The bright, appreciative boys and girls engaged in The Journal's educational contest are succeeding beyond even their own expectations. Business men and women, housekeepers and people of leisure respond readily to their solicitations for paid-in-advance subscriptions.

According to the last census of the United States, Oregon contained the salesman.

According to the last census of the United States, Oregon contained the smallest per cent of illiterate population of any state in the Union. It is quite natural that the Oregon citizen should respond readily and liberally when canvassed by young people to subscribe for a newspaper which gives them a chance to earn their own education. Being well informed, the citizen wants the newspaper for his own use; and, being in sympathy with every enterprise calculated to promote the desire for clearning among young people, men and women gladly take the paper, which affords the needy contestant the opportunity to earn a scholarship in an excellent Oregon school.

shrewdest expert.

here than elsewhere.

purchase.

This contest business, so far as the newspaper and preliminary work are concerned, is the business of selling newspapers by advance subscriptions. It is not always an easy thing to induce people to pay in advance for an article which they may have been in the habit of getting on credit or going in debt for; but if can be done, as the contestants who are climbing the score ladder demonstrate daily.

Pay in Advance.

Until a few years ago all daily news-

women gladly take the paper, which affords the needy contestant the opportunity to earn a scholarship in an excellent Oregon school.

Interesting Experiences.

The Journal's contestants are having interesting and varied experiences in their quest for subscription votes. For the most of them this is the first time that they have engaged in any business vanture. They are bumping into the hard corners of the sales customers, sometimes getting bruised, and entering offices where they have long waits and occasional rebuffs.

But all the young people who seriously began work in the educational contest are persevering, which indicates that the encouragements are more numerous than the discouragements, and that The Journal's contestants are made of the stuff that lasts.

The magazine Sense recently published a paragraph, which applies very well to the contest effort:

"Results come only to those who try for them, who grasp and utilize to the utmost the opportunities that are presented. The man whose watchword is

For Sick Women To Consider

riser.—That almost every operation our hospitals performed upon women comes necessary through neglect of h symptoms as backache, irregular d painful periods, displacements the female organs, pain in the side, rning sensation in the stomach, aring down pains, nervousness, dispess and sieepleasness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydis E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

The D.—The great volume of unso-licited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give ab-solute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham; at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery savised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance. Mrs. Pinkham's Standing Invitation

send fleets to this country during the exposition. There are evidences of a desire of the nations having large navies to make a brilliant display, and, therefore, they are anxious to find out how many vessels the other nations are going to send. It is stated that Admiral Togo will be in command of the Japanese fleet and that one or more of the noted Japanese vessels that figured in the Russian war will be seen in Hampton Roads next year. Emperor William desires to send a large fleet to the naval gathering, while the French republic likewise desires to send a number of her famous warships. Of course the United States will make a magnificent display, and during the period of the exposition every one of the American warships in the waters of the Atlantic will, at one time or another, be in Hampton Roads.

Mount Tabor Water company.

The Brooklyn Republican club has voted to eschew politics until the opening of the campaign for the city election next June. In the meantime, the club will inaugurate a vigorous campaign for local improvements. Brooklyn, like most of the city's suburbs, has been negligent in the matter of street and sideling. There are said to be a number of streets there, the grades of which have never been established.

Residents on these versels that have no established grades. The club will hold a meeting Thursday evening at Blanck's hall, on Powell street, when it will be decided what particular line of improvement work to advocate first.

FARMER'S FAMILY IS HARVESTING HIS CROP

one of the big wheatgrowers of this section, seems to have solved the labor problem this season. He and his three sons are engaged in cutting their 1,700 sons are engaged in cutting their 1,700 acres of wheat with a combined harvester, doing all the work themselves and using 26 head of horses in their combine. They cut about 35 acres per day and do not expect to be done until some time in September. Combined harvesters in this section are superseding the headers and the threshing machines.

PREPARE TO FIGHT FOR RHODE ISLAND

(Journal Special Service.)
Providence, R. I., Aug. 7.—The Demo-cratic state central committee is in con-ference here today to fix the dates for ference here today to fix the dates for the coming congressional and state conventions. It has not been the custom heretofore for the Democrats of Rhode Island to take the field so early, but this year the active managers of the party believe that additional advantages may be gained by holding early conventions. The party leaders attending the conference express the opinion that the anti-Republican combination is gaining strength daily.

Eenry Cline Dead.

(Special Dispatch to The Journal.)

Silverton, Or., Aug. 7.—Henry Cline, a pioneer resident of this vicinity, dropped dead at his home near Silverton last evening while attending to the chores at the barn. Heart failure is supposed to have been the cause of his death. When he started for the barn he had no apparent sickness and all day Sunday seemed to be in the best of health.

Representative Renamed.
(Journal Special Service.)

St. Louis, Aug. 7.—Congressman Marion E. Rhodes was nominated for another term by the Republicans of the thirteenth district in convention at Piedmont today. There was no opposition.

East Side Residents Aroused Because Nitrate of Silver Turns It White.

NOTHING BUT LIME. SAYS THE WATER MAN

People Prefer Bull Run, Notwithstanding Assurance That Lime in Water Doss No Harm - Other Events of the Day on East Side.

Residents in the vicinity of Failing street and Union avenue are aroused over reported impurities found in the water pumped from the artesian wells at Albina. Recently a Union avenue druggist had occasion to use Albina water in compounding a prescription which contained among other ingredients a small quantity of nitrate of silver. He noticed that the silver immediately turned the water to a milky white color and produced a marked precipitation of what appeared to be foreign matter.

color and produced a marked precipitation of what appeared to be foreign matter.

A bottle of Bull Run water was procured and the same amount of nitrate of silver added to it produced no coloring of the water and no precipitation. The chemist making the experiment said that adding nitrate of silver to pure water would produce neither coloring matter nor precipitation.

Superintendent Dodge of the water company, when shown the two samples of the mixture, said:

"That simply discloses the presence of lime in the Albina artesian well. We have always known that there was considerable lime in the Albina water. Lime doesn't hurt the water; it is none the less pure on that account.

"You east side people will have to exercise just a little patience for a short while longer. The city is now spending a quarter of a million dollars to furnish you with Bull Run water. When we get the standpipe finished that we are now building at Vernon your water troubles will all be over."

And yet the Albina people are not thoroughly convinced. They want Bull Run water, even if lime is wholesome.

Happy, happy Montaville! The goal

the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer or assistance.

Happy, happy Montaville! The goal of its ambition of a decade is at last attained. An exultant shout of welf-town will be both salesmanship and organization. He both salesmanship and organization in both salesmanship and organization. He both salesmanship and organization in both salesmanship and organization. He both sa

Harry Warner, an employe in the electrical department of the O. R. & N. shops at Albina, fell yesterday afternoon from a height of 20 feet and suffered a compound fracture of his right arm. His left arm was strained and he sustained a number of painful bruises about the body. Warner was adjusting a piece of machinery in the upper framework of the shop when he lost his balance.

The Independent Union Evangelical church, which holds its services in the schoolhouse at Gilbert's Crossing, and the directors of the local school district have entered into an agreement to purchase an organ for their joint use. The directors have appropriated \$40 toward the fund and the church members will raise the remainder. In event the church moves elsewhere, it will either sell its interest to the school or buy out the school's interest. This is the first church to be-organized in the prosperous vicinity of Gilbert's Crossing.

Rev. Hiram Vrooman, formerly of Boston, is the minister in charge.

Paving Pendleton Streets.

(Special Dispatch to The Journal.)

Pendleton, Or., Aug. 7.—The work of paving the streets of Pendleton will commence at once, arrangements having been made for a force of men to go to work tomorrow. J. H. Shewry, superintendent of instruction, and H. E. Hoyt, cashier, are here and the former will be in charge of the paving work in Pendleton. Mr. Hoyt will remain until the work has been organized.
