

USE MOTOR CARS FOR DEFENSE

Conan Doyle Calls Upon Automobileists to Organize and Prepare for War.

WOULD BE OF USE IN CASE OF INVASION

Could Render Important Service to Army by Rushing Riflemen to the Front, Blowing Up Bridges and Performing Other Services.

(Special Special Service.) London, May 17.—Excepting Rudyard Kipling perhaps there isn't an author in this country who takes a greater interest in military matters than Sir Arthur Conan Doyle, and probably not even Mr. Kipling spends as much time in considering how Great Britain can best be defended in case of another war as does the burly doctor, who would a little rather not be reminded nowadays that he created the redoubtable Sherlock Holmes.

To Increase Army. No one, for instance, has taken a more prominent part than Sir Arthur in the movement that is now on foot to increase the number of effective fighting men by encouraging rifle shooting in all parts of the United Kingdom. Besides making many speeches and writing frequent articles on the subject, the author of "The White Company" and "Brigadier Gerard" recently set a practical example by having a picturesque estate built on his picturesque estate at Hindhead and inviting the young men of the neighborhood to use it, and the result is that regular rifle clubs now exist in the locality of which the novelist is said to be one of the best marksmen and one of the "hottest members" generally.

New Sir Arthur has been struck with the idea that the motorists of this country would be able to render an important service in case Great Britain were invaded by a foreign enemy. Like Sir Kipling, the author of "Brigadier Gerard" is an ecstatic devotee of the motor-car—having been fined once or twice for exceeding the speed limit—and he has just written a letter to the London Times in which he explains how he believes that the automobilists of Great Britain could be utilized in case a foreign army had landed on the coast.

"Supposing," says Dr. Doyle, "that such an event had happened. Everything would depend upon swift action so as to prevent any cavalry that force might possess from pushing on in small parties, cutting wires, blowing up bridges and generally disorganizing the defense." So Sir Arthur goes on to suggest that a thousand English motorists should pledge themselves on the first news of such an invasion to instantly fill up their cars with picked riflemen, drawn from their own immediate neighborhood, and to convey them with a week's food, their rifles and their ammunition to the danger point.

Nature's Way Is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce's is following after Nature's plan of restoring health.

He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry Bark, Queen's root, Golden Seal root, Bloodroot and other roots, specially exert their influence in cases of lung, bronchial and throat troubles, and this "Discovery" is therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers of all the several schools of practice, for the cure not only of the diseases named above but also for indigestion, torpor of liver, or biliousness, obstinate constipation, kidney and bladder troubles and catarrh, no matter where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession, as requested by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book free that is worthy of your attention if needing a good, safe, reliable remedy of known composition for the cure of almost any old chronic, or lingering malady.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid 1000-page volume, with engravings and colored plates, a copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing only, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound, \$1 stamp.

Dr. N. J. FULTON NATUROPATH

Successful in the word that best describes her career since coming to Portland. Successful in curing disease, successful in building up what is today the largest office practice of any doctor in the city.

She Cures the Sick

This is why her offices are at all times full, and that people sometimes wait for hours to see her. If you have any ailment, chronic or acute, such as rheumatism, la grippe, bronchitis, catarrh, stomach and bowel troubles, nerve troubles, etc., etc., you would do well to consult her. She can cure you.

TESTIMONIALS OF PEOPLE SHE HAS CURED.

"Portland, Oct. 17, 1906. "I suffered a long time with serious stomach trouble, the disease having progressed so far that I was unable to retain my food, and finally found water to cause nausea; in short, my entire system was in a seriously depleted condition. On or about July 15 last I visited Dr. Nancy J. Fulton, of this city, and was induced to take treatment from her. This morning I am feeling better. I can now eat anything I desire, feel perfectly well and am constantly gaining strength. This morning change I can truthfully say is due to Dr. Fulton." CLYDE VAUGHN, Dr.

"Note—Mr. Vaughn can be communicated with at Jefferson, Or. or his father, Eli Vaughn, can be seen at the New Grand Central, corner Third and Flinders, this city.

"To Whom It May Concern: October 20, 1906. "It affords me great pleasure to write a word in praise of Dr. Fulton. I suffered and finally found relief for one week with pain in my entire body. My husband called in whom we supposed was one of the best physicians in the city. He was not sure, but thought I had neuritis, or it might be rheumatism. He left medicine and thought I would be better next day; but I gradually grew worse; not so much from pain except under operation. Having heard of Dr. Fulton through friends of ours, we decided to call her in; so my husband went off and brought back a bottle of medicine. Her examination she pronounced it a case of acute neuritis, and after the treatment she was able to get up, dress myself and about my usual household duties. I have now taken a week's treatment and certainly feel her the most wonderful doctor I ever met."

EIGHT MILES NEW ROAD IN LEWIS AND YAKIMA (Special Dispatch to The Journal.) Chehalis, Wash., May 12.—The county commissioners have received official notice from the state road commissioner, J. M. Snow, to at once advertise for bids for the clearing, grubbing and grading of 27,409 lineal feet of the Lewis and Yakima county state road. The distance covered is a little over eight miles. Other bids will be called for later. The board proposes to push the work as fast as is possible. At its meeting this week the board also let a bridge contract for a new 140-foot span across the Cowlitz river north of Mossy-rock, 32 miles southeast of this city.

The Tacoma Bridge company got the contract for \$1,938.50. From London 711 Bits. The oldest university in the world is at Padua. It is called the "School for the Sons of the Empire." Its antiquity is very great and a grand register, consisting of stone columns, 620 in number, contains the names of 60,000 graduates. A POSITIVE WHOOPSTY. Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself. D. R.
