As the time for the opening of the schools draws near the boys and girls in The Journal's educational contest are redoubling their efforts to win the scholarship prizes. The six cash prizes are causing great activity among those high up in the score list.

New contestants have done so well that there is no telling what day some dark horse may shoot into the score list and go up among the high six. It behooves every contestant to run his score up so high that others will find it difficult to go above him.

There is a scholarship for nearly every contestant now in the contest. But the question is what scholarship. The scholarships and cash prizes will be given out in the order in which the contestants finish on the closing day of the contest. Every one, therefore, wants to finish at or near the head of the list in order to have first call for the school of his choice.

Letters From the People.

Patrons of The Journal and friends of the contestants continue to send letters to the Contest Editor in which the reasons are given for preference in choice of candidates. These letters are valuable guides to many who cannot personally meet the candidates yet who wish to have their subscription money applied in the contest direction.

Selected and Clever.

The music teacher of Mae Fendergrass, Mrs. A. Schacht, contributes a letter in favor of her "talented and clever" pupil. It follows:

"To the Manager of The Journal's Educational Contest: I take great pleasure in recommending Miss Mae Fendergrass, a candidate in the scholarship contest.

"This young lady is talented in music and is striving to gain a musical education. In the past she has shown marked ability as a musician and her future promises are very bright. I feel most certain should Miss Fendergrass win a scholarship The Oregon Journal may justly be proud of her.

"I hope the public as well as myself will cast their votes for this deserving and clever young lady. Yours very truly,

MRS. A. SCHACHT,
"Music Teacher."
"171 Ford Street."

Was Out Before.

Roy Johnson, 74 Division street, Portland, has fought his way up to the fifth position in the score line of the educational contest. He knows what it is to canvass for subscribers to a newspaper, as he has tried it before, and then was out. Two years ago he earned a good watch by getting new subscribers to The Journal.

Roy has his eyes fixed on the six cash prizes as well as on the scholarships, and he means to work his way up among the high six. He is out soliciting every day, and he turns money into the subscription department in big bunches.

In February Roy graduated from the Sunnyside grammar school. His work in the Sunnyside public schools is highly spoken of by Principal E. D. Curtis, who recommends that the boy be encouraged in his efforts to win a scholarship in the Behne-Walker Business college.

Roy Johnson is one of the five children of Mr. and Mrs. C. D. Johnson. The father is a carpenter, and came to Portland from Kansas three years ago. Roy,

What the Best Beer Is Made Of TELLS HOW CHINA GIN IS MADE

Process of Leading American Brewery Is the Standard of Excellence.

In the brewing of beer, as in the manufacture of other products, there is a standard of excellence. This standard is the Pabst exclusive process, and the recognized superior of all beers, in cleanness, purity, food value and refreshing, satisfying taste, is Pabst Blue Ribbon Beer.

It may be true that some brewers cheapen the cost of production and thereby lower the quality of their product, by use of inferior ingredients, but Pabst Blue Ribbon Beer is brewed from the purest, best ingredients that money can buy or produce. The ingredients which are essential to the production of the best beer. These ingredients are the choicest imported hops, pure water and Pabst exclusive eight-day malt, grown from the finest selected barley by the Pabst exclusive method of slow growth.

Malt grown by the rushed four-day method, the usual method in breweries, is inferior, because in the usual natural development of the barley its vital food elements are thrown off and lost. "Pabst," as one eminent scientist has said, "retains all the nourishment of the grain in his exclusive eight-day process of making malt and therefore Pabst Blue Ribbon Beer is the richest as well as the cleanest beer in the world."

Knowing these things to be true we can recommend Pabst Blue Ribbon Beer as the cleanest, purest, most satisfying and most healthful beer brewed—the beer that should be kept in the home.

ALASKA LINE IS GIVEN SUPPORT

Board of Trade Indorses Project and Appoints Committee to Receive Subscriptions.

PLAN OF CAPTAIN CHILCOTT EXPLAINED

Committee Submits Report on Objects to Be Attained and Present Condition of the Nome Improvement Company.

The Portland-Alaska steamship proposition was heartily indorsed by the board of trade last night, and Secretary Lauber was appointed a committee of one to receive subscriptions until such a time as the special soliciting committee shall get to work.

In the absence of President Wallace Nash, Willis Fisher acted as chairman of the meeting. The steamship line proposition took most of the attention of the body. The committee appointed to look into the matter submitted an exhaustive report in which the proposition of Captain Chilcott was set forth in plain language. The Nome Improvement company is in possession of the harbor at Nome, with warehouses, lighters and other landing facilities. In this corporation 1,800 shares of common stock represent a controlling interest.

The proposition made by Captain Chilcott, on behalf of the Nome Investment company, is that Portland interests should invest \$1,150,000 in the purchase of the 1,800 shares of common and 1,800 shares of preferred stock.

With this sum, the expenditure of which is to be governed by the controlling interest in the corporation, the following objects are to be attained:

1. The completion of the harbor works in compliance with the terms of the United States franchise.
2. The construction of warehouses and other buildings on a scale sufficient to handle existing traffic and such as can be relied on to take care of that resulting from these facilities, including coal sheds and bunkers.
3. The provision of lighters, each of 200 tons burden, and a tug of power sufficient to handle them.
4. The charter and operation for one or two years of two large steam schooners to be ready for the season of 1937.
5. The purchase of 12 and 15, was read, whereby the trade under these new conditions can be opened.
6. A margin of capital sufficient to place the new enterprise in running order.

On account of the absence of President Nash the tin smelter proposition went over. An invitation from the Oregon irrigation congress to send delegates to their annual state congress at Hood River, Oct. 11 and 12, was read, and the president was authorized to appoint delegates.

The monthly report of the secretary showed that 3,183 pieces of literature and 1,864 letters were sent out during the month of July. It was announced that the legislative committee would meet tomorrow at 4:30 instead of tonight, as previously announced.

The following new members were elected: Goodrich, W. Goodrich, W. Hutchings, Sherman-Clay Co., L. R. Smith, Bankers & Lumbermen's bank, A. M. Butler, A. B. Keaton and W. S. Phelps.

FAST RACES PLANNED IN EASTERN OREGON

Baker City, Or., Aug. 15.—The Baker county fair will be one of the greatest ever held in Baker City, and the special contests will be participated in by the highest grade of horses ever brought to this track. The track is in good shape and will be further improved before the September meeting. The La Grande and Pendleton fairs will follow Baker City and most of the horses on exhibition will also be entered in those meets.

BOYS OF THE Y. M. C. A. RETURN FROM SEASHORE

Members of the boys' department of the Y. M. C. A. returned last night from their march to the sea. Wherever the boys went they were shown courtesies by the farmers and citizens on the way. W. E. Hale, who had charge of the trip, said that the members had a fine time. Feasting, marching and swimming made up the daily program.

An average of 12 miles a day was made on the trip, but yesterday the cool weather made speed possible, and the boys covered 19 miles. The marchers camped yesterday in front of the university grounds at Forest Grove, where they were given a spread. Speeches were made by Mayor Peterson, President Ferrin and Y. M. C. A. members, and were followed by a streetcar ride.

INDIAN ARRESTED

Indian Arrested.
(Special Dispatch to The Journal.)
Pendleton, Or., Aug. 15.—Alfred Murray, an Indian, was placed in the Umatilla county jail yesterday, having been arrested on the reservation for being drunk. When he was arrested he made an attempt to resist the Indian guards of the law and threatened to use a shotgun. Consequently he has a double charge against him.

\$10 TELLS HOW CHINA GIN IS MADE \$10

Charles F. Bartholoma Says It Is Nothing but Alcohol Mixed With Water.

LICENSE COMMITTEE IS SHOWN SAMPLE

Food Commissioner Bailey Offers Twenty Dollars to the Councilman Who Will Drink a Glassful, but None Make Attempt.

That the largest liquor houses of the city are the manufacturers of "China gin" was the statement made to members of the liquor license committee yesterday afternoon by Charles F. Bartholoma, a representative of Westward's brewery.

This remarkable declaration came out just after the close of the committee meeting, where a motion had been passed to require all Chinese selling "gin" to appear before the committee at its meeting two weeks hence and show cause why their licenses should not be revoked.

According to the brewery agent, "gin" composed of alcohol and water, and at that does not contain as much alcohol as ordinary whiskey.

It is the houses holding rectifiers' licenses, according to Mr. Bartholoma, who make the "gin" and sell it to the Chinese dealers. These dealers sell it by the glass and by the bottle to far-fallen white men and to an occasional Chinese in the last stages of opium smoking.

Just how this can be done under a rectifier's license did not appear.

Analysis Being Made.

J. W. Bailey, state food commissioner, arrived too late for the committee meeting, but met the members in the auditor's office and showed them a bottle of the stuff. The chemist of the commission is now making chemical analysis of the mixture.

"I could not buy any of it and neither could Mr. Tartar," explained Mr. Bailey. "I asked a friend of mine on Second street if he could get some and he said he knew several gin fenders by sight. One came along and he sent him out for a bottle. When he came back they gave him a drink of it and in 10 minutes they had to call the patrol-wagon as the man was crazy drunk. I wasn't there at the time, I'll give \$20 to any man that will drink a glassful, and the commissioner poured out a big slug in a glass measure.

Messrs. Shepherd, Wallace, Willis and Vaughn, members of the committee, smelled the stuff, but did not drink it. Bartholoma, who was formerly a member of the firm of E. C. Jorgensen & Co., liquor dealers, was still declaring as of course what it was not. But he took only a sip and then hurried to the cuspidor.

Chinese Ordered to Appear.

At the meeting a few minutes before Vaughn had taken the bull by the horns by moving that the licenses of all Chinese saloon-keepers be revoked. Shepherd said he would never vote to rescind without a hearing, a license when it had once been granted, and there was no second to Vaughn's motion. Then he moved that the keepers of the ginshops appear and show cause why their licenses should not be revoked. The others agreed with this and the next meeting will undoubtedly be interesting.

The application of Albert Serring for a saloon at Mississippi and Cook avenues was referred to Menefee, the councilman of that ward. The applications of E. A. S. Smith, 308 Alder; Luckey & Anderson, 301 Ankeny, and Charles Warner, 300 First, were granted.

ONE SUIT EVERY HOUR.

Columbia Woolen Mills Company Have Doubled Capacity of Their Workshop.

During the last six months, the Columbia Woolen Mills Co. tailors of Portland, Ore., have turned out an average of more than one suit of made-to-order clothes for each working hour—more than 60 suits per week. The management of the Columbia Woolen Mills Co. expresses the opinion that this is considerably larger than the record of any other tailoring establishment in the Pacific northwest.

The growth of the business has, at times during the past few months, made it difficult to turn out clothes on time. In anticipation of a big fall business and to take care of a rapidly growing out-of-town trade, the company has increased the capacity of the workshop to 100 suits per week.

"I believe we have the neatest store and the most thoroughly equipped tailoring establishment in the northwest," said Mr. Thegley, manager of the company. "Our business has grown by great leaps and bounds. I believe we started just the right kind of a business at the right time and in the right city. We appreciate the patronage given us by the people. It has enabled us to hire the best men and buy the best machinery for our shop. It has also enabled us to about double our original order with the woolen mills for fall stuff. That and 1,864 letters were sent out during the month of July. It was announced that the legislative committee would meet tomorrow at 4:30 instead of tonight, as previously announced.

MOYER

THIRD AND OAK STS.

\$10

To the Man Who Appropriates \$1,000 Annually for Advertising

A great many of Lord & Thomas' most successful clients began their advertising with appropriations of a thousand dollars and even less.

THE Lord & Thomas Agency has grown to be the largest advertising agency in America through the successful development of small advertisers.

Today our volume of business—\$4,000,000.00 per year—represents the appropriations of nearly 700 clients, so the average appropriation is less than \$6,000.00 per year.

Some of our clients who started with small appropriations are now placing over \$100,000.00 yearly with us, and their businesses have grown and are continuing to grow in proportion.

The great majority of our clients are now appropriating less than \$3,000.00 per year. Our future growth depends upon the development of these \$3,000.00-a-year advertisers into the \$100,000.00-a-year class.

We want an opportunity to show you how YOU can start advertising with a small appropriation and get into the \$100,000.00-a-year class.

The small investor always is in greatest need of protection for his investment. We realize that the \$1,000 appropriation of the beginner means more to him than the \$100,000.00 appropriation of the older advertiser. We govern ourselves accordingly. We want to tell you how we safe-guard your advertising appropriation by basing your investment on the only

trustworthy guide in advertising—the Lord & Thomas Record of Results. Our exclusive Record of Results is the classified, indexed tabulation of actual results from hundreds of small and large advertising campaigns. This record is interpreted, and the positive knowledge gained thereby is applied to your business by the ablest and highest salaried corps of advertising men in America. That is why we can and do develop small advertisers, because we eliminate practically all of the waste in advertising due to the use of wrong copy and wrong media. We want to explain to you, in person, the detailed workings of the Lord & Thomas Record of Results and just how our organization can apply what it teaches to your business. We want to explain to you why we are particularly anxious for small accounts and how we are peculiarly organized to develop them with the greatest care. One of our representatives is in your city every few days looking after the interests of some of our present clients. That is why we are advertising in this newspaper—to you—NOW. A letter granting us an interview in your office will not obligate you in any way.
