The first letter was sent Mayor Lane by Mrs. Ida Anderson, young Huxley's mother, who lives at 608 Bonery street, Ravenna, Ohlo. The woman is now in a state of collapse and dangerously ill, subsequent correspondence being with friends and Chief Hotchkiss. Mrs. Anderson informed the mayor in her communication, dated April 22, that three weeks previously she had received a letter from her son, saying he was ill at Portland. Mayor Lane turned the letter over to Chief Gritzmacher.

The chief assigned Detectives Vaughn and Heliyer to make an investigation. They were unable to get trace of the missing son and the chief sent Mrs. Anderson a letter asking for fuller information. His communication was an

(Journal Special Service.)

Lancaster, N. H., May 8.—Seventy thousand acres of timber land, including Mt. Washington, the most famous peak of the White mountains, were transferred today by Robert Osgood to Garland, Cobb & Stahl company, a lumbering concern. The consideration is about \$75,000. Mt. Webster was also included in the area, which lies in Coos and Carroll counties.

Mr. Osgood bought the land last July under a mortgage sale in settlement of the affairs of the Bartlett Lumber company.

Whether the new owners will cut over the tract is under consideration. They are New Hampshire business men who are known to be interested in forest preservation, and the opinion obtains that their purpose was to secure the tract as a nucleus for a White mountain reservation.

News of the culmination of the romance in a secret wedding has just reached Portland. The wedding took place in Los Angeles three weeks ago and every effort has been made to keep it a profound secret.

The romance is flavored with a dash befitting the marriage of a possible world champion and a convent girl. Until two weeks before the wedding Miss Keating the marriage of a possible world champion and a convent girl. Until two weeks before the wedding Miss Keating had attended a convent in Indianapolis. In April she graduated and went to Los Angeles. OLD MAN WALKING IN INTEREST OF SCIENCE

Charles Meserve of Grants Pass, editor of the Rogue River Courier, who arrived in Portland this morning, is emphatic in the denial of the statements published throughout the United States to the effect that the Rogue River valley has been shaken by a severe earthquake.

"The report has been faisely exaggerated," he declares, "and the impression has gone abroad that we are in want as a result of the shake.

"The facts are these. There was a slight tremor of the earth. So slight was it that it barely ratiled the window eashes in my room. I was awake at the time and it did not make half the stir that a good wind would have done. The untruthful reports that got out have hurt the Rogue River valley and we want now to spread about the correct version of the shock.

"The Rogue River valley and we want now to spread about the correct version of the shock.

"The Rogue River valley this year is as prosperous as ever. More apple trees have been added to the orchards than in former years. We expect to increase our apple crop 25 per cent this year."

Proof lies in the testimony of Portland people who have been cured to stay cured.

David Campbell, baker, of 221 North Seventeenth street, and living at 170 North Eighteeenth street, Portland, Ore. says: "Every word of the statement I made in February, 1963, concerning Doan's Kidney Pills is not only true, but having since been free from kidney trouble, I am glad to state that my faith in Doan's Kidney Pills is stronger than ever. It is now five or six years since I began to suffer with a lame and aching back. It was so had that I could not stand the pain when bending forward or straightening. I tried various remedies and began doctors' treatment, but whatever relief I found was only temporary and offen I could not get any selief at all. Having read in my home paper from England that Doan's Kidney Pills were strongly recommended for such troubles I got a supply at a local drug store. The first box helped me so that I kept on with the treatment and when I had taken about four boxes not a trace of the trouble remained and I have had no recurrence since. I have told these facts in a testimonial published in 1993, and am very glad of the opportunity now to corroborate it."
