

START OF THE BRYAN PARADE

Upper photo is a snapshot showing William Jennings Bryan and Governor Folk of Missouri driving through Broadway, New York. Below is a photo showing the battery of cameras surrounding Mr. Bryan at Battery Place as the procession started.

TIRADE OF ABUSE FOR BRYAN

Illinois Committeeman Accuses Nebraskan of Half the Crimes in the Calendar.

SULLIVAN'S WRATH IS VENTED ON COMMONER

Accuses Candidate of Falsehood, Insincerity, of Desire to Rule or Ruin Party and of Being in Politics for Money.

(Journal Special Service.) New York, Sept. 8.—Roger C. Sullivan, member from Illinois of the National Democratic committee, has issued a lengthy statement, in which he replies to the recent attacks made upon him by Mr. Bryan. He disputes Bryan's sincerity, accuses him of falsehood and of an ambition to be an autocrat of the Democratic party. Sullivan says in part:

How to fool a lazy Liver with Artificial Exercise

VERY serious Sickness has a small beginning. And, in nine cases out of ten, that beginning is made in the Bowels.

Constipation is the beginning of most diseases. It paves the way for all others. Lack of exercise, hasty eating, improper food, are its first causes.

Laziness, and postponement, permit it to grow into Chronic Constipation, which means life-long Discomfort.

It isn't necessary to be sick-a-bed, you know, in order to be mighty uncomfortable. Even a slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life.

The time to adjust the Bowels is the very minute you suspect they need adjustment.

—If your tongue is slightly coated, —If your breath is under suspicion, —If your head feels a trifle heavy or dull.

—If digestion seems even a little slow, —If Heartburn, Belching, Colic or Restlessness begin to show themselves, —That's the time to eat a Cascaret.

It acts as pleasantly as it tastes. It is as congenial to your Bowels as it is to your Palate.

It stimulates the muscular lining of the Bowels and Intestines, so that they mechanically extract nourishment from the food and drive out the waste.

The only way to have Cascarets ready to use precisely when you need them is to carry them constantly in your pocket, as you do a Watch or a Lead pencil.

himself on the dictator's throne. I regret that he has done so, as I would regret any incident or circumstance tending toward discord in the Democratic party.

As a Democrat, I regret that Mr. Bryan's rule or ruin disposition has led him to make such a misuse of his influence. But in so far as Mr. Bryan's banquet speech applies to me personally, to my character, to my business, to my associates, to my democracy and to my political acts, I welcome the insinuation and the open challenge Mr. Bryan to the proof of his truthfulness, his honesty and his sincerity—that sincerity which he boasts in his political asset.

Mr. Bryan was not honest, and he was not sincere when he commissioned Nelson, Thompson, Dunlap and Rainey to "purify" Illinois politics and claimed morality as his motive. He was not truthful when he stood up in Chicago on Tuesday evening to explain his position.

Charges Falsehood. "The very first paragraph in Mr. Bryan's speech on me and the Illinois situation contains a deliberate untruth. Practically every succeeding paragraph contains either a deliberate untruth or an equivocation of that kind that we may expect only from the shifty word-juggling pettifogger. Mr. Bryan says he wrote me a letter asking me to resign from the Democratic party. That is not true. Mr. Bryan knew it was not true when he said it. He never wrote me a letter. He did write a letter to Judge O. P. Thompson in which he told the judge to tell me that he (Bryan) wanted me to resign from the Democratic national committee."

Mr. Sullivan then reviews the St. Louis conference, again accusing Mr. Bryan of untruthfulness and repeating that he did not seek endorsement at the hands of that convention and saying he did not attempt to link his name with that of Mr. Bryan. He accuses Mr. Bryan of having advised his particular friends in Illinois to bolt the Democratic ticket. He continues:

Money in Politics. "If Mr. Bryan thinks it wrong to make money out of politics, he should quit making money. Mr. Bryan has not a dollar that he has made out of anything but politics. He tried to be a lawyer; he was a failure at it. He tried to be a newspaper editor; he was a failure at that. He is now a man of property. As fortune goes, he is a rich man. He made every dollar of his fortune out of politics as a stepping stone to the lecture platform."

Mr. Bryan discovered many years ago that he could make his political prominence pay. He is a shrewd advertiser and in his way a clever business man. He has discovered that, so long as he is a candidate for president and a possible nominee, the public will come to hear him as to such a head. He is in politics because it helps the gate receipts. Like the actresses who have discarded the stolen diamond dodge for the greater publicity of a divorce suit, Mr. Bryan will quit running for president and will quit politics just as soon as he discovers that some other form of advertising will bring more dollars to the boxoffice when he is announced to appear on the stage.

An Unusual Distinction. The Duchess of Buecluch enjoys among others the unusual distinction of having been mistress of the robes in two reigns. She is a mistress of the robes, too, who is both a duchess and a duke's daughter. She was married to the then Earl of Dalkeith in 1855, and nine years later, "passed" the strawberry leaves" to the Marquis of Abercorn.

Kindly Conclude. From Smart Set. Old Lady (beating at the threshold)—Is this the smoking car? Conductor—No; but there ain't no one else on board—you can smoke here if you want to.

BUSINESS BOOMS AT KLAMATH

Great Activity Marks Progress of the Reclamation Town in Southern Oregon.

WEYERHAEUSER PEOPLE TO CLOSE BIG TIMBER DEALS

Water and Sewer Systems, Promoted by City Council and Chamber of Commerce, Are to Be Installed in Short Time.

(Special Dispatch to The Journal.) Klamath Falls, Or., Sept. 8.—The proprietors of the steam laundry which was recently destroyed by fire have decided to erect the new building on the Hot Springs tract, where there will be less danger from fire, the work to be started at once. They will also erect some cottages for the employes, the site for the equipment to be commensurate with the growth of the city, and rushed to completion.

R. L. McCormick of the Weyerhaeuser Lumber company and party here just returned from a drive of 150 miles, mostly through rich timber belts. In which they are especially interested, and they hope to close several large deals soon.

General Manager Abbott of the Klamath Lake railroad, of which Mr. McCormick is president, came in this evening, and they together will decide about the reestablishment of the Sunday train. "Almost every evening the two stages from Pokeyama are loaded, and the new line from Grass Lake is also having most encouraging traffic."

Navigation Company Busy. The Klamath Navigation company, which transfers passengers and freight from Lake's landing to this city, is kept busy. They took two barges down Friday for 70 tons of cement and had about 25 tons of miscellaneous freight to bring on the steamer Klamath.

It is encouraging to those who have hoped and waited long for the railroad to see the swath cut through the tules marking the new line, and to see the dredger at work throwing up the road-bed. Forces are being added to frequently where deep cuts are being made farther south, and while the authorities are slow to make promises, the constant increase of construction forces speaks louder than words as to their plans with reference to reaching this city.

A. O. Stears, the fruit inspector, has on exhibition a basketful of Gray-green apples which average nine ounces the largest weighing 11, grown on his lot across the river in this city.

New Sewer System. The city council has instructed the city engineer to submit estimates for a sewer system for the city, and the chamber of commerce at its meeting Wednesday evening passed a resolution unanimously requesting the city council to call an election at once for the purpose of voting bonds for its construction, so that it can be built on Klamath avenue before the railroad is built there.

The chamber of commerce will occupy the east hall of the second story of the new postoffice building when completed, having leased it for a period of two years at \$50 per month. They also appointed a committee to make examination and report whether the Barstow Point on the Klamath Indian reservation 12 miles from the city, is large enough, hoping that an abundant supply of water for the city can be had from there in the near future.

Hot Springs Near. There are several hot springs in this immediate vicinity, and the spring at present supplying the city is not sufficiently cold to be satisfactory in the heat of summer, and at the present rate of growth the city must look elsewhere soon. The spirit of unanimity with which every question which promises the betterment of conditions here is met is encouraging to every resident and investor.

Willie Conking, aged 5, with his 10-year-old brother, at noon Thursday, while preparing to go swimming below Moore Brothers' mill, slipped from a log and was drowned. The body was not recovered for two hours, and no effort was made to resuscitate him. His father, with his family, came here recently from Ashland, and lives in a tent near the mill where he works.

OLDEST INHABITANT. Drakes, the London Zoo's Popular Tortoise, Passes Away.

With the death of Drake, the famous old tortoise, the London zoological garden has lost what was believed to be the oldest inhabitant on earth. No other living creature came within that age by several hundreds of years at least. Nobody knows exactly how old Drake really was. V. Forbin, who contributed an obituary notice and por-
