

SHEEP WILL BE TAKEN OFF SUMMER RANGE NEXT MONTH

Sheep Camp Tenders in Eastern Oregon—Photo by Major Lee Moorehouse.

By Lula R. Lorenz. (Special Correspondence to The Journal.) Pendleton, Ore., Sept. 6.—The accompanying illustration is a realistic reproduction of a band of sheep camp tenders in eastern Oregon. They are fording the Umatilla on their way to the summer range in the Blue mountains.

Early in October the great herds of sheep that have been on the summer range in the Wenaha and Blue mountains will be returned to the winter range.

Each of the shepherds with large bands have a summer range and all have a tender besides the herders. The tender usually has two hands to tend camp for, and each has a full outfit for camp life, for one or more. They sleep out in the open in the summer and occasionally they carry a small tent in case of storm or for storing supplies.

There is no end to the sky. And the stars are everywhere. And the here is over there. And the common seeds of the common day.

Each of the shepherds with large bands have a summer range and all have a tender besides the herders. The tender usually has two hands to tend camp for, and each has a full outfit for camp life, for one or more.

To Get More Strength from Your Food.

WHEN the Bowels are filled with undigested food we may be a great deal worse off than if we were half starved.

The millions of little Suction Pumps that line the Bowels and intestines then draw Poison from the decayed Food, instead of the Nourishment they were intended to draw.

There's only one kind of Artificial Exercise for the Bowel-Muscles. Its name is "CASCARETS," and its price is Ten Cents a box.

One Cascart at a time will properly cleanse a foul Breath, or Coated Tongue.

Don't fail to carry the Vest Pocket Cascart Box with you constantly. All Drugists sell them—over ten million boxes a year.
