P. Jaeger Declares They Shield Man Suspected of Having Robbed Jewelry Store.

PINKERTON WATCHMAN IS ALSO NEGLIGENT

Confesses That on Night of Robbery He Did Not Visit Store Between Eight o'Clock and Midnight-Sensational Developments Expected.

Revelations of a highly sensational character have come to light as the That Gains and Holds Advance of aftermath of the burglary of Jaeger Two and Quarter at Close-Some Bros.' jewelry store at 290 Morrison street last Sunday night in which the thieves secured plunder aggregating in value nearly \$3,000. An investigation by members of the firm has established the significant fact that Pinkerton Watchman Watson did not visit the establishment between the hours of \$ and

tablishment between the hours of 8 and 12 o'clock on the night of the crime notwithstanding his usual custom of inspecting the premises hourly.

A citizen who passed the store shortly after 8 o'clock Sunday night makes the declaration that he saw some one rummaging about the window at that time. The man's face was concealed by the sliding back of the window and he is therefore unable to furnish a deis therefore unable to furnish a de scription of the fellow.

Detectives Protect Convict. The most startling development as result of the crime is the statement of J. P. Jaeger to the effect that he has been reliably informed that "Chick" Houghton, the notorious criminal sus-pected of being implicated in the bur-glarly, is now and has been protected by members of the detective branch of Vall Street, New York, June of the War Street, New York stocks was irregular today with we was for a stock was reading generally lower, toward the close there was considerable ort covering, which caused a slight rally, he bank statement was fair and caused a rain amount of covering, but the professional he dominates the market is still bearishly insined and it is hardly likely that an advance lill be more than temporary.

The suspicion of Jaeger Bros. that the Pinkerton watchman employed to regularly visit their store every hour night, was brought about by the information secured from the pedestrian who saw the hands in the window. Watson was examined by Messrs. Jaeger and the superintendent of the Pinkerton agency and he confessed to having been derelict in his duty. According to his statement he entered the store after 8 o'clock to turn on the lights and did not again make his rounds until midnight, when he discovered the crime.

Watchman Makes Excuse.

In extenuation Watson declared that he had been coming into the store for three years, and inasmuch as nothing had happened in that time he did not believe that there would be any particular harm in leaving the establishment without protection for a few hours. Jaeger Brothers maintained that the responsibility for the crime rested on the Pinkertons through the contributory negligence of their employe, and demanded that the detective agency make an investigation independent of the police.

Jaeger Brothers have received a communication from the Jewelers' Security

they are members, to the effect that the organization will pay \$100 reward for the arrest and conviction of the guilty parties. The entire case gives promise of sensational developments.

PROHIBITION CLOSES **EUGENE ICE PLANT**

(Special Dispatch to The Journal.)
Eugene, Or., June 30.—One effect of
Judge Harris' local option decision is
the closing down of the ice factory in the closing down of the ice factory in this city, owned by H. Weinhart, the Portland brewer. The plant ceased operations within two hours after the judge rendered his decision, and Manager Pirone says it will remain closed. Eugene people will hereafter be compelled to ship their ice from other cities, paying a higher price for it. The reason for the closing down of the ice plant is that there will not be enough patronage to pay the operating expenses when the 12 saloons in Eugene, four in Springfield and six in Cottage Grove cease business. They all purchased their fee at the Eugene factory.

SAGEBRUSH LAND IS **INCREASING IN VALUE**

(Special Dispatch to The Journal.)

Baker City, Or., June 30.—Sagebrush land in Baker county has been brought out wonderfully in the past twe years. This land in many instances three years ago was worth only \$1.25 to \$3 an acre and is now bringing \$30 to \$76 an acre with water rights. Last year some 2,000 acres of this land was planted to crops and returned bounteous yields. This year some of this land has been summer fallowed and other thousands of acres put into crops. In another two years 10,000 acres of raw land will be growing grain and there are 20,000 acres of the same kind of land ready for homestead entry within 15 miles of Baker City. BY KANSAS DEMOCRATS

INTERESTING CAPITAL IN THE **NEW SHORT LINE**

Efforts Made in Chicago to Float New Railroad From Butte to San Francisco.

(Journal Special Service.)

Chicago, June 30.—Efforts are being made to interest Chicago capital in the new San Francisco, Idaho & Montana railroad which is being laid from Butte, Montana, through Boise, Idaho, to San Francisco, and which will shorten the route between Butte, Boise and the Snake river valley country to the Golden Gate by 630 miles. The line will open up a section of southeastern Oregon which is now remote from a railroad. Construction work is now going on and part of the line will be in operation before many months.

G. T. Propper of Boise, treasurer and director of the Pacific Development company, the concern which is constructing the new line, and some of the other officials are in the city now interviewing capitalists and attending to other details concerning the new line.

The San Francisco, Idaho & Montana railroad taps one of the richest sections in the northwest and by shortening the route from all parts of the north to San Francisco by several hundred miles will have an important effect upon the development of the northwest.
