The Seals' downfall came to pass in the second inning. With two on bases Moore drove over right field.

WHO IS GREATEST BATTLING NELSON BALL PLAYER IN TRAINING

Presence of Baseball Season Reviews Question of Who is the Star.

WAGNER AND LAJOIE IN THE LIMELIGHT

National League and Many Other Devotees Think That the Dutchman Has It on the Frenchman on a Just Comparison.

Now that the baseball season is here, the old question as to who is the greatest player in the world will be revived.

Both players have strong adherents. To those who have never seen the men in action La Jole is the almost ideal player, but keen judges of the sport are openly divided as to the merits of the men.

The big Frenchman is a great enough second baseman, but he is not in it with Wagner when it comes to running bases, and outside of playing second base Wagner is much better in any position than La Jole.

Wagner is undoubtedly one of the greatest players the game has ever known. He is a great batsman, an incomparable fielder or outfielder, and one of the best base runners the game has ever known.

Wagner is an entirely different sort. The big Dutchman is a lumbering, awkward runner, better and fiercer, but he gets results, and that is what is wanted in a ball player the same as of a man in any other calling.

The only point where some experts think Wagner is lacking is in games. But these are wrong in this opinion. Wagner has shown that he can play under difficulties as well as any man.

Another point in which Wagner excels La Jole is that he is nearly always in the game. La Jole, on the contrary, seldom goes through a season without losing at least a month's time.

As to La Jole's games, there is just as much doubt as there is to Wagner's. The big Dutchman seldom misses a day. He is always in the game and can play any position.
