HOP PICKERS GO FROM EAST SIDE

Six Thousand People Will Leave for Fields Within Short Time.

AGENTS ARE IN TOWN TO SECURE PICKERS

Eight Thousand Will Go From City and Suburbs, of Which Number East Side Will Furnish Three Fourths—Money-Making Vacations

East Side Department. Large numbers of east side families are making arrangements to take their annual vacations in the hop yards of the Willamette valley. It is estimated that Portland will furnish about 8,000 pickers

this season, and of that number the east side will furnish at least 6,000. Agents of the larger yards, in the vicinity of Brooks, Independence and Salem, are making a house-to-house canvass in portions of the east side, explaining the advantages offered, at their respective yards, in the way of camping grounds, amusements, etc. Hundreds of east-siders enjoy no other vacation than the annual invasion of the Oregon hop yards, which will begin this year about August 25, and last for nearly three weeks.

Many an east side youngster will make enough money picking hops to buy his winter clothing, and not a few will be able also to provide themselves with school books for the coming year. The Southern Pacific railroad will carry practically all of the pickers to the fields. A few families make the trip by private conveyance, camping overnight, thus prolonging the outing. The exodus of school children will not interfere with the opening of school this year. September 17, as hop-picking will be about over by that date.

Passengers on the Oaks electric cars last night were severe in criticism of the speed maintained on the outward-bound cars on that line. From Division street south, for a mile and a half, a velocity of not less than 35 miles per hour was said to have been reached, and from that point on to the Oaks, across the long trestle, the speed was but little slackened.

A passenger expressed the opinion that the cars were entirely too light to

be counted on to hold the rails when speeding at such a rate. For several hundred yards along this part of the line, the track is on a fill, 15 or more feet high, where 12 or 15 miles an hour would be as fast as a light train ought to travel.

The feast of St. Lawrence patrons of St. Lawrence church will occur Sunday, August 13th. This is the 34th anniversary of the founding of this church, the cornerstone of which was laid in 1883 by the late Most Rev. Archbishop Seghers. An elaborate program of music is being arranged for the feast by Miss Kelly, organist of the church.

The choir will consist of the Misses Harwas, Brennan, Barret, Smith, Covach and Messrs. Montag, Souvain, Gianelli, Underwood, Fleming, Cain, Brennan, Purcell, Atkinson, Grimm and Malley.

East side merchants and business men generally are discussing a proposition to organize an east side commercial club, patterned after Tom Richardson's organization on this side of the river. The object, as stated, is to have an organization that will directly benefit and protect business men in that part of the city. It is more than can any improvement or push club. It is not to be understood that the new organization will run in opposition to any other organization, but rather will cooperate with other factors in upbuilding the community.

C. A. Bigelow said yesterday in speaking of the benefits of such a club: "We have several clubs engaged in booming real estate and hoisting rents, and now we should have one that will directly aid business men. In case such a body is organized a strong effort will be made to include in its membership every firm and business man in East Portland."

J. D. Ellers of the Mount Tabor Express company had a trunk stolen from a wagon in his barn at Grove and East Fifteenth streets several nights ago. The trunk belonged to Miss Jessie McKlason of North Mount Tabor. Mr. Ellers has for several years been leaving baggage in his barns and this is the first time that anything has been stolen. Mr. Ellers immediately reported the theft to the police department, but claims that he has been unable to get a detective out to his place to make an investigation of the surroundings.

The Montavilla Improvement League has seconded the efforts of the board of trade of that town in advocating the widening of Villa avenue. W. J. Burden, president of the league, says that the proposition is meeting with much unexpected opposition. It is intended to widen the street through the Ladd farm to connect on the east with Twenty-eighth street, that being the narrowest, and least improved part of the avenue. Mr. Burden suggests that no effort be made to improve the avenue with crushed stone until the widening proposition is settled. The league is also assisting the board of trade in having street grades established preparatory to laying water mains.

Postmaster Valentine of St. Johns has secured a part of the ground floor of the new building going up on Jersey street, opposite the Peninsula band, as new quarters for the postoffice. The building is the property of L. M. Holbrook and will be a more convenient site for the postoffice than the present cramped quarters on Burlington street.

The Woodward property, in Montavilla, a three-story frame structure, has been leased for three years to the Bon Ton Tailoring company of Portland for the purpose of establishing a clothing factory. The lessees secured an additional option of five years on the premises to be taken up in case their venture is a success. The plant will give employment to 60 persons at the start.

LARGE PARTY STARTS FOR CLOUD CAP INN

(Special Dispatch to The Journal.) Hood River, Or., Aug. 19.—The largest party that has been taken to Cloud Cap Inn this summer left for that point today. In it were 17 persons, many from distant points, who will make the ascent of the mountain. The inn has never been more popular than this season, and if the present rate of travel there is maintained throughout the month it will equal that of last year during the fair.

THE REALM OF WOMEN

BY HELEN MANTON

After Fifty—What?

Since Dr. Osler became famous by revealing his startling theory to an unsuspecting people, the question of what to do after one had passed his fatal age limit has created endless discussion. Women are perhaps affected less than men, but still there comes a time in every woman's life when she must accept a new viewpoint—she has come to the second parting of the way—her children are grown and household cares now absorb but a small portion of her time. The future is without the object of the past, and still there are many years of life left yet before her. What, then, shall a woman do with these long remaining years?

Surely it was not intended that a woman should live half her life and then spend the rest in idleness and unproductive devoting the rest of their life to charity without a feeling of rebellion. It is too much like preparing for a heavenly home before they are ready to leave the one they have. So the looker with envy at the young people with their ever new hopes and aspirations. She thinks of her dreams and how they were gradually crowded from her mind by baby frocks and household cares—not that she regrets her happy, commonplace life, but only wishes that she had had more time to do the things that had once seemed so worth while. If she could have gone on with her music, for instance, how much happier she would be now. Just there lies the solution of her problem. Let her take up music. It is true that she will not be able to accomplish so much as would have been possible if she had practiced all these years; still time, determination and perseverance are three mighty factors in success and, at any rate, she will be doing something worth while and yet of pleasure to herself. Take up the broken threads of your youthful dreams, though they are pierced it will only make them stronger, you will no longer find time heavy on your hands, but every moment will be eminently worth while.

A NEW DEPARTURE.

The Cost of Interments Has Been Greatly Reduced by The Holman Undertaking Company.

Heretofore it has been the custom of funeral directors to make charges for all incidentals connected with a funeral. The Edward Holman Undertaking company, the leading funeral directors of Portland, beginning July 1, 1922, will depart from this old custom. When the casket is furnished by its cost will include all charges, such as conveying the remains to our chapel, outside box, embalming, hearse to cemetery and all services which may be required of us except clothing, cemetery and carriage, thus effecting a saving of \$35 to \$75 on each funeral.

THE EDWARD HOLMAN UNDERTAKING COMPANY, 129 Third street, corner Salmon.

Forty-Winner Dead.

(Special Dispatch to The Journal.) Olympia, Wash., Aug. 19.—Thomas Stafford, a native of New York and 84 years of age, died in this city this morning after a lingering illness. He came to this county about 25 years ago and homesteaded a claim on the Deschutes river south of this city, but had previously followed mining in Australia and was killed in California during the '49 mining excitement.

WARM WEATHER WILL HELP Now Is the Time to Get Rid of Your Catarrh by Using Hyomel.

Every one who is afflicted with catarrh should take advantage of the warm weather to get rid of this annoying and distressing disease. For the right treatment in August and September will give benefit much more quickly than in the winter and early spring.

The germ-killing and health-giving Hyomel when breathed in the summer months has an even more beneficial action than when used in the colder weather. It is nature's own remedy for the cure of catarrh. It goes to the most remote air cells in the nose, throat and lungs, killing and driving from the system the catarrh germs.

Hyomel is the simplest, most pleasant and the only guaranteed cure for catarrh that has ever been discovered. It is sold by Woodward, Clarke & Co. under a guarantee to refund the money if it does not give complete satisfaction.

At this season of the year, the first day's use of Hyomel will show a decided improvement in health and in a short time there will be no further trouble from catarrh.

You take no risk in buying Hyomel. The complete outfit costs but \$1.00, extra bottles 50c, and if after using you say it has not helped you, Woodward, Clarke & Co. will return your money.

Salads in Tomato Cups.

Scoop the inside of the tomato out and put the shells on ice until needed. Make a salad of equal parts of celery and potatoes, cover with French dressing and fill the thoroughly chilled tomato shells. Put a spoonful of mayonnaise on each one. The tomato shells may also be filled with chicken salad.

When You Clean Silver.

When cleaning silver mix the whitening with a little water and a few drops of ammonia. Always go over the pieces cleaned with a small camelhair brush. This will remove the dry powder.

In Portland Shops.

One of the furniture stores is showing a diminutive Morris chair. It is an exact counterpart of the regular size chair and would make a gift that would be appreciated by the small boy or girl.

Have you seen the new Japanese bronze five o'clocks and chafing dishes? They are odd-looking and exceedingly good to be used in a den, with oriental furnishings.

For the little ones, the stores are showing white piggy bank coats with pink or blue collars and cuffs.

Some of the new designs in Cluny

lace centerpieces would make very beautiful wedding gifts.

All the department stores are now selling pretty lingerie waists for half price. They are really a good investment, as they may be worn over a silk slip during the winter.

Small earthenware cups are being sold to bake hash and the different scalloped dishes in. They are brown, lined with white.

To Mend China.

A good and inexpensive cement for mending china in the white lead that is used in painting. Ask for it of any art dealer. Dishes that have been so mended can be washed without danger of coming apart.

Why She Wears a Veil.

Because she has wrinkles.
Because her complexion is bad.
Because she is getting old.
Because she has a scar on her face.
Because her nose or mouth are not what they should be.
Because her hair is turning gray over the temples.
Because she thinks it makes her look prettier.
Because veiling is so pretty anyhow.
Because it is sometimes sold at bargain.

Because it can mask her real feelings.
And once in a long while, with a rare woman—because it protects her skin from dust and keeps the glare from her eyes.

Butter Nut Bread is seldom supplied except when specified, as many other loaves bear the grocer a larger profit. Be on your guard and refuse a substitute recommended as being "just as good as Butter Nut."
