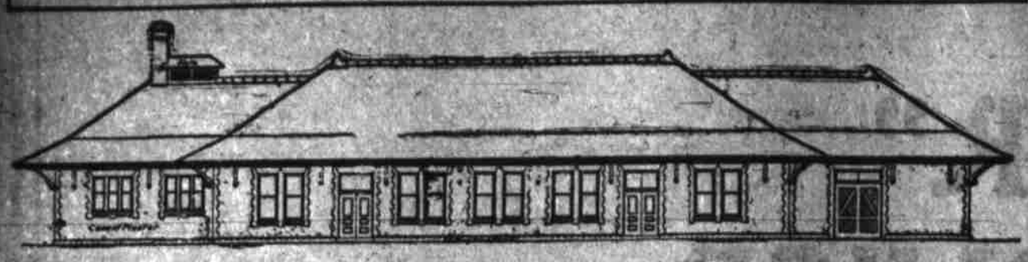
THE NEW O. R. & N. DEPOT AT WALLA WALLA



A handsome new depot, to cost in the neighborhood of $40,000, is to be built immediately by the O. R. & N. Co. at Walla Walla. It will be one of the most modern and substantial structures of its class on the line, and mark an important step forward for eastern Washington's growing traffic center.

Contracts will be let by Chief Engineer Boschke September 5 for the construction of the building. The dimensions will be 165x42 feet, the walls of stucco and pressed brick, the roof slate and the height one story. Inside the building will contain a large waiting-room 40x64, with tile floor and wainscoting, a smoking-room and a ladies' retiring-room similarly finished, a baggage-room 50x24, ticket office, toilets, boiler-room and heating plant.

CATHOLIC CHOIRS FREE OF WOMEN

Female Voices Will Be Dispensed With as Soon as Males Can Be Obtained.

PREFERENCE OF POPE WILL BE FOLLOWED

Local Priests Having Difficulty Obtaining Male Singers Sufficiently Acquainted With Gregorian Music, So Will Make Changes Gradually.

Women's voices must go from the Catholic choirs of Portland as soon as possible. That is the decision of his grace, Archbishop A. Christie, concerning the general decree to that effect sent out by the pope last year. The archbishop allows the necessary latitude in the adoption of the new regime by leaving it to the discretion of the individual priests to decide when their churches are ready to make the innovation. A number of the churches have already made the effort to secure male choirs, but this is a difficult matter in Portland, where men and boys have not been trained in the Gregorian music, which is to be used exclusively.

St. Patrick's church is probably the only one that will start the new church year tomorrow with the revised music plan. This Sunday the male choir will begin its work, with Professor James Burke, John O'Brien and James Gilhooly of the old choir, and the Misses Petrain and Miss A'Hern, who have been with the choir several years, will be absent. Father Murphy expects that the new order will find favor and become popular in time.

The most important change, if made, will be at the cathedral on Fifteenth and Davis streets. There the matter has not yet been decided, for according to the standards set by the leading Catholic church of the city, the music must be of the best, and this will be a difficult thing to accomplish in a short time. The music is under the direction of Arthur Alexander, choir director and organist, and a number of prominent singers in this, the largest choir in the city, are awaiting the decision. Miss Kathleen Lawler, for years the sole soprano, has given up her position to accept a similar one at the First Baptist church. Mrs. Walter Reed has been for a long time contralto soloist. It is probable that the old order will be continued in other churches till later in the year, when the change can be made. St. Michael's and St. Lawrence's churches cannot make the change now. The parochial schools have been instructed by the archbishop to teach the children the Gregorian music, that in time there may be a supply of boy singers.

LOT OF TALK WASTED OVER ILLEGAL FRAME BUILDING

Executive Board Listens to Petition and Plea Made by Freedman Bros.

There was a lot of talk wasted at the meeting of the executive board yesterday afternoon when H. H. Northrup presented the pitiful case of Freedman Bros., junk dealers, who erected a frame building at Twelfth and Flanders, within the fire limits, and have been twice arrested on complaint of Building Inspector Spencer.

The members of the executive board individually promised to keep their hands off the case. The attorney got that much satisfaction. But nothing was done which would prevent Spencer from arresting the Freedmans every day, and it is probable that he will continue to enforce the law.

According to the attorney, the Freedmans have been treated shamefully, as they were granted permission to erect the building, and when it was finished they were arrested. The only trouble with the argument was that Spencer knocked it all out by stating that no plans for the building had ever been filed; that he had ordered the owners not to put up such a building, and that a permit had been granted for an open shed, whereas a four-sided structure was now being erected in utter violation of the permit and of the fire-limits law.

An effort will be made to get the council to grant a special permit allowing the Freedmans to build their structure.
