\$5.85 All styles and colors, worth to \$11.50.
\$7.85 Fine Serges and Worsted, worth to \$15.00.

BRYAN'S REPLY TO SULLIVAN

Nebraska Refuses to Indulge in Personalities or to Answer Abuse.

MUST FREE PARTY OF CORPORATION CONTROL

Question is One for Voters of Illinois to Settle—With Trusts the Great Issue, Agents of Monopolies Cannot Be Leaders.

(Journal Special Service.)

Lincoln, Neb., Sept. 14.—William J. Bryan's reply to the attack made upon him by National Committeeman Roger Sullivan of Illinois has been made public. It is as follows:

"In his speech before the Jefferson club in Chicago on the evening of September 4, Mr. Bryan referred to the case of Mr. Roger Sullivan, national Democratic committeeman from Illinois. Mr. Sullivan has replied in a statement quite characteristic of the man and his methods, but he will not be permitted to lower this discussion to the level of a personal controversy. The public is not interested in Mr. Sullivan's views of Mr. Bryan, but in the issue which is interested in Mr. Bryan's views concerning Mr. Sullivan, were Mr. Bryan to deal with Mr. Sullivan's personality.

Used Unfair Methods.

"Mr. Sullivan is the Democratic national committeeman from Illinois, holding his office by virtue of unfair methods. This matter was presented to the St. Louis convention and the evidence would have convinced the convention had not the delegates feared the effect of an adverse decision upon the presidential candidate whom they were pledged to support. If Mr. Sullivan disputes the assertion that a considerable majority of the delegates to the Springfield convention were opposed to him, he can fight the question out with the majority league of Illinois, which will doubtless accommodate him.

Democratic Must Decide.

"As Mr. Bryan has not asked for a nomination and has not announced that he will be a candidate, he will not submit the question whether he should be a candidate to Mr. Sullivan or to any body of persons less numerous than the members of the Democratic party of the United States. Neither can the question as to whether Mr. Sullivan be re-elected to the national committee be submitted to the members of the convention already adjourned. Such a decision would have no binding force. The question must be submitted to the Democrats of Illinois when they meet to select delegates to the next national convention and Mr. Sullivan will not be permitted to dodge the issue that is raised against him. He is officially connected with a favor-seeking, franchise-holding corporation and the question is whether the Democratic organization should be paralyzed by the influence of men whose private interests

make it impossible for them to be guardians of the public.

Transfers the Issue.

"In speaking of the Sullivan case at Chicago, Mr. Bryan said: 'I hold that no man who is officially connected with a corporation that is seeking privileges ought to act as a member of a political organization, because he cannot represent his corporation and the people at the same time. He cannot serve the public while he is seeking to promote the financial interests of the corporation with which he is connected.' 'This is the issue. Before the trust question became the dominant one, it was not so important what a man's corporate connections were, but when this question is the supreme question of the hour, the party organization must be above suspicion, and the Democrats of Illinois and all other states are invited to inspect the connections of those who aspire to the position of party managers. The people cannot be fooled and the party that attempts to fool them is sure to learn of its mistake when the votes are counted.

To Fight Monopoly.

"Mr. Bryan will urge the Democratic party to put itself in a position where it can fight boldly and persistently for the regulation of such corporations as are not monopolistic and for the prevention of any private monopoly whatever. To this end, the organization must be composed of men who are free to act for the public and not tied by personal interests to corporations which are seeking favor at the public's expense."

BRYAN ON CITIZENSHIP

Sternal Wakefulness Necessary to Guard Against Special Interests.

(Journal Special Service.)

Cincinnati, Sept. 14.—W. J. Bryan addressed an immense audience at the baseball park last night and was enthusiastically welcomed and warmly applauded. He said in part:

"The Democratic idea is larger than this republic. There is no nation which I have visited in which there are not the seeds of Democracy and in them all Democracy is growing. The man who puts the country above self is the reformer. I have found everywhere men striving to bring government nearer the will of the people. It is not strange that reformers sometimes are discouraged. Some are in our party, some are Republicans, but all unite for better things. Your Democratic mayor was elected with the help of Republican votes. He appealed not to the boss, but to the people, and their conscience responded in his election.

"I am feeling so good over this republic that I am going to tell that Cincinnati was declared Philadelphia in wickedness," he declared. "The boss and his henchmen, the franchise-grabber, the selling of votes, subsidized newspapers, councilmen embezzling public authority—these good people seemed in despair. Yet you did elect an honest mayor.

Mr. Bryan then expressed the fear that the people would go to sleep, thinking they needed to do no more. "Special interests never sleep, while the people are often hard to waken. If the people did not sleep at night, there would be no burglaries, and if citizens did not sleep there would be no dishonest government."

He appealed for the citizens to hold up the hands of the man elected to enforce the law. "Tell him you enlisted for the war," he said.

RICH COAL FIELDS NEAR MEDFORD

Deposits Showing Up to Greater Advantage as Development Work Proceeds.

NEW YORK CAPITALIST HAS TAKEN YEAR'S LEASE

Owner of Copper Mine Will Make Purchase Before Option Expires if Measures Prove Satisfactory for Use in Connection With Smelter.

(Special Dispatch to The Journal.)

Medford, Or., Sept. 14.—In the district east of Medford, along the base of the great coal mining company was organized over such a large territory that the Southern Pacific Railway company was induced to follow up one vein for a considerable distance some years ago, when the expert in charge of the company announced it a broken vein and the work was abandoned.

Local men some time ago while prospecting in the vicinity ascertained that the work done by the Southern Pacific people was done altogether on a slide from the main ledge or vein, and on investigating closely were satisfied that something good was in sight. The Medford Coal Mining company was organized, composed of Medford business men and R. F. Little, with a force of men, was put to work running a tunnel into the hill.

Quality Improved.

The quality of the coal improved as the vein was followed, and when a face of 16 feet of apparently good coal was shown at a distance of 180 feet from the mouth of the tunnel, working samples were submitted to Mr. Carman, superintendent of the Blue Ledge copper mine, who, after thoroughly testing the coal, reported to his company that it would answer all purposes in operating the smelter which that company is preparing to build near the copper mine on upper Applegate river.

When Robert S. Towne, on his recent visit from New York to his copper mine, was in the valley, negotiations were opened with him by the coal mining company, with a view to selling the coal mine to him as an adjunct of the copper mine, coal or coke being an absolute necessity to the copper smelting proposition.

CASTORIA

Bears the Signature of J. C. Watson

necessity to the copper smelting proposition.

Mr. Towne's policy is to investigate the merits of a mining proposition submitted to him thoroughly before buying, and he applied the same policy to the coal mine. He stipulated that the coal company should incorporate and give him a working bond on the property covered by their leases, covering coal mining only, for a period of 12 months, conditioned on payment of \$15,000 should the coal prove adapted to his wants, and after closing the deal he employed R. F. Little to supervise the work of running three tunnels into the mountain to determine fully the extent of the deposit. A full equipment will be provided and when work is under way both night and day shifts will be run in the work of tunneling.

Other Outlets Interest.

Such excellent samples of coal have been taken from the mine during the past few months that other men stood ready to take the property off the hands of the local company at even better figures than those given Mr. Towne, but civic pride and interest induced the owners to give the preference to the Blue Ledge people, as it is fully realized that if the coal proves of satisfactory quality it will mean a railroad from Medford to the Blue Ledge mine, which will be of immense consequence to Medford. While the bond of the Blue Ledge people has not matured, it is practically known that Mr. Towne will buy the Blue Ledge property and that he is already making preparations to erect a smelter and has secured water rights and is now installing an electric light and power plant at the mine and pushing development work on the mine itself. It is conceded now that this Blue Ledge copper mine will prove to be one of the big copper propositions of the continent.

Four Thousand Acres.

The Medford Coal Mining company had obtained leases on about 4,000 acres of land contiguous to the tract where the coal was discovered, and the coal mining privilege for all this large tract goes to Mr. Towne under his bond. In addition to this, however, the promoters obtained a concession in relation to oil which is retained by the local company, who will immediately begin to prospect for oil, having already made arrangements with the well drillers now engaged in drilling an artesian well for the Weinhard company within the town limits of Medford.

A number of wells in the vicinity of the coal mine show strong indications of oil, and during the excitement pertaining to oil of a few years ago, experts stated that the vicinity of the base of Roxy Anna was the most favorable spot in the whole valley to drill a well.

Fruit Land Adjacent.

The foot of this mountain embraces some of the best fruit land of southern Oregon also, and the 1,000-acre orchard of the Western Oregon Orchard company lies close by the mine. Also the road to the mine passes through the famous pear orchard of J. W. Perkins.

Another company has been formed to prospect for both coal and oil on land in the neighborhood of the mine bonded to Mr. Towne.

"This coal and copper, to say nothing of the iron ore indications, may make a city of Medford. The whole valley looks good to most visitors. Situated in the midst of a prosperous agricultural section, renowned for its fine fruit, the city has indeed a bright future.

Here For a Short Time More

We are delayed in moving because we can't get into our new building. These last days are bigger bargain days than before.

There are many odd pieces here that are unmercifully cut in prices. A few of these pieces are in our window. See them.
