

WORKING ON LEWIS AND CLARK MEMORIAL MONUMENT IN PARK

Working on the Granite Blocks of the Lewis and Clark Memorial Monument.

After long and repeated delays the Lewis and Clark memorial monument near the Park-avenue entrance to the City park is going ahead rapidly. The big shaft is being trimmed and chipped down the right size and the other blocks of granite are being cut down in proportion. The monument should be completed within a few months.

From the eminence on which it stands, the vision has a tremendous sweep over the city and the hills to the eastward. The City park has several wonderful sites for monuments and statues, and

the "The Coming of the White Man" and the Lewis and Clark memorial locations are two of the best.

A peculiar interest will always be attached to the memorial shaft because President Roosevelt laid its cornerstone on the occasion of his only visit to Portland.

With the completion of the memorial soon, Portland can boast a little of her public statuary. The Second Oregon monument on the plaza block and the several pieces in the park are worthy of any city, and never fail to attract attention from visitors.

SUCCESSFUL END TO REUNION

Worn Out by Continual Round of Pleasure, Veterans Are Leaving for Home.

BROWN IS CHOSEN COMMANDER-IN-CHIEF

Ohio Man to Lead Grand Army During Coming Year—Many New England Delegates to Extend Trip to Pacific Coast.

(Journal Special Service.)
Minneapolis, Minn., Aug. 17.—Worn out by the round of continuous pleasure that has been theirs since they arrived in Minneapolis early in the week, the Grand Army veterans, the members of affiliated organizations and the thousands of other visitors who have been here today saw the official end of what is loudly praised as one of the most successful national encampments in the history of the G. A. R.

Saratoga, New York, was selected today for the next encampment.

The various organizations assembled for their final sessions today and cleaned the decks of all unfinished business. The new officers were kept busy receiving congratulations, while no less effusive demonstrations were given in honor of their predecessors. On every hand nothing but praise is heard for the manner in which Minneapolis has played the host. Despite the fact that crowds were even larger than were calculated every detail of the reception and entertainment program has been carried out with machine-like precision. The tens of thousands of strangers have been treated as the city's guests in every sense of the word. The local committee have made it a point to see that the visitors have not been victimized by overcharging.

The departing trains today were well filled and tomorrow will see a majority of the visitors with their faces turned homeward. Some will remain in this vicinity sightseeing for a few days longer, while others will avail themselves of the opportunity to take a run up into Canada or a trip through the great lakes. Many of the visitors from New England and the east will extend their trip on to the Pacific coast and will visit California and other parts before returning home.

The following national officers were elected last night:
Commander-in-Chief—R. E. Brown, Zanesville, Ohio.
Senior Vice-Commander—William H. Armstrong, Indianapolis.
Junior Vice-Commander—E. B. Fenton, Detroit.
Chaplain-in-Chief—Archbishop John Ireland, St. Paul.
Surgeon-General—W. H. Johnson, Lincoln, Nebraska.

The new commander-in-chief, R. E. Brown, was born in 1848 and has always lived in Ohio. He enlisted in the Fifteenth Ohio Infantry at the age of 17 and served in the Fourteenth Army corps in the army of the Cumberland, until he was mustered out in 1864. He then reenlisted and served until the end of the war. He was a private for three years and then became a non-commissioned officer. He has long been active in the work of the Grand Army.

Pabst Blue Ribbon

Always Pure

A CELEBRATED German chemist recently said: "I learned my profession in Germany; went from there to England, where I studied English methods of brewing for some time, then came to America and entered the employ of a large brewery. Each month we purchased in the open market the bottled beer of our various competitors for purposes of analysis. There was one of these beers that was always the same—never varied—absolutely pure—that was Pabst Blue Ribbon."

Cleanliness and purity are essential for healthful beer, just as they are essential for any other healthful food. And purity and cleanliness are watchwords in the great Pabst Brewery at Milwaukee. Only the exclusive Pabst eight-day malt and choicest hops are used. The whole Pabst process is the result of sixty years' pursuit of all the best known methods in the science of brewing. The Pabst Blue Ribbon label is a guarantee of age, purity and strength, cleanness and the best beer brewed.
