

# GRAND RALLY IN SUMPTER TURNS OUT TO BE FROST

### Only Twenty-Nine People Gather to Hear Advocates of Withycombe Candidacy and Most of Them Were Democrats

Certain partisan newspapers have had much to say recently of "grand rallies" in various parts of the state in behalf of James Withycombe and Jonathan Bourne, but no word of cheer has come from Sumpter, which had its "grand rally" last Saturday. In order that there may be a hiatus in the record The Journal prints the following account of what happened, as given by one who was present.

"Talk about a frost! Talk about the coldness of an Arctic winter! Talk about the rigors of placer mining in Alaska! All three combined have not the frigidity of the greeting extended to ex-Governor T. T. Geer and H. M. Calk, ex-candidates for the United States senate, at 1 o'clock, Saturday afternoon, May 19, 1906, in the populous city of Sumpter, county of Baker, at which place these well-known orators and advocates of the election of James Withycombe and Jonathan Bourne were billed as the principal speakers of a grand Republican rally.

"At 1 o'clock p. m. not a person was in the hall. At 1:15 o'clock a single auditor was present. At 1:20 p. m. three well-known Democrats went up to the hall to 'help out.' At 1:30 p. m. a Chamberlain Republican, accompanied by his wife, came in. At 1:35 p. m. there were in the hall, by actual count, including the chairman of the meeting, the orators and the foremost wife of the aforesaid Chamberlain Republican, just 29 persons, and this number included the small boy who had been employed to walk up and down the streets of Sumpter with a large-sized cowbell announcing a grand Republican rally at the Ellis opera house at 1 o'clock. The small boy was there, not for the purpose of listening to the speakers, but for the purpose of collecting two-bits as the agreed compensation of his loyalty to the Republican party and the cowbell. The chairman of the meeting who was importuned for said two-

bits was unable to get the three enthusiastic Withycombe supporters present to 'chip in' and gave the boy his 'I. O. U.' redeemable in 30 days for the amount of the libelity contracted.

"At 1:40 p. m., the Honorable T. T. Geer, who was occupying a chair in the audience surrounded by half a dozen Democrats and Chamberlain Republicans, moved that the meeting adjourn. This motion was duly seconded by Charlie Chance, one of the Democrats present, who had for half an hour been keeping up a continuous fire of good natured raillery with the Republican orators. Chairman Freddy Fontaine declared that the motion was then open for discussion. There being no one present who desired to speak on the matter, it was put and carried unanimously.

"The frost of this afternoon was in marked contrast with the enthusiasm of the meeting a week ago, when Governor Chamberlain was present. At that meeting all of the business hours closed during the time occupied by the governor in his address, and standing room only could be secured in the large and capacious-Ellis opera house hall.

"Ex-Governor Geer wished to adjourn on account of his being in 'poor voice' and ex-Senatorial Candidate Calk says he did not intend to speak anyway. It came along simply to keep the ex-governor from being lonesome."

released for the reason that none would sign a complaint against the other and all refused to give the details of the affair.

Mrs. Milner returned to the apartments of Mrs. Buxton in fear of further trouble. Later in the night Professor Milner returned and requested his wife to accompany him to their apartments. She refused to speak to him, but wrote him a note reminding him of his promise to leave home and not return. In reply he sent the following:

"Dear Sleep With Larry Sullivan. You may have possession when you want. I would rather sleep under the same roof with Larry Sullivan and Billy Smith."

"I wish I had been lying on the floor when I had the knife and stabbed him," said the 17-year-old step-daughter of Professor Milner. "I would have fixed him for striking mamma and doing like that."

"Professor Milner was very drunk Saturday afternoon," said Mrs. C. J. Buxton, "and appeared to me to be bordering on delirium tremens. He quarreled with his wife and after ordering her to get his dinner, overturned a cup of tea on the table. That made him so mad that he smashed things generally. I knew this was a bad sign, but I did not hear him and his family quarreling before. I have been told that several years ago while he was teaching in the state of Washington he severely beat his wife and was ordered out of the town by indignant citizens on pain of severe chastisement."

"Was Involved Financially. He drank so heavily that he became involved financially and had no money left. His wife agreed to give him \$25 if he would leave the city at once."

Professor Milner was in Portland this morning, but declared his intention of leaving today for Texas. He declared that there would be no further trouble.

Professor Milner's resignation as principal of the Woodlawn school was accepted at once. Steps are being taken to fill the position temporarily until his permanent successor may be selected. Professor T. J. Newbill, who has been in charge of the schools at Independence, was in the city yesterday and agreed to take charge of the Woodlawn school. He will return to Portland tonight and will begin his new duties tomorrow morning. It is said that he will likely be chosen as the permanent successor to Professor Milner.

"Mr. Milner has given me his resignation to take effect immediately," said Frank Rigler, city superintendent of schools, today. "I have taken steps toward securing his successor, and will be able to make a temporary appointment to fill the place within a few days. Then I will report to the board of education, and if the temporary appointee gets along well the appointment will probably be made permanent. This is an emergency case and I will remain in charge of the school for a day or two."

## SHAKEUP IN MILLS AT OREGON CITY

(Special Dispatch to The Journal.) Oregon City, May 21.—There has been a general shakedown in the affairs of the Crown-Columbia Pulp & Paper company which has resulted in displacement of Resident Manager W. P. Hawley, who has been connected with the company for 12 years. The man directly responsible for the change is Mr. Hawley himself.

Twelve years ago the Crown Paper company's mills in West Oregon City were in a bad condition. The owners wrote not making money and in looking about for a competent man to pull them out of the hole, hit upon Mr. Hawley, who was permitted to acquire stock in the concern and was given the position of resident manager, with practically unlimited power so far as operation was concerned. Between Mr. Hawley and Martin Rosenbaum, assistant secretary of the company, there was friction and four years ago Mr. Rosenbaum went into the wholesale grocery business in Seattle. This was not to his taste, however, and when the Crown Paper company absorbed the Camas-paper-mill under the name of the Crown-Columbia Pulp & Paper company, Mr. Rosenbaum was placed in the office in Portland, but Mr. Hawley remained in control. Mr. Hawley has unusual business sagacity and by his efforts the company has developed until Mr. Hawley's stock has made him a rich man, and has also enhanced the fortunes of the owners, chief of whom are S. J. Rosenbaum, president and L. Schwabacher, secretary and general manager, both of San Francisco.

About two weeks ago E. J. Daulton, superintendent of the plant on the west side of the river, who has been here for the past seven years, and who is one of the foremost paper makers of the coast, was removed by Mr. Hawley, whose brother-in-law, George Pusey, was given the position.

This action was communicated to the officers of the company at San Francisco, and Mr. Hawley was called there by wire for a meeting of the board of directors. His action was not approved, and a general discussion of the matter showed that Mr. Hawley, by reason of his diversified interests in other concerns, did not have time to manage the affairs of the northern plants, and his connection with the company was severed, though he still retains his stock and remains a director of the company. Mr. Schwabacher and Rosenbaum came from San Francisco Saturday and were joined by Martin Rosenbaum from Portland. The result of their inspection was the reinstatement of Mr. Daulton as superintendent, with increased authority.

Mr. Hawley's duties will be undertaken by Martin Rosenbaum, but the mill here will be under the sole direction of Mr. Daulton, and the same condition will prevail at Camas, Washington, with Mr. Sheehan as superintendent. Mr. Daulton has received flattering offers from eastern paper mills.

Mr. Hawley has acquired large holdings in a number of concerns and his time is almost entirely taken up in looking after his properties.

CONTRACTOR'S CARES PRODUCE DEMENTIA

Emery is well-to-do, but has met with family bereavements and has recently been involved in several hard-fought lawsuits. It is believed that brooding has caused mental aberration.
