

VOL. V. NO. 108:

Report of Controller Warrant for Arrest of of Currency Reflects Much Credit on Oregon Banking Houses

Percentage of Reserve in Local Pagin Also in Ohio to Assist Monetary Institutions High-Portland Ranks Among Foremost Cities of the Country in Financial Strength.

According to the reports issued by the comptroller of cuirrency based upon the statements received in response to the call made June 18, the showing made by the national banks of Oregon is in keeping with the vast increases state in the year just closed. The re-sources have increased \$2,376,365 and the capital stock \$425,000." The increase may been unprecedented resources have increased \$2,376,265 and the capital stock \$425,000." The increase may been unprecedented for the state. One of the most flatter-be showings made was the increase of individual deposits. At the close of business, May 29, 1965, these deposits of all of the national banks in the state mounted to \$10,977,958. According to the statement made by the comptroller ones june 18 of the present year were a title over \$12,500,000, an increase of \$1,520,012. The surplus and undivided profits

The surplus and undivided profits jumped from \$509,187 to \$1,287,995, an increase of \$774,508 for the year. The loans and discounts, which amounted to \$8,173,605 in 1905, are now nearly \$5,-000,000, which is a gain of more than \$50,000 Cant of Beservo.

High For Cent of Reserve. The per cent of reserve for the year ending June 18 was 34, which is an'ex-callent showing for the state, and espe-cially so for Portland, because of the fact that most of the banking buainess of the state is done in the Rose City. The law requires banks in the central reserve cities to maintain a cash re-ferrer of 15 per cent, and on August 22, 1905, the rate for the entire country war excouled by only .63 per cent of the proportion required. Banks footted in other reserve cities are authorized to the the was virtually bankrupt.

(Journal Special Service.) New York, July 7.—It is intimated that Harry Kendall Thaw's attorneys will be forced to abandon the defense of emotional insanity and an attempt to prove the defendant is now insane. It is admitted there is not one bit of legal evidence produced to substantiate the plea of justification by continued persecution of Thaw and his wife by White.

the plea of justification by continued persecution of Thaw and his wife by White. That Thaw is so far from same that his counsel will be justified in applying to the supreme court justice for a com-mission to determine the condition of his mind is the contention of those in charge of the case and in support of this contention the young millionaire was examined at length in his cell in the Tombs today by Allan Maclane Hamilton, the well known allenist. The examination occupied more than two hours during which Thaw submitted to all the tests employed by medical men for determining an insanity patient. "At the conclusion Dr. Hamilton de-clined to divuige his opinion, but a man in the confidence of his friends said enough had been discovered to give color to the hope that young Thaw can be freed from the legal consequences of killing Stanford White on the ground of imanity or possibly may escape trial altogether.

1. Whyte Evans, president of the United Rallways company, has resigned. At a meeting of the new board of directors held late yesterday afternoon at the office of A. C. Emmons, Chamber of Commerce building, Mr. Evans submitted his resignation in writing and it as a cospied. W. L. Benham was sected to succeed him. "Title to the Chamber of Commerce building has passed to C. E. Loss, president of the C. E. Loss company, of San Francisco and Portland. are authorized to that carry one half of their reserve with central reserve city banks. This shows that the state of Oregon

is far above the average throughout the country. None of her cities are included in the central reserve city list, and even without taking advintage of the pro-vision of the law which allows her to maintain but 13% per cent of the re-serve, the state shows a lead of over 8 per cent above the average of the country.

Bankers Are Elated.

Bankers in Portland are elated with Bankers in Portland are enated with the report, which was shown to them this morning, and sard that they were not surprised because they knew that the business of their individual banks had grown wonderfully and supposed that the same condition prevailed

Criticized and Member Composing It **Declared** Incompetent

(Journal Special Service., Washington, July 7.—General Fred-erick Funston has administered a severi-rebuke to members of the court-martial in the Armstrong case for undue len-iency shown the prisoner. The court has been trying Arthur Armstrong of the Twenty-sixth battery, field artif-iery, on charges of breaking out of prison at Alcatraz Island and forcing the cells of three other prisoners and liberating them. The prisoner pleaded guilty, and the court decided that he committed no crime in escaping, and sentenced Armstrong to three months
