# SAYS BRIDGES ARE BEING RUINED BY SPEEDY TROLLEY CARS

## Bridge Builder Declares Structures Are Being Ruined by Speedy Trolley Cars.

Warning of the injury done to bridges and elevated roadways by fast-running streetcars has not been sounded too soon, said C. L. McDaniell, a local bridge builder. "I have often wondered that the city did not take some steps to protect the valuable elevated roadways and bridges. The wear and tear of a heavy, fast-running car on a structure of this kind is severe. A mechanical engineer will tell you that a car ought always to enter a bridge at a slow speed. It may increase its speed after getting on the bridge without much injury. Notice the engineer on a railroad, how carefully he goes on to a bridge. Railroad people know how to take care of their property."

"If a railway engineer should enter a bridge faster than three miles an hour he would be promptly fired. I have noticed streetcars crossing bridges at a speed of 20 miles an hour. And so it is with every bridge and elevated roadway in the city. There is no reason why the bridge street bridge should be nearly worn out, except running the heavy O. W. P. cars at a high rate of speed over it. That bridge has been nearly wrecked in this way. The city has nearly \$1,000,000 invested in bridges and in viaducts over gulches and no farther as I know no effort is made to save them against destruction by fast-running streetcars."

That the East Third street Southern Pacific franchise is not to have altogether smooth sailing in securing the endorsement of the East Side Improvement club and associations is evidenced by the fact that the project in its present shape, adopted by the Brooklyn Republican club last night, M. G. Griffin took the lead in the discussion; he declared that the ordinance favoring a change in the franchise did not pass, that it gave the S. P. Co. a franchise of great value with no adequate return. He insisted that the city as a whole should receive whatever compensation is paid for franchises over this street, and not the shutting property holders, as is now proposed.

After a spirited discussion, the following resolutions were adopted: That the council an ordinance conferring a franchise practically free upon the O. R. & N. Co., and without adequate compensation to the city of Portland, on East Third street; and That the city as a public matter in which the whole city is interested, and not the abutting property-owners exclusively; therefore be it

Resolved, That it is the sense of the Board of Public Works that the pending franchise should not be granted on East Third street without ample compensation being paid to Portland for the same.

A resolution was passed asking the council to submit to a vote of the people at the June election the proposition to purchase Hawthorne park.

A resolution was introduced by M. G. Griffin asking the council to grant the right to improve streets and sidewalks where deemed absolutely necessary. Mr. Griffin called attention to several instances where large property owners had been able to obstruct street improvements where every resident on the street was anxious to have the work done.

The club decided to hold a meeting celebrating the erection of the new fire engine-house and the letting of the contract for the Brooklyn sewer.

Board sidewalks six feet wide are to be laid on both sides of the Grand avenue. The sidewalks on the west side of the embankment has settled.

## OREGON BOYS FOUGHT AT HEAD OF COLUMN

Colonel Mans Complimented Men From Beaver State Upon the Splendid Work They Accomplished During Engagement.

(Special Dispatch to The Journal.)  
Camp Tacoma, Wash., Aug. 17.—For two hours this morning the boom of artillery and sharp sound of musketry resounded through the massed ranks of the Blues and Browns engaged in combat, and while the empire will make no final official announcement, it is difficult to say with certainty which side was the victor.

Both camps were astray at 8 a. m. after an extremely cold night, some of the soldiers having suffered from the cold. At 10 o'clock the general ordered the Blues and Browns to advance and the Blues adopted somewhat similar tactics, their field pieces being concealed by trees. The Blues first opened artillery fire, putting out of action a number of the Browns' guns.

The Blues, thinking the Browns had retreated, rushed along a cut in the railroad track on their left wing. Close by, under cover, the Browns sharply shot at the Blues, and the Blues were groundless and the officer allowed him to go.

(Journal Special Service.)  
The Oregon troops did splendid work being complimented by Brigade-Commander Colonel Mans. They formed part of the advance guard of Blues and fought valiantly.

The fight was a pretty contest and was witnessed by many outsiders. General Funston, chief umpire, at present in the military hospital, was at the results from a technical standpoint.

## SAID SHE'D MAKE HER EAT ALL THE BULLETS

"If you don't put that gun away I'll make you eat those five bullets," in the manner in which Mrs. Edith Cordeila Russell Moore, the assault occurred last night at 1213 1/2 Union avenue and the details of the affair were laid bare in the municipal court this morning.

It appears that Mrs. Moore resides in the lodging-house conducted by Mrs. Wolf at the Union avenue address. The lady claims that Mrs. Moore has been abusing her children by lashing them repeatedly. Last evening Mrs. Wolf alleges she heard one of the youngsters crying bitterly and went to Mrs. Moore's room to protest. Mrs. Moore is alleged to have resented this interference and producing a revolver ordered Mrs. Wolf from the room. Instead of immediately complying, the lady indignantly made the remark quoted above.

A warrant was issued for the arrest of Mrs. Moore early this morning and Judge Cameron after hearing the testimony took the matter under advisement.

# CHINESE LEPER WILL MAKE HOUSE AT POOR FARM

## County Authorities to Care for Him Until Matter Can Be Thoroughly Investigated.

Wong Sue, the Chinese who was thought to have leprosy, will be taken to the county poor farm, where he will have a house all his own at the expense of the county. The county court decided this morning that it was necessary that some action be taken, and rather than spend the time in quibbling with the city authorities over who ought to take care of him, the court ordered that preparations be made to take Wong Sue to the poor farm.

For a long time the Chinese had occupied his hut near Multnomah field, and the neighbors wondered if they were being exposed to leprosy while the city fathers tried to make the county believe the county ought to care for him.

The question seemed to hinge on whether the Chinese was afflicted with leprosy and whether it was a contagious disease. Dr. C. H. Wheeler, city health officer, has stated that it was not leprosy, and therefore it was a case for the county. The county authorities believed it was a contagious disease, therefore a case for the city. And while they each tried to fasten the duty of caring for Wong Sue on the other, he was left in his hut, and the terror of the neighbors at the thought of being exposed to leprosy grew.

Yesterday afternoon Dr. C. H. Wheeler and Acting Chief of Police Gritzmacher called on Judge Webster and a long consultation followed. It was decided to take Wong Sue to the poor farm, and to maintain a strict quarantine until the nature of the disease can be more thoroughly investigated. Wong Sue's quarters are being prepared today and he will be removed soon as they are in readiness.

## NEGRO FIEND LYNCHED BY CAROLINA MOB

(Journal Special Service.)  
Greenwood, S. C., Aug. 17.—Bob Davis, a negro, who assaulted Miss Jennie Brooks and a negro girl near here Monday, was lynched here at 7 o'clock last night. Governor Heyward made a strong appeal to save him, but the mob was determined and shot the negro to death.

The negro, who was captured yesterday afternoon near Ninety-six, was positively identified by Miss Brooks. He was led to within 100 yards of the Brooks home, where he was lynched, a negro woman firing the first shot.

It is proposed to give the matter final consideration at next Monday evening's meeting and to decide upon the method to be adopted for raising \$150,000 required to finance the undertaking and start a line of chartered steamships between Portland and Nome. It is probable that the joint committees will be appointed. If this is not done by the joint committee there is a likelihood that the project will be pushed independently under auspices of the board of trade. Officials of the board declined to commit themselves today, but it is believed the confidence and enthusiasm of the board's leaders is enough to induce them to make the fight for an Alaska undertaking independently if they are left in a position that would compel them either to take this course or drop the whole matter.

# LETTERS OF LOVE SHOCK COURT

## Judge Cameron's Justice Shop Learns How Italian Musician Wooes Heart's Desire.

Two remarkable letters were produced in the municipal court this morning as an indication of the ardent manner in which Thomas Antonelli, the dashing cavalier of Urbano's band, is alleged to have wooed and won Ernest Vanucci's handsome wife.

Vanucci is the man who assaulted Antonelli at Fourth and Stark streets several nights ago and who was turned loose by Captain Bruin notwithstanding his arrest by a private citizen. It is over this same occurrence that Attorney Tanckwich proposed to have Bruin indicted for malfeasance in office.

Vanucci appeared in court yesterday afternoon and announced his own recognition and appeared on his own recognition and appeared in the municipal court this morning to answer to the charge. After entering a plea of not guilty, he related the alleged circumstances leading up to the arrest. According to his story Antonelli broke up his home. In support of this he produced two letters which he claimed had been written by the musician to his wife. One of them reads as follows:

"Miss Odette—  
"To die so pretty and lovely, for me myself dooming, fade thus forever.  
"Thou whom the heavens alone for love created, but to destroy thee was my love then fated!  
"Ah, no, those eyes so clear and bright, for death too lovely thou art!  
"Heavenly destined beauty respondent, radiant flower, blooming in a o'clock and 'neathly thou reignest o'er me transcendent, bathing my spirit in beauty's light."

"A dream of proud ambition in my heart I was indulging. Fatal question, but I made by fondest ties, friend, a name more genial!  
"So, by thy  
"The other letter is dated July 1, and in it after acknowledging the receipt of a note the writer bewails the fact that he can not visit at her house. After inquiring as to what she thinks of death the lover asks the woman to meet him at the postoffice on the following evening at 9 o'clock and he will tell her what his heart has to say."

Judge Cameron ordered Attorney Tanckwich to produce Antonelli in court tomorrow morning.

## CUPID GETS KNOCKOUT IN MUNICIPAL COURT

A severe jolt was given Cupid this morning when Judge Cameron found Robert Kelly guilty of a misdemeanor charge and suspended sentence upon distinct understanding that he refrain from his attentions to Julia Shea. It will be remembered that last week Mrs. Shea, the mother of the fair Julia, caused Robert's arrest and announced that although she sympathized with the young man, he would have to marry her daughter.

Upon the calling of the case this morning Miss Shea took the stand and testified that Kelly had contributed to her delinquency, and Mrs. Shea corroborated this testimony. The young woman claimed that she had supported him in idleness and when she threatened to forsake him forever he would daily write her a letter announcing his intention of committing suicide. It was brought out the courtship extended over a period of three years and that Mrs. Shea had several occasions when she sought to estrange the young couple.

Julia, in reply to a question from Deputy City Attorney Fitzgerald, declared that her love for the dashing chivalier had waned. Mrs. Shea broached the marriage proposition in her testimony but Kelly balked and Judge Cameron after some deliberation announced his decision in the case. Kelly seemed relieved and said he would daily write to the girl's affections if she would not follow him.

"I'll take good care that they keep apart as if they insist upon going together, sure I'll have both of them anchored here," he said. Mrs. Shea as she led her daughter away.

## A Proposal For Printers and Contractors

Here's a Case of Rectiprocity Practically Applied. The Reed-French Piano Manufacturing Co. Want Work Done

OFFICE CARPENTERING WANTED.  
We will have to fix up an office and a parlor or two to show pianos—some people like to hear how piano sounds in a parlor—so we're going to fix one up. This work, according to a figure we had yesterday will be about \$500. We'll give you a piano (as fine as ever crossed the Cascades) and we'll pay a cash difference besides if you'll do the work quickly.

PRINTING WANTED.  
We will want to say quite a little by way of the printing press in the course of the year; we'd guess about \$500 worth. We would like for you to look at one of our pianos—see what you think of it—and if you believe what we say of it, take it on account of printing, and if the piano isn't worth the printing we'll pay the difference.

We can show a splendid little instrument for \$217—this is one of our own and there's but one profit to look out for—if a retailer had hold of it, it would be no effort at all for him to get three and a quarter for it.

Our combination piano player is the king of them all. It makes its own argument. We'd like for you to hear it.
