Shipments of Grain Are Now Being Received at Points on the O. R. & N.

Three Docks Running With About One Hundred Fifty Strike-Breakers Handling the Wheat—Strikers Still Hope to Win and Look for Sound Help.

The embargo on wheat shipments to Portland is off and the grain will be furnished by the O. R. & N. Co. as fast as the exporters are able to get it out of the way.

At the beginning of the grainhandlers' strike nearly two weeks ago the O. R. & N. sent out notices to its country agents instructing them not to furnish cars to shippers desiring to send grain to the Portland docks.

Between 125 and 150 strikebreakers are said to be at work today on the docks. Three docks are running with what is claimed to be a full force.

(Special Dispatch to The Journal.) Tacoma, Wash., Oct. 5.—Grainhandlers here have made a demand upon the exporters for an increase in their wages from 30 to 35 cents an hour.

A petition has been quietly circulated among the men for several days asking the raise and late yesterday afternoon, after being signed by nearly every one of the 300 grainhandlers employed at the warehouse it was presented to the grain exporting companies.
