

# GEARIN MAY MAKE CAMPAIGN

Receives Flood of Invitations and Requests to Come and Tour State.

CONSIDERS IT DUTY TO STAY AT CAPITAL

When Pending Railroad Rate Legislation Is Settled So Far as Senate Is Concerned, Senator May Make Canvass of Oregon for Re-election.

(Washington Bureau of The Journal.) Washington, May 11.—Senator Gearin within the past several weeks has received a flood of invitations and requests to come to Oregon to make an active speaking contest during the pending campaign. In addition, he has had many invitations from societies and Oregonians to speak upon questions of the day between the present time and the date of the coming election. To all of these requests Senator Gearin has sent negative responses, stating that while the important question of railroad rate legislation was pending he considered it his duty to remain in Washington to work and vote for what he considered a proper adjustment of the question. To urgent demands from his party leaders that he return to Oregon, Senator Gearin replied that even should his absence cause his defeat in the senatorial campaign he would remain here at least until a vote was taken on the bill and the rate question was settled so far as the senate could settle it. Now that the rate question is about to reach a settlement, it is possible that Senator Gearin will return to Oregon to take an active part in the campaign, speaking in various parts of the state, but he will not determine definitely as to this course until a final vote is taken.

# CHICAGO FOOTBALL MAN TO COACH OREGON

(Special Dispatch to The Journal.) Eugene, Ore., May 11.—The new football coach of Oregon next season will be Hugo Besdek of the University of Chicago. Arrangements were practically completed yesterday with him and the athletic committee in favor of securing him. Besdek is a player of some note, playing the position of full in Chicago for three years past and knowing the game from the standpoint of player and coach. The management is fortunate in securing him. He will arrive in Eugene early in the fall to get a line on the men and interpret the new rules for the gridiron players with which he will be perfectly familiar. Besides having charge of football Besdek will remain throughout the year at college and have charge of the basketball and baseball teams as coach.

# FIGHT IS SLOWLY PROGRESSING

Hill and Harriman Battle at Vancouver Over North Bank Field Continues.

LETTERS FROM MAGNATE WILL BE INTRODUCED

One Speaks of Agreement That Was Discussed and Is Believed to Mean That Harriman Was to Use N. P. Tracks From Portland to Kalama.

(Special Dispatch to The Journal.) Vancouver, Wash., May 11.—The taking of testimony in the railroad case between the Hill and Harriman forces before the superior court here still continues and from present indications will for several days. Yesterday a number of witnesses for both sides were put on the stand. The testimony of the Portland and Seattle witnesses was all of the same nature, that is, to prove that the work done along the north bank was not performed with the ultimate idea of constructing a railroad. The number of men employed by the Columbia Valley was taken up. The idea was to show that at the present rate of progress it would take 10 or 15 years for the Columbia Valley road to be completed.

For the Columbia Valley witnesses testified as to the amount of work done and that the number of men is constantly being increased. W. E. Stowe, superintendent of the Columbia Valley forces, testified that up to April 1 his company had paid out for labor \$18,000.

The following letters, now in the hands of James H. Kerr, counsel for the Portland and Seattle, bid fair to play a most important part in the result of this case. It is highly probable that the agreement referred to in these letters is that of allowing the Harriman roads to use the Northern Pacific tracks from Portland to Kalama, in turn for which Harriman would agree to keep out the north bank road.

New York, Nov. 16, 1905.—Mr. Howard Elliott, president, N. P. Ry., St. Paul, Minn.—Dear Sir: I am informed that in several places on the north bank of the Columbia river the forces of the Northern Pacific or of the local company incorporated by it, have started work on property owned by the Columbia Valley company. As you have declined to recommend to your board the proposed agreement discussed with you at St. Paul, we must request you to abstain from entering into any work on this property until we shall have reached some understanding. I am willing to discuss the matter further with you at any time when you are in Chicago, beginning on Monday, five days in advance of your expected arrival. Yours truly, J. KRUTTSCHNITT.

"Director of Maintenance, Union Pacific Company." The above letter was the result of the following letter written over the signature of E. H. Harriman:—New York, Nov. 5, 1905.—Mr. Howard Elliott, president, N. P. Railway company.—Dear Sir: I duly received your letter of October 31 and referred the same to Mr. Kruttschnitt with request that he take up the matter in relation with you. Yours truly, "E. H. HARRIMAN." Both these letters will be placed as evidence before the court here by the Hill attorneys.

# FILES SUIT ASKING TO HAVE DEEDS SET ASIDE

(Special Dispatch to The Journal.) Albany, Or., May 11.—A complaint was filed yesterday in the office of the county clerk to set aside a deed of E. J. West, plaintiff, against M. T. Rowell, Clyde Rowell and P. E. Casebeer. Plaintiff alleges that suit was duly instituted in the circuit court for Linn county on June 10, 1904, for the recovery of money. Judgment was duly rendered against Defendant M. T. Rowell February 24, 1905. That defendant was the possessor of a certain tract of land the sale of which would have satisfied the amount of the judgment; this she immediately transferred to her son, Clyde Rowell, without consideration, who in turn deeded it to P. Casebeer in the same manner, all this being done with the purpose and intent of hindering, delaying and defrauding her creditors. Plaintiff prays for a decree setting aside the deeds and that they be declared fraudulent and void.

# EXPRESS COMPANIES AIDED IN RELIEF WORK

Accusation of LaFollette That Concerns Profited by Disaster is Denied.

(Journal Special Service.) New York, May 11.—The allegation made by Senator LaFollette of Wisconsin, in the senate last week, to the effect that the various express companies had profited greatly by the transportation of supplies to sufferers in San Francisco, is emphatically denied by the companies themselves. H. B. Parsons, vice-president of the Wells Fargo Express company, denies in detail that any advantage was taken by his company of the situation in San Francisco. It is stated, on the contrary, that Wells Fargo & Co. rushed government supplies to stricken sections at much reduced rates and had carried all donations by the fastest possible passenger service free of cost. As far as the government is concerned, states Mr. Parsons, all shipments of supplies were sent at cut rates, which in all cases were more than 50 per cent less than the regular rate.

Landmark of New York Doomed to Disappear—Will Be Used for Subway Station. (Journal Special Service.) New York, May 11.—The Grand Union hotel, which has sheltered thousands of tourists visiting New York in past years, is the most recent of New York's landmarks doomed to disappear. Simon C. Ford, whose reputation as a humorist is probably as great as his fame as a boniface, is proprietor of the Grand Union. The hotel property has been purchased by August Belmont from Samuel T. Shaw and Simon Ford, owners, for a price reported to be \$2,500,000. The site of the hotel will be used as a station for the subway road which will be operated by the Belmont interests under the East river to Long Island. The Grand Union hotel occupies a block fronting on the east side of Park avenue, between Forty-first and Forty-second streets. An annex was built about two years ago at the rear of the building. What better evidence to prove that GAS for Cooking and Heating purposes is fast displacing all other fuels? When considering GAS for fuel, and the purchase of gas appliances, note that whatever make goods you buy, they are the very best in point of construction and workmanship. That your range and water heater has adjustable valves is most essential, also that the GAS OVENS have the proper asbestos lining. These points should be carefully considered, much more so than how cheap a range or water heater can be purchased. The life of a first-class range or water heater, with proper handling, is unlimited.
