplies are sent to the men's committee to avoid confusion in the work. In the case of some who prefer to give to the woman, they are requested to buy some article of clothing, if it be no more than a towel, and present it.

All who wish conveyances to call for their contributions should telephone to Mrs. Louis H. Tarpley, 54 Ella street, Main 2459; Mrs. Adolphe Wolfe, 183 King street, Main 5214; Mrs. Zera Snow, 184 Twentieth street, Main 2,914; or Mrs. John A. Shepard, 84 Twenty-first street, Main 2662.
