

CONSULAR COURT HERMAN'S READY TO BE TRIED

House Committee on Foreign Affairs Authorizes Favorable Report on Bill.

EXCLUSIVE JURISDICTION OVER CRIMINAL CASES

Portland Firms and Business Men Back of Movement—Judge to Be Named for Fifteen-Year Term at Eight Thousand Annually.

(Washington Bureau of the Journal.) Washington, May 26.—A favorable report was made today by the house committee on foreign affairs on the bill providing for a consular court in China, in which many Portland business firms and individuals are interested. The bill provides for the creation of a United States district court for China and the appointment of a judge, district attorney, marshal and clerk.

The court is to have exclusive jurisdiction in all criminal cases involving more than \$100 fine or 60 days imprisonment, and in all civil cases involving an amount greater than \$500. The court is to be held annually at Shanghai, Hankow, Tien Tsin, Canton and other consular jurisdictions if deemed advisable.

BUY IRRIGATION WORKS.

Agreement Approved for Acquiring Rights Owned by the Moores. (Washington Bureau of the Journal.) Washington, May 26.—The secretary of the interior has approved an agreement with the Moores for the transfer to the United States of certain valuable irrigation works, water rights and riparian rights owned by the Moores along the west bank of the Link river in Oregon.

CORNELL WINS LAURELS IN INTERCOLLEGIATE EVENTS

In Harvard Stadium Crimson and Blue Are Bowled Over—Pennsylvania Second.

(Special Dispatch by Leased Wire to The Journal.) Cambridge, Mass., May 26.—One of the biggest surprises that has happened in intercollegiate athletics occurred at the Harvard stadium today when Cornell won the annual intercollegiate track championships by a big margin of Yale and Harvard, substantiating the claim to be counted among the big institutions when it came to supremacy in athletics. Before half a dozen of the events were completed, less than half the program, the result was solid for Cornell, as the remaining events were known to be too well split up to allow of any one college preventing the Cornell team from capturing first place in the tournament. Cornell collected 38 points, taking first in the mile run, 440-yard dash, 150-yard run, three mile race, the two mile run and first in the pole vault. Pennsylvania and Harvard and Yale had a close fight for the second place, but it fell to Pennsylvania owing to the fine showing of her sprinters in the last events on the card. The Crimson succeeded in repeating its dual game victory over Yale, but it was a close margin. Syracuse was a year fourth, getting its 11 points in the field events.

SALOON MAN CHARGED WITH MURDER AND ARSON

Charles Aronson of North Bend Arrested for Killing of P. H. Ross and Wife.

(Special Dispatch to The Journal.) Seattle, Wash., May 26.—Charles Aronson, a North Bend saloonkeeper, was arrested by Sheriff Smith yesterday afternoon on a charge of murder in the first degree for the killing of Philip H. Ross and his wife, at Keriaton, in August, 1905. Ross and his wife were killed in a building that served as a residence for the Ross family. After the murder the house was set afire and the bodies burned almost to a crisp. The motives for committing the alleged murder are believed to be that Aronson had cut him out of much business. The feeling between the two men was bitter. A large sum of money was taken from the Ross house and since the murder Aronson has had much money, where formerly he was almost penniless. A corkerow belonging to Ross was found in Aronson's house.

INSURANCE RECORDS DESTROYED BY FIRE

(Special Dispatch by Leased Wire to The Journal.) San Francisco, May 26.—In addition to the earthquake damage contained in their policies patrons of the Commercial union, Alliance and Palatine Assurance companies of London and the Commercial union of New York are confronted with another disaster. The records in the San Francisco offices of these companies are completely destroyed. Manager C. F. Mullins received a communication to that effect today from Professor Edmund O'Neill of the University of California, to whom had been assigned the task of opening the vaults in the Alliance building. Professor O'Neill was placed in charge of the vaults 10 days after the fire and opened them last Thursday. From his communication it appears that the earthquake so damaged the brick work of the vaults that the hot air rushed in and the safe was subjected to such tremendous heat that their contents were reduced to ashes.

HERMAN'S READY TO BE TRIED

Oregon Representative Has All Witnesses Present and Is Prepared for Case.

NO ACTION TAKEN IN SENATE UPON BRISTOL

Sub-Committee Will Probably Not Report at This Session and a Re-cess Appointment Will Be Made After Adjournment.

(Washington Bureau of the Journal.) Washington, D. C., May 26.—Representative Hermann said today that he had received no notice from the government concerning his coming trial on the charge of destroying the letter books of the general land office. The court ordered that the trial should not be delayed beyond June 10, and should be commenced between June 5 and that date.

Hermann has his witnesses here, and is ready to go to trial, he says, whenever notified. Senator Kittridge of South Dakota, chairman of the subcommittee of the judiciary committee, to whom the nomination of William C. Bristol as district attorney was referred over a month ago, stated today that he was not prepared to make a report on the case to the full committee. When asked if such a report would be made during this session of congress, Kittridge smiled and said he did not know.

It is believed that in such event, he was watching the case that no action will be taken by the subcommittee this session and no report will be made by the senate and judiciary committee. It is also believed that in such event, President Roosevelt will reappoint Bristol, who will hold during the recess of congress when he will be again re-nominated, and the case again submitted to congress.

CASSATT HASTENS RETURN HOME

Graft Exposures and Charges Made Against Him Force Magnate to Come Back.

(Special Dispatch by Leased Wire to The Journal.) Philadelphia, May 26.—The name of A. J. Cassatt, president of the Pennsylvania railroad, has been brought into the investigation of railroad grafts now being prosecuted by the interstate commerce commission.

OPERATOR RUINED BY PENNSYLVANIA ROAD

Deliberately Frozen Out Through Orders Given by President—Future Probing to Include the New York Central and Other Roads.

(Special Dispatch by Leased Wire to The Journal.) Philadelphia, May 26.—The name of A. J. Cassatt, president of the Pennsylvania railroad, has been brought into the investigation of railroad grafts now being prosecuted by the interstate commerce commission. Mr. Cassatt has cut his vacation short and is now on his way home from Europe. He will be here Saturday next and it is expected will demand to be heard on the stand.

CONTRACTORS VIOLATE THE EIGHT HOUR LAW

(Special Dispatch to The Journal.) Seattle, May 26.—J. S. Warner, inspector in the office of the city engineer, has been suspended from duty and fined \$100 for violating the eight hour law. He has been suspended from duty and fined \$100 for violating the eight hour law. He has been suspended from duty and fined \$100 for violating the eight hour law.

PANIC AMONG WOMEN IS CAUSED BY NAPTHA FIRE

(Special Dispatch by Leased Wire to The Journal.) New York, May 26.—An explosion of naphtha today in the Becker, Lovett & Loeb Chemical company started a fire of remarkable accidents and threw into a panic by its rapid spread 500 women and girls employed by different concerns in the five-story building in which the explosion occurred. The employees of the factory were so seriously burned and injured that they may die. Three firemen fell from a ladder and were painfully hurt and two women employees were taken to a hospital suffering serious injuries. A wall fell during the height of the fire where a number of firemen were working and they all are believed to have escaped.

CROCKER WILL ERECT IMMENSE SKYSCRAPER

(Special Dispatch by Leased Wire to The Journal.) San Francisco, May 26.—The Crocker estate will erect a magnificent office building on their property on Market street adjoining the Crocker building. The structure will have a frontage of 41 feet on Market street and 60 feet on Post. It will cost about \$20,000. The building will be 10 stories in height and work will be commenced just as soon as the fire insurance is settled and some leases closed satisfactorily. The building will be one of the largest in San Francisco and will cover an area of 7,800 square feet.

SWEDISH SINGING SOCIETY GIVES BENEFIT CONCERT

The Swedish Singing society Columbia's concert last evening in the Arion hall was generously patronized. The proceeds will be donated for the relief of the San Francisco sufferers. The program follows: Piano solo, Miss Tora Malm; address, Ingemar Westrom; song, Columbia Singing society; violin solo, Miss Margaret Fallentin; recitation dialogue, Edward Boyse and John Neilson; song, Columbia Singing society; soprano solo, Mrs. Fred Olson; tableaux, arranged by Edward Boyse; duet, C. B. Borquist and G. A. Apsigren; violin solo, Miss Margaret Fallentin; chor solo, John Nielson.

Only a Hundred and Fifty Turn Out at Grants Pass and There is Little Cordiality.

CENSURES CHAMBERLAIN FOR ECONOMIC POLICY

"Must Not Be Too Penurious in Conducting the Affairs of State" Says Republican Nominee—Veto of Bills Held Unwarrantable.

(Special Dispatch to The Journal.) Grants Pass, Ore., May 26.—The reception given to James Withycombe was not very cordial here this evening. Though local Republicans worked hard to drum up a crowd, not more than 150 attended, only a few women being present. On the rostrum with the speaker were a number of local Republican politicians and also W. S. Dunaway, who followed Withycombe with a short address. Whycombe talked at some length on the issues of the campaign, as he sees them, among other things denouncing the present office of state land agent as unnecessary and stated that Governor Chamberlain has made too free use of the veto power.

"We must not be penurious in conducting the affairs of state," said he, "and to veto bills on the excuse that it is to reduce expenses is unwarrantable." He made a plea for Republicans to stand together, saying: "There is no reason why Republicans should vote this election on the non-partisan plan. Now, that this state is going to stand by the old party."

The speaker brought applause by reference to Roosevelt, and said that all the talk about the president's democratic ideas is unfounded. "He is a Republican from head to foot," said he, "and it would be an insult to him to elect a Democratic governor to take steps to send a Democrat to congress from Oregon."

ARRESTED FOR EMBEZZLING AFTER FIVE YEARS

William Malcolm of Seattle Charged With Taking Large Sum in New Jersey.

(Special Dispatch to The Journal.) Seattle, Wash., May 26.—William Malcolm, who for about four years has been engaged in the furnishing goods business at 215 East Pike street, New Jersey, was arrested today by Detectives Philbrick and Barbes on a charge of embezzling \$150,000 while he was secretary of the Passaic Mutual Loan & Building association of Passaic, New Jersey. The alleged sum is said to have been committed about five years ago.

The grand jury at Passaic has returned five indictments against Malcolm. One of these charges is forgery and others are for embezzlement. Malcolm confessed this afternoon that he was partly guilty. He says he was for 20 years secretary of the building association after its establishment. He padded the books to make a good showing and paid dividends not earned to keep up the reputation of the company. He says he embezzled \$150,000 in five years. He gave up all his property to square the defalcations and stayed there for months after, but the papers stated that he was a defaulter and drove him to Seattle.

CONTRACTORS VIOLATE THE EIGHT HOUR LAW

(Special Dispatch to The Journal.) Seattle, May 26.—J. S. Warner, inspector in the office of the city engineer, has been suspended from duty and fined \$100 for violating the eight hour law. He has been suspended from duty and fined \$100 for violating the eight hour law. He has been suspended from duty and fined \$100 for violating the eight hour law.

MIZPAH RING PROVES FAST AND BINDING

Seattle, Wash., May 26.—Robert Tresch and Marie Blisig, both residents of Seattle, had come shyly into the jurisdiction of this miserable girl. Drugged from her cell in the morning, the girl was laid hold of by three alienists which the mercy of the law had provided and subjected to a series of repeated tortures.

COMBINED AIRSHIP AND MOTOR CAR

New Principle of Flight Involved in Flying Machine Invented in Cincinnati.

ATTAINS GREAT SPEED BY RUN ON THE GROUND

Machine Not Designed for High Flights But Can Make a Hundred Miles in Less Than an Hour at Height of Two Hundred Feet.

(Special Dispatch by Leased Wire to The Journal.) Springfield, O., May 26.—A new principle of flight is involved in the flying machine of B. F. Howe, a Cincinnati mechanic, just invented a successful test. It runs on the ground like an automobile or flies through the air like a bird. A patent on it has just been taken out. The flying apparatus consists of three canvas sails, one of which is of concave shape. Between these sails, or wings, as the inventor styles them, are 27 propellers. The wings are connected with a light carbide tubing, making a firm frame work. The sails are maneuvered by a lever inside the car, much the same as the tiller of a sailboat.

The most striking feature of the machine is that the car is in reality a mobile motor capable of attaining great speed. It is light, but effective electrical engine of 20 horsepower and has a lifting power sufficient to raise 900 pounds, or about six ordinary men. The mode of navigation is as follows: The sails are raised by a lever inside the car, much the same as the tiller of a sailboat.

After gaining sufficient speed on the ground the sails of the machine are tilted upward, and by the suction of the air rises swiftly. After leaving the ground the power of the engine is used to force the propellers under the wings, thus creating a driving power as great as that which buoy up the ship. The machine will not be capable of attaining any great height, but is intended to maintain an altitude of about 200 feet from the ground.

It is stated that the ship will be able to make a distance of 100 miles in less than an hour. Several prominent business men have become interested in the invention, and it is said a company will be formed in the near future to build two machines for the purpose of selling them. The machine has just been maneuvered over Cincinnati with great success.

GIRL MURDERESS TORTURED BY INSANITY EXPERTS

Josephine Terranova Compelled to Submit to Cruelties at Hands of Alienists.

(Special Dispatch by Leased Wire to The Journal.) New York, May 26.—If Josephine Terranova is not mad, there is a fair prospect that she will be before the irrefragable alienists are through with her. Today added fresh tortures to the burlesque of this miserable girl. Drugged from her cell in the morning, the girl was laid hold of by three alienists which the mercy of the law had provided and subjected to a series of repeated tortures.

They piled her with questions; they inserted sharp needles into her flesh; hot tubes were laid close to her face and body, her eyelids were forced back, her arms and limbs pinched in half a dozen places—while the alienists kept watch on the defendant to see her wince and wriggle under the torture. Judge Palmieri, counsel for the prisoner, denounced the outrage and later at the session of the commission, which is to pass on the sanity of the girl, lodged a formal protest against the proceedings.

CONTRACTORS VIOLATE THE EIGHT HOUR LAW

(Special Dispatch to The Journal.) Seattle, May 26.—J. S. Warner, inspector in the office of the city engineer, has been suspended from duty and fined \$100 for violating the eight hour law.
