

Reception Room, The J. C. Lee Company.

Running Day and Night

TURNING OUT GOLD FOR DIVIDENDS

We Own Two Mines That Are Producing Gold Every Hour of the Day and Night

Cashier and Bookkeeper, The J. C. Lee Company.

The Sterling Gold Mine

Is situated in the Hungry Creek Mining District, Siskiyou County, California, and is equipped with a ten-stamp mill, tramway and sawmill and all essentials necessary for the operation of the mine. We have decided to put a new mill on this property at once, thereby increasing the present capacity to at least 50 tons of ore every 24 hours. This means an increase of the production to at least \$300 per day above all expenses.

The Crooked Creek Placer Mine

Is located in the Dixie Mining District, Idaho County, Central Idaho. This consists of 153 acres of patented placer ground containing TWO AND ONE HALF MILLION cubic yards of gravel that produces an average of FORTY-FIVE CENTS TO THE CUBIC YARD and is being handled at a cost of only 8 cents. This property is equipped with hydraulic elevator, sawmill and giant and has a capacity of about 400 cubic yards per day and is running day and night. Arrangements are now being made to increase this to at least 2,000 cubic yards per day. This means that the production of gold will be increased to at least \$500 per day above all expenses. We also own the town of Dixie, which is no small item.

Other Mining Properties

Besides these TWO CONSTANT PRODUCERS we have several excellent prospects in different stages of development, some of which will soon be among our REGULAR PRODUCERS. We also own interests in other valuable mining properties, which we have not space to describe here.

In addition to our mining interests, we have built up an ENORMOUSLY PROFITABLE BROKERAGE BUSINESS. Having offices established throughout the east, we have EXCEPTIONAL FACILITIES for carrying on a general brokerage and REAL ESTATE business.

We Have Never Paid Less Than 27 Per Cent

To our stockholders. Isn't that UNUSUALLY GOOD RETURNS on their investment? We think so and we believe that you do, too.

This Is How We Get Results

Each department is under the supervision of an expert who has had years of EXPERIENCE and SUCCESS in his particular line. Our employes are financially interested in our enterprise and are always looking out for the best interests of the company.

We Never Make a Statement That We Can't Prove

We ask our prospective clients to INVESTIGATE FIRST and DEAL with us afterward. Our books are open for your inspection at any time during business hours. You do not have to depend upon ANYBODY'S word. WE SHOW THE GOODS.

Any enterprise founded on the principles outlined above is absolutely certain of success and the secret of OUR success lies in the fact that we have always strictly adhered to these same principles.

Now don't you think a block of stock in a company of this kind would be an excellent investment? We KNOW it is, and so do others who have had the opportunity of investing in it.

If you owned some of this stock and were drawing satisfactory dividends every month, no doubt that you would tell your friends about what a good investment you have and about the business we are in. That is the kind of advertising we like, because it means an increased clientage and therefore increased earnings for the company.

One Hundred and Fifty People

All drawing dividends from the same source would mean an enormous amount of "word o' mouth" advertising for the enterprise that paid them.

Now That's What We Are After

We want YOU as a PARTNER in this splendid enterprise, so that you will help to increase the business.

Grasp This Opportunity

We are going to give you an opportunity to get a few shares of this EXCELLENT DIVIDEND PAYING stock. We have set aside 150 shares to be sold for the purpose of INCREASING the OUTPUT of our STERLING and CROOKED CREEK MINES, as well as a means of ADVERTISING our business. We are going to SELL THIS STOCK TO YOU AT PAR VALUE. THINK OF IT. AN OPPORTUNITY TO BUY STOCK AT PAR THAT HAS NEVER PAID LESS THAN TWENTY-SEVEN PER CENT.

One Hundred Dollars

Buy a share of this stock. NOT OVER FIVE SHARES will be sold to any one person. This stock will POSITIVELY NOT BE SOLD for less than ONE HUNDRED and TEN DOLLARS PER SHARE after JULY 1, 1906. We are going to sell this stock to you under the following

Absolute Guarantee

THE J. C. LEE COMPANY will enter into a written agreement with every purchaser of this stock that if a DIVIDEND OF AT LEAST ONE DOLLAR PER SHARE is not paid EACH and EVERY month, at least until such time as they have received in dividends an amount equal to the par value of their stock, THE J. C. LEE COMPANY will, on demand, pay to the holder of said stock ONE HUNDRED DOLLARS per share the first month that default is made in the payment of such dividend. Could anything be more fair than this?

A Bonus of 1000 Shares

Of LEE'S CREEK GOLD MINES stock will be given with each share of the first one hundred shares of THE J. C. LEE COMPANY stock sold.

THE LEE'S CREEK GOLD MINE is running day and night and the stock is selling now at ONE CENT a share and will pay dividends within one year.

A Business Proposition

We do not believe there is a man in the city of Portland that would turn down a bona fide investment that is guaranteed to pay TWELVE PER CENT, especially one that has NEVER PAID LESS THAN TWENTY-SEVEN per cent, if investigation would prove the investment to be as represented.

We stand ready to take you at our expense to Siskiyou County, California, to our STERLING GOLD MINE, where we will show you 100,000 tons of ore that, by actual mill test, is plating more than FIVE DOLLARS per ton; show you the mill in operation and producing a handsome profit every day; then prove to you that we own this property in fee simple.

On our return trip we will take you to the MYRTLE CREEK MINING DISTRICT, Douglas County, Oregon, and the famous BLUE RIVER DISTRICT in Lane County, where you can see that we are working double shift on our properties in these camps, as well as our famous BIG FOUR in the Santiam District, Linn County, with SIX FEET OF SOLID GALENA ORE; show you that we own the controlling interest in these properties; then return to Portland and visit the CROOKED CREEK PLACER MINE, situated in the famous DIXIE MINING DISTRICT, Idaho County, Idaho, where we will show you 153 acres of patented placer ground, averaging FORTY-FIVE CENTS TO THE CUBIC YARD, equipped with hydraulic elevator, giant, sawmill and all other essentials for operating a mine of this nature, and the thriving little mining town of Dixie, all owned by this company. We will then take you back to Portland, where you may examine our books and satisfy yourself that our brokerage business nets us handsome returns every month.

We are ready to stand the entire expense of any prospective buyer of our stock, who will take this trip in good faith, and take our chances on selling a block of our stock to him when he has completed his investigation.

You will certainly give us credit for not being so foolish as to make this kind of a proposition if we could not make good every statement.

We have taken more than 25 business and professional men from the Willamette Valley to see the several properties financed by us and without exception they have pronounced the properties better than represented, and have backed their judgment with their money. We do not come to you with gaily decorated prospectus of our mining properties and assets on paper. Instead, we sell our stock on its merits.

About Knockers

If you come into contact with one of this class, who say anything against this company or its property, we will forfeit ONE HUNDRED DOLLARS for each and every statement made by us herein that he can prove to be false in any sense whatsoever. Bring him to our office and see for yourself how quickly he will be ready to admit that he was wrong in his assertions. The chances are good that if one of this class were offered stock in Calumet and Hecla for one dollar per share he would turn it down without investigation, notwithstanding the fact that it is selling in the open market for over \$600 per share. DON'T LET ANYBODY KEEP YOU FROM INVESTIGATING. THAT PART DOES NOT COST YOU ANYTHING.

Every Possible Safeguard

Is thrown around the investor by the By-Laws of this company, which provide that none of the property owned now or in future can be disposed of without a two thirds vote in favor of same by the stockholders, at a meeting called for that purpose.

At a recent meeting of the Board of Directors, the President of the company was authorized and empowered to appoint a committee of three to audit the books of the company quarterly and have their report printed for distribution among the stockholders.

A Dividend of \$2.25 Per Share

Was declared for the month of May. These dividends were sent out to our stockholders, among whom are many bankers, lawyers, physicians, business men and, in fact, people in all walks of life.

We have never paid a smaller dividend than this. Do you know of any other stock paying such dividends that you can buy at par? We don't.

To any interested person we will furnish the names of a number of our stockholders to whom they can go for a corroboration of the above.

The holders of THE J. C. LEE COMPANY stock get the benefit of everything that is good in the mining business. We employ prospectors and when they find something that looks good we locate it. Then we develop it until we can show prospective investors something worth their while. Then we either promote it, sell or operate it ourselves. As a stockholder, you get the benefit of all this. Don't think this is a safe way of conducting a mining business? We do, because we have tried it.

Capitalization Low.—Dividends High

THE J. C. LEE COMPANY is incorporated under the laws of the State of Oregon and is capitalized for only \$200,000, divided into 2,000 shares of a par value of \$100 each. It does not require great earning capacity to pay good dividends on only 2,000 shares. That's why our dividends have NEVER BEEN LESS THAN TWO DOLLARS AND TWENTY-FIVE CENTS PER SHARE, MONTHLY. That's why we expect to DOUBLE our dividends within the next NINETY DAYS.

Our Guarantee Is Good

Because we have assets of over HALF A MILLION DOLLARS to back it up, and whenever you find that we have misrepresented anything, all you have to do is to ask for your money back and YOU WILL GET IT. That's fair, isn't it?

Your Only Opportunity

To buy this stock is NOW. DON'T wait until you see how something else turns out. Indecision has cost many a man a fortune. ACT AT ONCE. BUY NOW. You will never have a better opportunity to get a guaranteed dividend-paying stock at par.
