### PLASTERERS WILL GET MORE PAY

Increase of Fifty Cents Per Day Will Be Granted Immediately by the Contractors.

### WORKMEN IN POSITION TO ENFORCE DEMANDS

High Wages Current in San Francisco Cause Many to Go There From Portland and Increase Is Necessary to Keep Enough Men.

The plasterers of Portland, on September 1, will demand a raise of 50 cents a day in their wages, making a total of \$5.50 for a day of eight hours. The demand will not only be made, but it will be granted, as the employing plasterers find it necessary to grant the new scale to keep men here. Since the San Francisco disaster great inroads have been made on the ranks of the plasterers of Portland, the men being paid \$5.50 a day for work in the Bay City. While living in San Francisco is higher than in Portland the men who go there to work are still considerable ahead, and to prevent more withdrawals from Portland the union decided to raise the wage rate here. This was not done until the master plasterers had been notified and they said they would agree to a 50-cent raise in order to keep the good men in Portland. While no formal action has yet been

taken by the Plasterers' union to make the raise, it is generally understood that it will be adopted at a meeting of the union tomorrow night. The object in making the new scale effective on September 1 is to give contractors an opportunity to figure under the new scale. The new wage scale will not make so much difference in the cost of constructing a home in Portland unless the master plasterers intend to increase considerably more than what they will give the plasterers.

**Small Houses Per Hour.**  
It takes quite a large house that one man cannot plaster in a month, therefore the increase for such a house would be only about \$15. For an ordinary house two men can plaster it in a week or ten days, therefore the increased cost for such a house would be about \$10. No doubt some contracting plasterers will take advantage of the new wage scale to increase the price of their work beyond that caused necessarily by the new scale.  
A deed naming as a consideration \$15,000 was filed yesterday and attracted considerable attention among operators, for it seemed to involve quite a movement, but upon investigation it was found to be an old transaction just going on record. The deed called for the transfer of 104 and a fractional acre of land from the Hub Land company to the Peninsula Lumber company. The property involved in the transfer is the present site of the Peninsula Lumber company's plant at Portsmouth. The property was secured by the Peninsula Lumber company several years ago and the deed has just been filed to complete the record.

**How Values Increase.**  
A striking example of the way Portland property is advancing is revealed in the sale of an inside lot 50 by 100 feet on Seventh street, between Ash and Ankeny streets, by George H. Rogers of Salem to William D. Fenton for \$15,000. The property was purchased last fall by Mr. Rogers for something like \$35,000 and the transfer to Mr. Fenton shows a profit of \$10,000. Mr. Rogers has been particularly successful in real estate operations. About two years ago he purchased the lots and some old frame buildings on Washington street, between Fourteenth and Fifteenth, opposite the Heilig theatre, for \$26,000. Washington street property has made wide strides in advancement that this property today is held to be worth \$100,000, and no doubt if Mr. Rogers decided to part with it at that figure he could find a ready buyer.

**Land for Shipyard.**  
J. H. Johnston, the boat builder, has purchased nine acres of land along the waterfront at Milwaukie, with the intention of locating a shipyard there in the near future. This is only one of the things that shows that Milwaukie is advancing rapidly. A city hall costing between \$1,500 and \$2,000 is being erected and several homes costing \$2,500 and upward are being erected. The new wharf mill is expected to be in operation in a week or two and other improvements are contemplated.  
Watershed, Friss & Co. report the sale to A. F. Gansseder of the lot at the southwest corner of Fourteenth and Quimby streets for \$7,000. This property adjoins the proposed terminal of the north bank road.  
The Continental company has sold to Mrs. A. D. Goldie two acres on East Thirty-fourth street, south of Hawthorne avenue, for \$3,250.

### ACTING SEALS DO WONDERFUL THINGS

The acting seals and sealions which perform with the Adam Forepaugh and Sells Brothers Shows amazingly illustrate in juggling, comedy effects and musical acts the highest known achievements in animal training. Captain Webb, who was the first to attempt the education of these curious creatures of the deep seas, spent many years of his life in the Arctic regions—and there, far away from civilized life, home and friends, he made a study of their nature and brain scope, and after a long time and the exercise of much patience finally developed the wonderful performance which is now a remarkable feature of the Adam Forepaugh and Sells Brothers' Shows. The performance is given on two big stages, and every move of the intelligent animals may be plainly seen from every part of the enormous tent. This trained animal act is beyond question the most marvelous exhibition ever offered for public instruction and entertainment. Here August 20 and 21.

**Milwaukie Country Club.**  
Eastern and Seattle races. Take Sellwood and Oregon City cars at First and Alder.

### LURE GIRLS TO CANADA TO SELL THEM AS SLAVES

Ten Young Women Induced to Leave Chicago—Will Be Intercepted by Government.

(Journal Special Service.)  
Chicago, Aug. 7.—The federal authorities began investigations of the charges that 10 young girls have been lured to Prince Albert, Canada, to be sold into slavery in a remote mining camp. According to information filed with the Englewood police the girls are in charge of an unscrupulous woman.  
The party is expected to arrive at Prince Albert tomorrow, but it is probable they will be intercepted by a federal agent and detained pending a thorough investigation. Efforts are also being made to learn the identity of the woman who induced the girls to leave this city.  
The girls, most of whom are said to be in their teens, have been recruited from various parts of the city and their railroad fare has been paid by the woman. A number of girls had been provided with wardrobes and also well supplied with money before leaving Chicago.

### KLAMATH LAKE EXCURSION.

**Low Rate Via Southern Pacific Induces Many to Go.**  
The excursion to Klamath Falls leaves via the Southern Pacific Friday morning at 8:30, and the very low rate of \$13.75 for the round trip is inducing many to make the trip. Pullman fare is \$2.50 additional each way. Full particulars and Pullman reservations at city ticket office, Third and Washington streets.

### Watch Your thirty Feet of Bowels!

**YOU** have thirty feet of Intestines! What makes food travel through them?  
A set of Muscles that line the walls of these Intestines or Bowels.  
When a piece of Food rubs the walls of the Intestines these Muscles tighten behind it, and thus it starts a Muscular wave which drives it through the whole length of the Bowels.  
It should take about 12 hours to do this properly, so that nutritious parts of the food may have time to be digested and absorbed.

—But, if it takes twice or three times that period the food spoils in passing, and becomes as poisonous as if it had decayed before being eaten.  
Now, the cause of delay (Constipation) is simply Weakness, or Laziness of the Bowel-Muscles.  
Want of Exercise, Indoor Employment, weakens these Bowel-Muscles, just as it weakens Arm and Leg Muscles.

"Physio" like Salts, Calomel, Jalap, Phosphate of Soda, Mineral Waters, simply flush-out the Bowels for the one occasion only.  
They do not remove the Cause of Constipation.  
But this is different with Casorets. Casorets act on the Muscles of the Bowels and Intestines. They act just as Cold Water, or Exercise act on a Lazy man.  
They act like exercise.  
A Casoret produces the same sort of Natural result that a Six Mile walk in the country would produce.  
The Vest Rocket Box is sold by all Druggists, at Ten Cents.  
Be very careful to get the genuine, made only by the Sterling Remedy Co., and never sold in bulk. Every tablet stamped "CCC."

### ALASKA PROBLEM WILL BE SETTLED THIS EVENING

Committees of Four Commercial Bodies of Portland Will Hold Joint Meeting Tonight.

At a joint meeting of committees of the four commercial bodies of Portland, to be held this evening at the Commercial club, it is expected that the Alaska steamship problem will be finally solved and arrangements perfected to go ahead with the project, offered by Captain Bennett, representing the Nome Improvement company.  
The meeting will convene at 8 o'clock in the gymnasium. Captain Chilcott, who went to Seattle to spend Sunday at his home, returned to Portland this morning to be present at the conference. A full attendance of the joint committees is urged, as final action must be taken at this time, and Portland is expected to show its intentions. A number of business men in addition to the regularly appointed committee have been asked to attend the meeting, and there will be a score or more present.  
It is now estimated that the subscription for the Nome Improvement company's proposition can be started with at least \$50,000. No bank in Portland can fall to see the advantage of this kind of an initiation into the Alaska trade and the large financial results that may follow for Portland.

### DANGEROUS WORK OF PRACTICAL JOKERS

The practical joker who bothered Dr. Clarence True Wilson, or some other equally ambitious man, has turned his attention to ambulance men. If the ambulance men catch him, there will be no gentle admonition to reform, followed by forgiveness, but vigorous prosecution.  
Holman's ambulance was called twice last night on false alarms, the first time at 3 o'clock. The ambulance and going street, and the second, a few minutes later, to Union avenue and Russell street. In both cases there was no one at the address who had need of an ambulance. The serious feature of the case is found in the fact that the number of ambulances in town is small, and with them occupied on false alarms, there might be none available in case of real accident.  
Efforts to locate the jokers so far have proved futile, but the ambulance people are not through with their search.

### HAWTHORNE PARK CONCERT TONIGHT

The park band will play a concert at Hawthorne park this evening, beginning at 8 o'clock. The program follows:  
March, "The Burning of Rome"; Paul Waltz, "Beauty's Charms"; Tobani Overture, "Bohemian Girl"; Ballo Serenade, "Love in Idleness"; Macbeth Masurka, "La Carolina"; Ganne Intermission.  
Descriptive fantasia, "Cavalry Charge"; Luders (Synopsis—Morning of the battle; infantry is heard approaching with files and drums; cavalry in the distance, coming nearer and nearer until they charge upon the enemy; cavalry, infantry and artillery in the melee of battle; defeat of the enemy, pursued in the distance by the cavalry.)  
(a) Intermezzo, "Salome"; Lorraine (b) Polka, "The Aviary"; Parlow Selection, "Maritana"; Wallace Caprice, "Magic Chimes"; Tobani March, "The Club Fellow"; Johns W. E. McElroy, Conductor.

**The End of the World**  
of troubles that robbed E. H. Wolfe, of Bear Grove, Ia., of all usefulness, came when he began taking Electric Bitters. He writes: "Two years ago Kidney trouble caused me great suffering, which I would never have survived had I not taken Electric Bitters. They also cured me of General Debility." Sure cure for all Stomach, Liver and Kidney complaints. Blood Diseases, Headache, Dizziness and Weakness or bodily decline. Price 50c. Guaranteed by Skidmore Drug Co.

**THE REALM OF THE WOMAN**  
BY HELEN MANTON ROSE  
You Are Up With the Times.  
If you read the daily papers with interest and understanding, not only the "woman's page," but the war and political news—not forgetting the editorials.  
If you take an interest in the charitable works of your city.  
If you have a hobby and ride it—but not to death.  
If you take some recreation—there is nothing that stamps a woman as behind the times so soon as to neglect all social life.  
If you cultivate the friendship of young people and become a companion to your children.  
If you read good books and magazines and devote part of each day to the cultivation of the mind.

### The Middle-Aged Heroine.

According to the latest theatrical news Yvette Guilbert is to appear in a play written expressly for her and according to her own ideas. Miss Guilbert's ideas have always been strikingly original; from the time she created such a sensation in New York by wearing long gloves with which she expressed the meaning of the somewhat risque songs then in her repertoire, down to her recent visit to America, when she appeared in dainty pompadour costumes and interpreted quaint chansons to the delight of her audience; and now Miss Guilbert's latest is to create a new type—that of a woman of middle age, full of life and spirit and enjoying herself to the uttermost because she has arrived at the age when she appreciates life and its opportunities. As usual Miss Guilbert will have many imitators, and this time they will be found, principally, outside the playhouse.

### A Woman's Indorsement.

Thousands of girls are sent out into the world with what is called a finished education who cannot even give a proper receipt for money, to say nothing of drawing a promissory note, a draft or a bill, or understanding the significance and importance of business contracts.  
Such a woman presented a check for payment to the paying teller of her bank. He passed it back to her with the remark: "It is not enough to indorse it." The lady wrote on the back of the check: "I have done business with this bank for many years and I believe it to be all right." Mrs. James B. Brown.

### The Useful Lemon.

A good housekeeper should never be without lemons; always purchase the thin-skinned ones as they are more juicy than the light yellow thick-skinned variety.  
Keep a slice of lemon on the toilet table; it will remove stains from the hands and finger nails, take off tan and whiten the skin. It will also remove the dark creases made by high collars if applied faithfully every night.  
Lemon juice is used in all fruit salad dressings, and it is really better and much more healthful to use it in your mayonnaise dressing instead of vinegar.  
The next time you are troubled with sick headache try the juice of a lemon in a glass of hot water and you will find relief. A physician advises the lemon and hot water taken every morning for biliousness.

### For Thin Straight Hair.

I wish to say to those who have thin hair and cannot wear it pompadour for that reason that if they will at night part of the front half of it, braid it in three braids, letting the braids fall downward over the face, then take a woolen cloth and roll the braids over it as one does a rat, pin it down firmly, and the next morning when taken down they will have a pretty, fluffy pompadour.  
Peach Butter.  
To make peach butter you must have very ripe peaches—not dingy ones, Pare
