Front Street, June 1.—The principal features of the Portland wholesale markets today are Sugar is alsorbed by jobbers.
Coarse sait \$1 ton higher.
Japanese flour trade increases.
Slightly firmer tone in eggs.
Believed poultry is at bottom.
Creamery butter is rather wesk.
Orders for beavy hop stocks from east.
New poistoes higher; olds weaker.
Strawberries scarce and prices rise.
Good demand ruling in meats.

NOW PROBABLE

Old Company Refuses to Meet

Rise of Hawaiians and Some-

thing Is Promised.

TEN CENTS ADVANCE

LOCAL JOBBERS ABSORB

Nominally Quoted.

Sugar Advance Absorbed by Jobbers.

The advance of lot per hundred pounds made yesterday by the California & Hawaiian Redning company has been absorbed by the jobbers and today pates have fallen back to the quotations that ruled before the advanced its quotations in line with the independent concern, but, no such advance has been made up to this morning. It is impossible for two prices to rule in the sugar market that is, as far as the jobbing trade is concerned, for retailers will buy nothing but the cheapest, and they cannot be blamed to any extent for this. This results in there being a call for the product of the refinery that has not changed its quotations. Jobbers who have purchased heavily of the Hawaiian company cannot afford, they say, to sell all the product of the other company and keep the higher-priced stocks on hand.

—Trade Won't Pay Advance.

retailers do not care whether the New York market is up or down, providing they are not charged for it. They buy augar where they cân get it the cheapest, providing of course, that quality is equal.

In this city Jobbers have been more than loyal to the new company, but generally speaking they are of the opinion that a serious blunder has been made by the Hawaiians in advancing their quotations first. One Jobber who represented the sentiment of the trade in general had this to say today concerning the sugar situation:

more in their lips at this time."

Ray Mean Serious Sugar War.

Ordinary trade ethics run that when a competitor makes a change in values all other concerns make the same prices, providing, of course, that trade conditions justify them. Since beginning business the California & Hawatian refinery has followed the upper and lower prices made by the Western refinery up to this time. When the Independent concern made its advance of 10c it naturally expected the older company to follow suit as soon as amouncement could be made. The refusal of the Western to follow the advance has complicated the sugar market very much. According to well-defined rumor it means that a war more bitter than any ever attempted in this market will be inaugurated between the Hawatian and Western refineries. The former tenerers is said to be avenually to force the n and Western refineries. The former ra is said to be preparing to force the Nothing can be obtained from its local entative.

representative.

Coarse Sait a Dollar Higher.

As has been predicted by The Journal during the past week or so, the coarse sait market today advanced another \$1 a ton and quotations in less than carlots are today marked up that amount. It is said that the warring companies have at last come to some understanding as to the maintenance of prices. Other grades are unchanged from yesterday.

grades are unchanged from yesterday.

Japanese Flour Trade Increases.

Local millers report a considerable increase in the inquiries for flour from Japan, with a number of new orders received and accepted. There is nothing doing with Hongkong, the boycott being fully as effective as ever. Local trade in flour is very good. Prices are firm but unchanged. Today begins the fiscal year for four and millers are straightening up the effairs of 1908-8.

Wheat is firmer with prices unchanged from yesterday. It is reported that some slight premium is being paid for stocks by smaller millers who are completely out.

Millfeeds are rather dull, prices being nominally unchanged.

Better Prices in Strawberries.

Better Prices in Strawberries.

Arrivals of strawberries in the Front street markets today were very small and prices have advanced about 25c per crate in all lines. Better arrivals are expected tomorrow.

String beans are in an over-supply and prices today are 2c per peund advanced, at 8 c.

Some finer cherries are shown from California points today. Prices higher on this account. Lossi fruit coming slightly more freely but quality is not good as yet and there is little demand.

quality is not good as yet and there is little demand.

Markets are full of hothouse cucumbers from local points and prices are being cut.

New potatoes are up about ue per poud today with short snuplies and a better demand. Olds are in very poor demand with prices nominal.

Many Orders Come for Hops.

There are orders in this market today for about 500 bales of hops from the east. One dealer alone had an inquiry for 100 bales at present quotations, but says he cannot do busingss under a 15c market. Supplies, he says, are too scant to talk of low values. The shorts will have fo pay what holders ask.

The trade pays the following prices to Pront street. Prices paid producers are less regular commissions:

commissions:

Grain, Flour and Feed,
WHEAT—Club. 726775c; red Russian, Toc;

JOURNAL'S DAILY

While no changes are shown in poultry prices today the market can be said to be firmer and there is a disposition among the commission men to ask higher values—which they are not yet receiving. One large retailer has been taking most of the arrivals in anticipation of an upward movement of quotations. Springs are slowest to move if small.
