OAKLAND HAS BEEN MADE POINT OF CALL

Another Postponement Necessary Before Work of Raising Elder Is Resumed-Czarina Arrives After Stormy Trip.

Arrangements have been perfected with the Southern Pacific company, whereby the San Francisco & Portland Steamship company is to sell through tickets to sil points in the interior of California via Oakland. The Southern Pacific will likewise make through rates to all Oregon points. By this arrangement passengers are enabled to board one of the steamers at this port and upon arrival in Oakland transfer to any of the rail or river lines controlled by the Southern Pacific, entirely doing away with the necessity of again purchasing tickets or being subjected to delay. The same rule applies to those traveling northward, as all Southern Pacific agents will sell through tickets to any station in this state via the San Francisco & Portland Steamship company.

Oakland has been made a regular port of call and the steamers from Portland now land at Broadway wharf in that city in addition to docking at Spear street, San Francisco. It is anticipated that this arrangement will prove a powerful stimulus to travel in both directions.

CZARINA IN PORT.

Arrives After Battle With Kenry Wind and Bon,

Owing to the terrifle northwesters ensuntered after leaving the Golden Gate, the steamer Carrina. Captain Duggan, arrived last night from San Francisco after two and one half days behind her regular time. The vessel docked at the coal bunkers as the fuel supply was almost exhausted as the result. of the great consumption of coal necessary to buck exceptionally heavy winds and sea. The Czarina tied up at the Amsworth dock this morning and will start loading a cargo of wheat at the Irving dock today for George W. McNear's South Vallejo mills. Owing to the fact that the local wheat supply is almost exhausted it is not expected that the Czarina will take more than one or two Carrina will take more than one or two cargoes to San Francisco until the new crop is harvested. Nothing was seen of the Francis H. Leggett on the voyage and it is not known whether she has been able to locate the monater log raft which she lost off Crescent City.

Steamer Pronto Now Being Built Will Be Improved Craft.

An innovation in the construction of river steamers is noted in the steamer Pronto, built by the Portland Shipbuilding company for the Willamette & Columbia River Towing company. The vessel, although larger than the majority of craft engaged in river work, has been so constructed that she will be able to clear any of the drawbridges without the necessity of having them opened. This will greatly facilitate traffic and prove a boon to the bridge-tenders. The Pronto is 160 feet in length and the machinery is new being installed by the owners at the foot of East Yamhill street. It is expected that she will be put in commission within a fortnight.

Instant Relief and & Lasting Cure by Using Pyramid Pile Cure.

A Trial Package Mailed Free to All.

The rectum, like the mouth, is lined with that soft, satiny material known as mucous membrane. Piles is a disease of that membrane, and the blood vessels that lie under it.

SAY-PAY'S RUDE WIGWAM WILL KNOW HIM NO MORE

(Special Dispatch to The Journal.)

Tacoma, Wash., May 8.—Say-Pay, one of the oldest Indians of the state, is dead at his home, which consisted of but a rude bark wigwam at the mouth of Chambers creek, 12 miles from Tacoma. Say-Pay was a member of the Puyallup tribe, but years ago when the government set aside a reservation for the tribe near Tacoma, he refused to go on it and became the leader of a large band of Indians similarly independent. They pursued a nomadic life, roving over western. Washington and wintering in the vicinity of Tacoma. Say-Pay did not know how old he was, but he could remember when the first whites came to settle in the sound region.

Since the death of General Spot and other hereditary chiefs of the Puyat-lups, Say-Pay has been looked upon as head man by a large number of his
