

ST. JOHNS PEOPLE MAKE REPLY

Do Not Agree With Mayor and City Council on Liquor Question.

SAY SALOONS HAD BAD EFFECT

More Police Officers Needed Since License Was Granted, They Say, and More Intoxicated Men Seen on the Streets of the City.

The Journal has received a communication in regard to the liquor situation in St. Johns, signed by 17 citizens of that place. It was written in reply to a communication recently printed by the Journal and signed by the mayor, city council and other officials. After declaring that the law provides for grouping precincts 66 and 67 and denying certain statements made by those in favor of licensing saloons, the communication continues as follows:

"The statement that St. Johns was a dumping ground for the drunks that came here loaded with liquor procured at other places is untrue, for before saloons were licensed in St. Johns it was the rarest thing to see a man who was even partially under the influence of liquor, while today it is an every-day occurrence to see men not only partially, but wholly under its influence. Before saloons were licensed we had one police officer, now we have three, and the present chief of police feels the need of two more in order that he may cope with the worthless class of rascals that are crowding into St. Johns. The records of the recorder of the city will show that there has been an increase in its business (drunkenness alone) of upwards of 75 per cent since the saloons have been licensed. Sixty per cent of these cases are without means to pay the fines imposed."

ROYAL HAWAIIAN BAND WILL GIVE CONCERTS IN PORTLAND

Madame Alapal.

The famous Royal Hawaiian band from Honolulu, which made so profound a success last year at the exposition, is to come to Portland next Thursday for a series of concerts at the Hellig theater.

Arthur A. Lotto, business manager of the band, arrived in Portland this morning from San Francisco and reported that the band was giving open-air concerts in the Greek theater, University of California, in aid of the relief fund for the sufferers from the recent disaster in San Francisco.

In speaking of the Royal Hawaiian band, Manager Lotto said: "The band has been increased to 60 members, and the enterprise is under the management of representatives of the Hawaiian government. This is the first time that the band has been allowed to leave Hawaii for any length of time and the tour will embrace the entire United States and Europe. The fact that Portland gave so generous a welcome to the band last year at the exposition, carried weight with the territorial government and we have secured permission for the present tour to be made. The Hawaiians are looking forward with extreme pleasure to their visit to Portland, as they remember the many kind acts of the people in this city. When I left the band on Thursday all the boys gathered around me and said, 'Give our aloha to the people in Portland.'"

THOSE WHO PROMISE TO STAND BY STATEMENT NO. 1

Of the 30 Republicans and Democrats who are asking the voters of Multnomah county to support their candidacy for the legislature 23 have taken statement No. 1. The men who are pledged to support the people's choice for United States senator, irrespective of party are as follows:

THINGS THAT OCCUPY PUBLIC EYE OF PORTLAND'S EAST SIDE

City Engineer Goodrich of St. Johns in surveying Richmond street in that city discovered that several new buildings were partly in that street. Because of an error made in a former survey of this street, the city docks of St. Johns occupy a few feet of private property. This mistake may be adjusted without the necessity of tearing out the docks, but the buildings that lap over into Richmond street will have to be moved, according to the report of the city engineer.

The Modern Machine works is the latest factory addition to St. Johns. This plant is located on the river front near Job's mill. A. D. Gregory, J. W. Marriot and L. G. M. Cruikshank are the owners, each of whom is a practical mechanical engineer. The work of installing the machinery is under way. The plant will be in operation in about two weeks.

East Washington street between East Sixth and East Eighth streets has been temporarily closed to traffic. It was discovered that some of the beams supporting the elevated roadway had been pushed out of line by earth being dumped through the surface. The necessary repairs are under way and will be completed in a short time.

Six thousand dollars was paid by L. R. Smith to Samuel Lowenstein for 160 acres of land on Mount Scott. This is a part of the tract offered to the city of Portland several years ago for park purposes, but the deal failed to go through, being defeated in the council by one vote.

The Inman-Poulsen Lumber company broke all records in its output of lumber during the month of May. The plant sawed 13,500,000 feet. The owners of this mill believe that they have set

the mark so high that it will not be reached by any mill in the world for a long time. Every log sawed during the month was Oregon pine. The demand in San Francisco was so great that practically none of this lumber remains in the company's yard. It was shipped on steamers, sailing vessels and railroads as fast as it was turned out by the saws. As an evidence of the activity of the lumber market, this company shipped \$90,000 feet in the month of May more than their plant sawed. In order to accommodate the heavy orders received by this company from its San Francisco agents it was found necessary to run the mill night and day, both shifts working overtime.

The "City Beautiful" brigade left several piles of trash, the result of the cleanup, along East Clinton street. The residents along that street have made several efforts to have this garbage removed by the street-cleaning department, but so far without success. The Congregational church at St. Johns will be dedicated tomorrow at 11 o'clock service. Rev. E. L. House of Portland will preach the dedication sermon. The church is the building that was used by the National Cash Register company at the Lewis and Clark fair, and was donated by that company to the Congregational society of St. Johns. The Church Extension society of New York contributed \$1,200 toward remodeling and remodeling the building. The two stained glass windows, "The Bible" and "The Cross and Crown" were presented by Portland friends. Rev. Fred J. Warren is the pastor.

The mayor and aldermen of St. Johns are out in a letter protesting against the union of St. Johns and precinct 66, city of Portland, in a local option district. These gentlemen claim that they have been treated unfairly by the prohibitionists in linking them up with a

The "New" is a Picture of the Merrick, the "Old" that of the Moss-back Refrigerator—Home and Delight of the Microbe.

The "new" style refrigeration, sold by us, is positively the best that has ever been made—not as good as any other, but HERRICK—because it has not a single fault possessed by any other—contains all the specially excellent features of all of them and many essential improvements entirely its own. It is always so dry inside that matches can be left on any of the shelves and not be injured. It requires less ice than any other refrigerator, and by means of its perfected system made up of open center draft pans, air ducts, and other scientific construction, it gains a point which is indeed one of the most important features of the refrigerator. We refer to the circulation without circulation the refrigerator would be no better than the common icebox. It is the perfection of this circulation that has made the boundless reputation of

ORINO Laxative Fruit Syrup

Pleasant to take and does not gripe or nauseate Cures Chronic Constipation, Stomach and Liver Trouble

Stimulation Without Irritation. ORINO Laxative Fruit Syrup is a new laxative syrup combined with the delicious flavor of fruits, and is very pleasant to take. It will not gripe or sicken. It is much more pleasant and effective than Pills, Tablets and Saline Waters, as it does not derange the Stomach, or irritate the Kidneys, Liver or Bowels.

Constipation. ORINO Laxative Fruit Syrup will positively cure chronic constipation as it restores the natural action of the intestinal tract. Ordinary cathartics may give temporary relief but the stomach is upset and the bowels are irritated without any permanent benefit having been derived.

The condition of the patient remains unchanged. The Stomach, Liver and Bowels have not been stimulated and in a few days a stronger purgative may have to be taken. This is why Pills and Aperient Waters never give permanent relief. Their violent action results in an unnatural movement of the bowels and it is necessary to keep taking them indefinitely.

Why ORINO is different. ORINO Laxative Fruit Syrup is the only preparation that really acts upon all of the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs,

can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.

For Billiousness and Sick Headache.

Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.

Clears the Complexion.

ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.

OUR GUARANTEE Take ORINO Laxative Fruit Syrup and if you are not satisfied your money will be refunded.

YOUNGEST FORGER IN STATE ELEVEN YEARS OLD

P. T. Sandy, whose residence on Humboldt street and Patton avenue, was reported to Dr. C. H. Wheeler, city health officer, as being in an unsanitary condition, denies that his seven children sleep in an attic, or that the distance between the floor and roof of their sleeping apartment is but 18 inches. Mr. Sandy says that his children sleep on a kind of balcony, which is at least four feet below the roof. He refutes the statement that his children have to crawl through a hole in the ceiling to get to their beds, by stating that his house is not celled.

Youthful Criminal Appears Before Judge Frazer in the Juvenile Court.

The youngest forger in Oregon was brought before Judge Frazer in the juvenile court yesterday evening. A boy 11 years of age was charged with forging his father's name to two checks, one for \$11 and one for \$5. The checks were passed by the boy on R. L. Voelker, 793 Mississippi avenue, and the money spent for a bicycle, a suit of clothes, a pair of shoes and candy for the neighbor boys.

The complaint was made by the boy's father, who recovered \$5 of the money from the boy and made good the balance. The little fellow admitted forging the checks, and said he did it because some older boys told him he could get money that way.

The boy's mother and father are divorced, and he keeps bachelor hall with his father. While the father works all day the boy goes to school, prepares his own luncheon and usually gets supper ready.

The father was in the court room and asked the judge not to punish the boy as he had promised not to repeat the offense. Judge Frazer replied that he was not so much concerned over what the boy had done as over the influence surrounding him at home, and told the father it would be necessary to find a place for his son to board in some good home. This was promised and the boy sent home with his father.

The Political Climax.

The present political campaign closes tonight in Oregon. Oratorical pyrotechnics will mark with a blaze of glory the strenuous contest. As champions of the Democratic host, Mayor Harry Lane, George L. Hutchin, candidate for the legislature, and C. E. S. Wood will speak upon the plaza near the Multnomah county courthouse. Mayor Lane's forensic abilities are well known. Mr. Hutchin is an eloquent and impassioned orator. Mr. Wood has a matchless style that needs no encomium here. This trine will undoubtedly attract a tremendous throng of eager listeners.

Building Permits. Eliza E. Hartness has received a permit to erect a two-story residence on Multnomah street at the corner of Grand avenue. Its cost is given as \$3,500.
