

NEEDN'T GO NOW TO ASYLUM

Mrs. Emma A. Albers, Who Worried Over Daughter's Safety, Adjudged Insane.

GIRL SURPRISED HER BY COMING BACK HOME

Then Came Officers to Take Mrs. Albers Away - Now It Appears That Judge Webster Did Not Sign Commitment.

Although committed to the state insane asylum on April 23, Mrs. Emma A. Albers has not been sent to that institution and it is thought that she will not be.

Worried almost to death because she had received no word from her daughter, who was living in San Francisco at the time of the earthquake, Mrs. Albers is said to have become hysterical at times when the hours passed and no message came.

The daughter escaped from the California horror without being injured, and, not taking time to write to her mother, hastened aboard an outward bound refugee train and came to Portland. Not waiting to telephone that she had arrived, Miss Albers went home. A little brother was playing in front of the house when the supposed lost one alighted from the car.

The mother was working in the house and, looking out of the window, saw a girl coming. The girl stooped over and kissed the boy. Then Mrs. Albers knew her daughter.

It is now told by friends of the woman that just as she was arranging the affair with a doctor to examine her and an officer alighted and asked for Emma A. Albers. It is said that when Mrs. Albers made herself known the officer told her that she was wanted at the courthouse and must go at once.

When Mrs. Albers reached the courthouse she learned that she had been reported to the county court as being insane. It is said that her husband had made the complaint against her, but as Mr. Albers could not be found this morning, it is not known whether this report is true or not.

In the commitment, in answer to the printed question, "Number of attacks," it is written, "Probably one, which is said to have lasted nine years." In describing the case, the following is written on the legal papers:

"Bordering at times on melancholia; unreasonable, anxious and suspicious. Has outbreaks of temper without extrinsic provocation."

It was discovered that the commitment was not by County Judge Webster. She had previously telephoned Attorney Flegel, and when he saw that the commitment had not been signed he ordered a carriage and took the woman to his home.

STAMP SALES BIGGER THAN DURING FAIR

Postal receipts at the local office for the month of April show a greater increase of percentage over the corresponding month of last year than has been shown by any month of 1919. The percentage of increase for January was 22.9, for February 25.3 and for March 33.1. The total receipts from the sale of stamps, postage paper and postal cards for the month of April were \$43,034.32, and the receipts from other sources were \$1,146, making a grand total of \$144,169.32.

The receipts of the local office last year almost reached the half million mark and it is expected that this goal will be passed this year. The exposition caused a large increase and the increase over last year reveals the healthy condition of the office. Portland has the distinction of being the only exposition in which the stamp sales for the year following the exposition were greater than during the exposition year.

Up-to-date Suits. Styles for summer are in good taste. The fads are modified. No artificial shoulders. The natural figure improved if necessary. Coat and vest open lower - more show for the resplendent scarf.

LION CLOTHING Co. Men's and Boys' Outfitters. 166 and 168 Third Streets, Mohawk Building.

SEES MUCH TRADE FOR PORTLAND

J. H. Dewson, Harriman's Manager, Thinks Great Disaster Will Help Business.

BUILDING MATERIAL MUST BE SENT SOUTH

Portland Will Be Distributing Point for Much Freight Sent to San Francisco from Honolulu and Panama Railroad.

"Traffic between Portland and San Francisco will show a big increase this season over that of any previous year by the water lines," said J. H. Dewson, local general manager of the Harriman steamship line.

"Our steamers will be kept in regular commission and as soon as the necessary arrangements can be made the service will be improved. I take no stock in the reports being constantly circulated that the shipping business down the coast is going to be paralyzed."

Dewson explained that the tonnage sent south would be greater for the reason that San Francisco is going to be rebuilt just as quickly as possible. Building material of numerous kinds is to be sent to the city from Portland. The first shipment of corrugated iron will go down on the Barracouta tomorrow afternoon. Cement will also be taken out on the same steamer.

Coming this way, Mr. Dewson says, there will be larger quantities of fruit than usual, because temporarily San Francisco will be unable to provide an excessive amount of fruit which cannot be consumed in California. It will be sent north, much of it coming to Portland. So far as can be learned the fruit and other crops are in fine condition in the Golden State. It was expected that he would learn that most of the produce would be sent to Portland and the sound country.

Other freight will be shipped here from San Francisco which came from Honolulu and the Panama railroad. There is no doubt that all of the steamers will secure all of the traffic for the northern ports. The freight from the Hawaiian islands will be largely sugar, bananas and other tropical products. Much salt and asphalt will also come from California. It is expected that the cargo will arrive at a conclusion other than that the volume of business is going to be much greater than it has ever been.

It was pointed out that the unproductive season which cannot be made necessary to import the Japanese article in large quantities and the orient liners coming to Portland will get more traffic than in the past. In addition to this it is thought that the steamer operating from San Francisco will be inadequate to handle the increased volume of business coming from the far east, and that much of their freight will have to be turned over to the Portland freighters.

Quarter Million Bushels Shipped From Portland to Europe in April. To May 1 the wheat shipments from Portland for the present cereal year, which began on July 1, 1919, amount to 4,716,106 bushels, according to figures which have just been compiled by the Merchants' exchange.

For the same period 1,118,009 bushels were sent from the Puget sound district, comprising half a dozen ports. During the first four months of 1920, 1,308,200 bushels to Europe, 157,463 bushels to California and 89 bushels to the orient.

The four shipments from the Willamette river for the season total 1,144,553 barrels, against 1,548,974 barrels dispatched from the various ports in the sound country. In April, Portland shipped 70,649 barrels and the Puget sound district 34,242 barrels more than the same period last year.

The French bark Jacobson sailed from Astoria for Portland on April 18 with a full cargo of cement. Consul Labbe received a letter yesterday from Ernest G. Connel, agent for Rocca at San Francisco, who was reported missing after the fire.

In honor to the memory of Sheriff Shaver of Clackamas county, who was murdered by Frank the burglar, a river boat is carrying their flags at halfmast. The dead officer was one of the pioneer steamboat men of Portland.

Tomorrow the barkentine T. Emigh is expected to finish her lumber cargo for San Pedro. G. M. Lee, local agent of the Pacific Coast Steamship company, has been notified that the steamer Unatilla and Green will be placed in regular commission between Seattle and San Francisco.

In a few days the tender Heather will tow ship No. 56 to Seattle, where she will be repaired by Moran Bros. The shipbuilding firm was short of material or the craft would have been taken north several weeks ago.

United States inspectors Edwards and Fuller went up to Collio this morning to inspect the steamer Mildred. The Francis H. Leggett reached the mouth of the river this morning to tow the huge log raft which was built at Stella to San Francisco. The raft is around near Westport, but local mariners say it can be undoubtedly floated at high tide the latter part of the week.

MARINE NOTES. Astoria, May 1—Arrived at 4:30 a. m., steamer Daisy Mitchell, from San Francisco. Arrived at 8 and left up at 3:30 p. m., steamer Argos from Port Hazel. Arrived at 5 a. m., steamer Francis H. Leggett, from San Francisco. Arrived at 8 and left up at 3:30 p. m., steamer Costa Rica, from San Francisco. Left up at 12:30 a. m., steamer Daisy Mitchell.

Eureka, April 30—Sailed at 3 p. m., Steamer Alliance, for Portland. Halpoung, April 17—Arrived, British ship Blythwood, from Portland. Sailed for San Francisco, May 1—Sailed yesterday, steamers Aurelia and Redondo, for Portland.

Astoria, May 1—Condition of the bar at 6 a. m. smooth; wind northwest; weather cloudy.

Two log drives now going down McKenzie river and Fall creek amount to 14,000,000 feet.

A POSITIVE NECESSITY. Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Eucalypti. I cheerfully recommend it as the best remedy for bruises ever sent to the afflicted. It has now become a positive necessity upon myself. D. G. Brynes, merchant, Doversville, Texas, Dec. 16 and 19, 1916, Sold by Woodruff, Clarke & Co.

WEAK STOMACH AND SICK HEADACHE CURED BY DR. WILLIAMS' PINK PILLS

Another Triumph for the Tonic Treatment for Disorders of the Digestive System.

The symptoms of stomach trouble vary. Some victims have a ravenous appetite, others loathe the sight of food. Often there is a feeling of weight on the chest, a full feeling in the throat. Sometimes the gas presses on the heart and leads the sufferer to think he has heart disease. Sick headache is a frequent and distressing symptom.

A weak stomach needs a digestive tonic and that there is no better tonic for this purpose than Dr. Williams' Pink Pills is shown by the statement of Mr. A. C. Merrill, a mining man of Ontario, California, a veteran of battalion C, Third United States regular Infantry.

"I had never been well since I left the army," he says, "always having had trouble with my stomach, which was weak. I was run down and debilitated. Could keep nothing on my stomach, and at times had sick headache so bad that I did not care whether I lived or died. My stomach refused to retain even liquid food and I almost despaired of getting well, as I had tried so many kinds of medicine without relief. Then I was bitten by a rattlesnake and I laid me up from work entirely for a year, six months of which I spent in bed."

"One day a friend recommended Dr. Williams' Pink Pills to me and I began taking them. They cured me when all other medicine had failed. I have recommended the pills to a great many, for during my recovery every one asked me what was helping me so and I told them Dr. Williams' Pink Pills. I cannot speak too highly of them."

If you want good health you must have good blood. Bad blood is the root of all common ailments, such as anemia, rheumatism, scurvy, jaundice, "Vitus" disease, nervousness, indigestion, debility, general weakness, paralysis, locomotor ataxia and the special ailments that only women folk know. Dr. Williams' Pink Pills actually make new blood and this is the secret of their success in these diseases.

"Dr. Williams' Pink Pills are sold by all druggists or sent by mail on receipt of price, 50c per box; six boxes for \$2.50 by Dr. Williams Medicine Co., Rochester, N. Y."

Several months ago for that reason it is claimed a portion of their space might as well be used for getting lumber down the coast. Should this plan be carried out it is believed that the lumber business can be fairly well handled.

NEARLY TEN MILLION. The New York and other eastern men interested in the industry have made searching inquiry into the conditions which are bringing to the west what promises to develop in a few years into a great market. First of all, they have discovered that rich western land is more suited to the production of tomatoes than worn lands of eastern states, which require great expenditures for fertilizer and irrigation.

Indiana, Illinois and Iowa now lead the list in the production of canned tomatoes, but in the production of canned tomatoes, Indiana, Illinois and Iowa now lead the list in the production of canned tomatoes, but in the production of canned tomatoes, Indiana, Illinois and Iowa now lead the list in the production of canned tomatoes.

Maryland, Delaware and New Jersey are losing their tomato output and Indiana is gaining almost in proportion, although Ohio is sharing the benefit. Dr. J. C. Grant, Indiana farmer, reports for the production of tomatoes in commercial quantities, but the cleared forest land of Indiana has proved especially fitted to their culture.

Consequently, tomato canning plants have grown up like mushrooms in the Indiana belt. And Freight Rates a Reason. New York and other eastern men interested in the industry have made searching inquiry into the conditions which are bringing to the west what promises to develop in a few years into a great market.

SHORTAGE IN PACKED TOMATOES IS THREATENED, HOWEVER, DESPITE GROWTH OF INDUSTRY.

Shortage in Packed Tomatoes Is Threatened, However, Despite Growth of Industry.

Following the shifting of the center of population and money supply from the east to the west, the canning industry, which each year preserves and distributes throughout the world millions of cans of vegetables and fruits, has broken away from a strong eastern centralization and settled in the states easily accessible to Chicago. Within the last five years a new complexion has been given the packing business, and to keep up with the industrial evolution, eastern packers have been forced to move westward or see their trade go into other hands.

Chicago has come to the fore as the distributing point of the country. Great grocery jobbing concerns in this city, which do millions of dollars worth of business a year, find that from 25 to 35 per cent of their trade is in canned goods.

West's Vegetable Business Immense. Especially in the production of canned peas, corn and tomatoes has there been a big change in the standing of the states. New York, Maryland, New Jersey, Delaware and other eastern states the seat of the business, have moved to Indiana, Wisconsin, Ohio, Illinois, Iowa, Nebraska and other western states. Indiana especially has come to the front in recent years.

With Wisconsin, Indiana has taken a great portion of the canned pea production from Maryland and New York.

Indiana, Illinois and Iowa now lead the list in the production of canned tomatoes, but in the production of canned tomatoes, Indiana, Illinois and Iowa now lead the list in the production of canned tomatoes.

Maryland, Delaware and New Jersey are losing their tomato output and Indiana is gaining almost in proportion, although Ohio is sharing the benefit.

REPUBLICAN SUB-COMMITTEE FRAMES STATEMENT OF PARTY'S PRINCIPALS AND BENEFITS.

Republican Sub-Committee Frames Statement of Party's Principals and Benefits.

NO NEW ISSUES OF ANY IMPORTANCE PRESENTED

Statement Credits Party With Wonderful Prosperity of Country in Past Ten Years—Embodies Chamberlain's Favorite Ideas.

The platform of the Republican party in Oregon has been prepared by the subcommittee of the state central committee and was made public today. The subcommittee which framed the platform consisted of W. W. Banks, W. W. Stetler, W. J. Church, John Fox and W. S. Dunham. There will be no formal approval of their work either by the state central committee or by the Republican voters of the state, the subcommittee having been vested with full power to act.

No new issues of importance are presented by the platform and several of its planks embody ideas which have been vigorously championed by Governor Chamberlain throughout his term. The platform follows:

Resolved, That the Republicans in Oregon, proud of the party's achievements and confident of its continued usefulness in the future, renew their enthusiasm in the faith and pledge each other to work together in harmony and good fellowship with the single purpose of securing to the state and to the nation the preservation of the principles of the Republican party; and we congratulate our people on the happy cessation of the factional differences that have militated against Republican success in the past.

Crediting Party with Prosperity. Resolved, That we reaffirm the principles of the national Republican platform adopted at Chicago June 12, 1894, and congratulate the country upon the continuation of the era of prosperity that began under the wise and beneficent administration of public affairs by a Republican president and a Republican congress. It is a source of gratification to our people that our great industrial growth and the unexampled development of the resources of mine, farm and workshop since 1897 is due to the fact that the Republican party, with its policy of protection and its stand for a safe, honest monetary system, has experienced the functions of government. With its bright record of achievement, the Republican party expects a continuance of the confidence heretofore manifested in its policies and administrations. We therefore call upon the people of Oregon to give their support in the June election to the party of protection, progress and prosperity.

Inside the President's Administration. Resolved, That President Roosevelt's administration of the affairs of the nation, at home and abroad, justifies the faith of the people in him as a wise and patriotic executive. We especially commend the steps taken by him to promote internal peace and contentment in the Philippines and to encourage the trade relations of our people with the several nations of the orient. In his battle for the righteous cause of justice, he has merited the cooperation of all good citizens.

Resolved, That we heartily commend the principle embodied in the initiative and referendum amendment to the constitution. We urge the Republicans of Oregon to carefully consider all measures proposed thereunder. This law, approved by two successive Republican legislatures, and adopted by the voters, has eliminated the dictatorial power and brings back to the people the control of their political affairs.

Resolved, That the first trial in Oregon of the initiative law and of statement No. 1 thereof, proves it to have been the means of recording the people's will in the choice of candidates for public office, and the Republican party in Oregon with such regulation and control of corporations as will protect the rights and interests of the people.

Resolved, That the Republicans of Oregon favor just and equitable taxation of both tangible and intangible property, and are unalterably opposed to granting perpetual franchises.

Resolved, That we favor legislation that will require private banks, trust companies and savings banks to make true and accurate semi-annual reports of their financial condition similar to those required of national banks by the Federal Reserve act of the United States to the end that the rights of the depositors and the people of the state with whom they do business shall be fully protected.

Favors Loaning State Funds. Resolved, That we favor the loaning of idle state funds to the state on safe, ample securities, at highest rates of interest possible to obtain consistent with absolute safety of the funds so loaned. The interest arising therefrom to be paid in the treasury of the state.

Resolved, That the interest of the people of the state of Oregon demand government ownership of the locks at Oregon City.

Resolved, That the government of the state should be invested with the power to veto individual items in appropriation bills.

Resolved, That we commend the efforts of our representatives in congress in securing appropriations for the rivers and harbors of our state, and we call attention to the necessity of securing further congressional aid for the removal of all barriers to the exchange of commercial products with the markets of the world.

Resolved, That we pledge the nominees of the state Republican ticket to prudent, efficient and economical administration of the business of the state, and the enforcement of all laws upon the statute books.

Resolved, That we extend our sincere sympathy to the victims of the earthquake of our sister state of California and commend the prompt relief tendered them in their recent hour of calamity.

Recalling Old Times at Champeog Tomorrow. Tomorrow is Provisional Government day at Champeog, the thirty-third anniversary of the birth of civil government in American territory west of the Rocky mountains, and hence a notable event in the annals of Oregon.

F. X. Matheis, cabin-maker and native son of Oregon, located at Buttville, has arranged a fine program, which will be carried out under the direction of ex-Governor T. T. Gear, president of the day. The chief address will be given by Charles V. Falloway of Yamhill county. He will be followed in five-minute talks by a number of prominent citizens. F. X. Matheis, the only survivor of the epoch-making meeting of more than

thirty years ago, now in his eighty-eighth year, will be present. The trip by boat to Champeog is a most delightful one. Boat leaves the foot of Taylor street at 6:45 a. m. and will return in the evening.

Bank Closes Doors. (Journal Special Service.) Newport, Ark., May 1.—The Bank of Newport has closed its doors. Its capital is \$50,000 and its deposits \$100,000.

Every woman knows that a polished table collects so much dust in a day that she can write her name on it.

The same thing happens to a soda cracker exposed to the air - sufficient reason for buying Uneda Biscuit the only soda cracker. Perfectly protected in a dust tight, moisture proof package.
