LOCAL NORWEGIANS CROWN KING IN TABLEUX

Reproduce Coronation Scene at Trondhjem Cathedral in Arion Hall.

Deprived of the opportunity of being among the spectators at the real crowning of King Haakon, the Norwegian-born residents of Portland, who night die the next best thing to commemorate the event by presenting three tableaux intended to show as nearly as possible how it was actually done.

The identity of the young couple who played the part of the king and queen in a secret which will probably never be revealed, but at any rate they took the parts well and attired in gorgeous costumes there was little left for the audience to imagine except to believe themselves in the cathedral in Trondhjem. The bishop, too, was there, and the royal personages so solemnly and impressively that it is doubtful if the favored real one did better.

SWARM OF BEES FLOTS TO FLIGHT VALLEY EAST SIDE POLICEMAN

At East Thirty-fourth and Washington streets, there was a peculiar fight Thursday—a fight between a policeman and a swarm of bees—which attracted a large per cent of the population of Sunnyside to witness it. As a result of the encounter the officer is badly disfigured, while there is no bee casualty to his credit, so far as can be learned.

The patrolman was quietly walking along his beat, and when he reached East Thirty-fourth and Washington streets he saw a swarm of bees lighting on the lawn of Mrs. Branch, who lives near by, and directed across the street on the property of some one else.

It was a plain case of trespass, so the officer sought to dislodge them. He took his knife out of his pocket and started to cut the limb on which they had bunched themselves. The knife was dull and the operation required a longer time than the officer anticipated. But the bees acted on the square with him—they buzzed loud and angry warnings for him to desist.

After he had ignored their warnings for a brief time a big bee, which seemed to be more antiquated and quarrelsome than the rest, landed on the officer's neck. It landed so hard that the officer dropped the limb and devoted his entire energies to separating the insect from his flesh. When the limb dropped, spilling the bees upon the ground, there was a surmised death.

They all joined the antiquated old fellow, who still clung to the officer's neck. The blue-coat fought well and bravely, but he was greatly handicapped. He could not see the struggle, retreating as gracefully as circumstances would permit, until the bevy of angry insects had punctured every vulnerable spot on his body.

His eyes were swollen today and he is wearing a larger collar, but he is reported for duty. Patrolman S. S. Young patrols the beat covering Thirty-fourth and Washington streets.

HAWTHORNE WILL BREAK RECORD

Will Be Longest Paved Street in the City When Work is Completed.

PAVING QUESTION IS AGITATING RESIDENTS Some Want Bituminous and Others Declare in Favor of Bituminous Macadam Pavement—Other Events of the Day Among East Side People.

East Side Department. If the 47 blocks of Hawthorne avenue between East Third and East Fortieth streets are paved, as is proposed, it will be the longest continuous paved street in the city.

The fight for this contract, between the Warren Construction company—the bituminous pavement people—and the Barber Asphalt company—the bituminous macadam proposition—has reached an acute stage at Astoria. R. W. Montague, representing the Warren Construction company, says that if the contract to pave Hawthorne avenue is awarded to the rival concern and an attempt is made to put down a pavement like that laid by his people an injunction will surely follow.

From the tentative bids submitted by the two paving concerns to the property holders, it is found that there is a difference in cost between the two materials of about 25 cents per front foot in favor of the Barber Asphalt company. W. L. Boise, who represents the Warren Construction company, favors the bituminous pavement for the reason that it has been weighed in the balance and found not wanting. He says that the cost of putting down a street paving, it is understood that W. M. Ladd, who controls the Barber Asphalt company, favors the bituminous pavement for the reason that it has been weighed in the balance and found not wanting.

Hawthorne avenue is 70 feet wide from grand avenue to Mount Tabor and is one of the finest residence streets in the city. There are scores of residences on this avenue that cost from \$5,000 to \$15,000 and many other, equally as costly, are under construction.

The Mount Tabor Push club held last night the largest and most enthusiastic meeting since its organization two years ago. Several new members were taken in. The membership now includes nearly every voter in the district.

Dr. Rafferty of the city water board assured the club that the water troubles would be settled soon in a way satisfactory to the Mount Tabor people. He said that Mount Tabor and Montavilla were entitled to Bull Run water and at city rates.

County Fruit Inspector Richard Delch is destroying diseased fruit trees in the Mount Tabor-Montavilla territory. One orchard of 120 trees that is covered with the San Jose scale has been cut down. Infected trees are scattered all over the district, threatening the healthy orchards. The inspector gave warning some time ago that these trees would be cut down unless they were sprayed.

An entertainment will be given at the Evening Star Grange hall this evening on the Base Line road. A brief program has been prepared after which will follow a social hour. Tickets made by the young women of the order.

GRACE CHURCH HOLDS FINE ROSE SOCIAL

A rose social was given last night by the Ladies Aid society of Grace Methodist church. Roses in abundance, of all varieties and stages of bud and bloom were exhibited in the parlors of the church.

The leading feature of the social was an address on the Portland flower by Frederick V. Holman. Mr. Holman reviewed the rose in history and pointed out the fact that it has always been in high repute among the most powerful nations of the earth. It does not live below the equator, but grows to perfection among the conquering nations.

The speaker urged his audience to plant roses, not only for the commercial value that would arise from the same, but also for the pleasure that grows to perfection among the conquering nations.
