

BAPTIZED IN HIS PRISON CELL

George Blodgett, Murderer of Alice Minthorn, Becomes Member of the Church.

HAS READ THE BIBLE SINCE BEING IN JAIL

Says He Has Been Doing Lots of Thinking Since His Incarceration for Terrible Crime Committed in North End Last March.

George Blodgett, condemned murderer of Alice Minthorn, was baptized at the county jail this afternoon by Father Hugh J. McDevitt, assistant pastor of the Cathedral of the Immaculate Conception.

Since his confinement in the jail Blodgett has read the Bible from beginning to end. This morning when he was visited at his cell in the jail by a journalist an elaborate conversation was noticed beginning on the wall of the cell.

In response to an inquiry as to where it came from Blodgett said it had been presented to him by Father McDevitt. "I am going to be baptized today," said Blodgett. "I never thought anything about religion before I got in here.

Blodgett spends most of his time reading the Bible and making fancy articles of colored yarn. "If any one had told me a year ago that I would ever work at a thing like that I would have called him a liar," he said, pointing to a small frame in which was a half-completed stand cover. "But I take a whole lot of pleasure in doing things like that now."

On March 23 Blodgett shot and killed Alice Minthorn at the Varsity hotel. His trial was begun in the circuit court April 13 and lasted five days. A jury found him guilty of murder in the first degree and he was sentenced by Judge George to be hanged. The date set for his execution was June 25. "An appeal to the supreme court was taken and a stay of execution granted. Blodgett is being held in the county jail pending the decision of the supreme court. It is believed the supreme court will pass on the case in about a month. "I am very well satisfied here," declared Blodgett this morning. "I have a home here and only liberty is lacking. Sheriff Stevens and Jailor Mitchell treat me very well."

SAYS MILLIONAIRE CROOK CAUSED ADAMS' DEATH

(Journal Special Service.) New York, Oct. 9.—The coroner's jury today decided that Al Adams' death was a case of suicide. The inquest was lively. Coroner Harburger declaring that Adams was killed by a "millionaire crook" and intimating that he was responsible for Adams' death.

GOULD ELECTS SLOCUM DIRECTOR OF WABASH

(Journal Special Service.) Toledo, Ohio, Oct. 9.—Wabash railroad directors this morning elected J. J. Slocum to succeed Russell Sage in the directorate. Ramsey was not present, but Gould was in fighting trim, with proxies from a majority of the stockholders.

(Journal Special Service.) Washington, Oct. 9.—The Old-Time Telegraphers' and Historical association and the Society of the United States Military Telegraph Corps began their twenty-sixth annual reunion in Washington this morning with a business session at the Hotel Arlington. Excursions, receptions and a banquet are features of the entertainment program.

(Journal Special Service.) Washington, D. C., Oct. 9.—A big parade was the feature of this, the second day of the national encampment of the United Spanish War Veterans. Regular soldiers, sailors and marines, the Grand Army veterans, and other military organizations joined with the Spanish war veterans in the procession, which was witnessed by thousands of spectators.

Preferred Stock Canned Goods.

Allen & Lewis' Best Brand.

THE BEST DOCTOR.

Rev. B. C. Horton, Sulphur Springs, Tex. writes, July 10, 1902: "I have used in my family Elder's Kidney, Liniment and Horsebalm Syrup, and they have proved certainly satisfactory. The liniment is the best we have ever used for headaches and pains. The cough syrup has been our doctor for the last eight years." Sold by Woodruff, Clarke & Co.

FINE GOLD BAND BRACELETS

LUMBER IS PURCHASED FOR GRAND TRUNK TERMINAL

Town of Prince Rupert to Be Created in Mushroom Fashion.

(Special Dispatch to The Journal.) Victoria, B. C., Oct. 9.—One million feet of lumber have been purchased on Vancouver Island for shipment almost immediately to Prince Rupert townsite, on Kasten Island, which is to be the terminus of the Grand Trunk Pacific. This will be used to construct buildings for business purposes to be erected at the place as the beginning of a city. Prince Rupert will be the first British city that is typical of American methods of the mushroom order. There was selected for the site on the north of Fort Simpson and on a harbor that is said to be second to none on the Pacific coast. The new Grand Trunk Pacific, for construction of which the government guarantees interest and principal of the bonds. The road is surveyed and finally located the entire distance. After it reaches Edmonton the route follows the Fraser river through the Cascade and Rocky ranges, which nearly pinch out at this point. The road crosses the Coast Range at the lowest pass on the coast. Prince Rupert is expected to become the Pacific coast center of Canada's domestic and oriental trade.

MASTER FISH WARDEN MAKES HIS REPORT

(Special Dispatch to The Journal.) Salem, Ore., Oct. 9.—H. G. Van Dusen, master fish warden for Oregon, has presented to the state board of fish commissioners his report for the month of September. The receipts of the office in district number 1 from fines and penalties imposed have been \$24.91; the amount from licenses was \$590, making the total receipts \$614.91. In district number 2 the receipts were \$1,478.40 and the total receipts in both districts were \$2,143.31. The total disbursements amounted to \$1,469.25. There were about 12 prosecutions during the month for violations of the law and of these but one was in the second district.

The report deals at length with the work of collecting the eggs at the various hatcheries. The McKenzie river, the Salmon river, the Willows river, the Umpqua river and the Stuwah river hatcheries have been the means of bringing about an extremely large collection of Chinook eggs. At the other coast hatcheries and at the Ontario hatchery on the Snake river the work of taking the eggs has not yet begun. At Grand Rapids the eggs are being laid to spawn about the middle of October and are all through by the middle of November.

CREAMERY COMPANY BANQUETS FARMERS

(Special Dispatch to The Journal.) Forest Grove, Ore., Oct. 9.—Saturday was a big day for the farmers of this vicinity. Over 500 patrons of the local plant of the Pacific Coast Condensed Milk company answered the invitation of the superintendent to be present at a meeting here. The patrons began arriving early in the morning and were cordially welcomed by the officials. President A. E. Stuart of the company and H. E. Barber, whose offices are at Seattle, were present, and with the aid of Superintendent H. Stuart of the local plant, spared no effort to make it pleasant for their patrons. The plant was inspected and the farmers were given a chance to see how the milk they brought to the condenser was changed into "condensed milk." At 11 o'clock they were all ushered to the new wing of the large plant and were banqueted in a royal manner. At 1 o'clock in the afternoon H. Stuart called the patrons to order, as a large number of good speakers had been secured to address them.

CABINETMAKERS JOIN MILLMEN IN STRIKE

(Journal Special Service.) San Francisco, Oct. 9.—The millmen's strike situation is unchanged. The strikers say that all but 12 mills have granted the demand for the dollar increase and they expect them to capitulate shortly. The millowners say 23 mills are idle and will remain so until the men modify their demands. Nine large establishments employing cabinetmakers were closed today as a result of a strike of the employees, who demand an increase similar to the millmen's.

NATIONAL PURIFIERS HOLDING CONFERENCE

(Journal Special Service.) Chicago, Oct. 9.—The National Purify conference met today. Anthony Comstock was absent. "White Slave Traffic in Cities" was one of the topics discussed. Marie Lydia Winkler, a German delegate authorized by the Kaiser to investigate the alleged importation of German women to this country for immoral purposes, is an active attendant.

To Improve Mississippi.

(Journal Special Service.) Minneapolis, Minn., Oct. 9.—The upper Mississippi River Improvement association, which has for its object the securing of appropriations from congress to permanently improve the upper Mississippi from the mouth of the Missouri to St. Paul, began its fifth annual convention in this city today.

GOLD MOUNTED BACK COMBS

Baking Powder Absolutely Pure

DISTINCTIVELY A CREAM OF TARTAR BAKING POWDER

Royal does not contain an atom of phosphoric acid (which is the product of bones digested in sulphuric acid) or of alum (which is one-third sulphuric acid) substances adopted for other baking powders because of their cheapness.

Royal Baking Powder Co., New York.

LILLIAN RUSSELL SCORES FAILURE IN FARCE

(Journal Special Service.) New York, Oct. 9.—Lillian Russell, after jumping from comic opera and burlesque, made her metropolitan debut in the legitimate last night at the Savoy theatre, and also scored the failure of her life. Her play was entitled "Barbara's Millions," and she had a California heiress as the heroine. She had an excellent company, but was handicapped by a poor play instructed by Paul Potter. The World says: "Her efforts to display them also displayed the fact that she lacks totally the sense of character, without which her ambition to get out of the artificialities of comic opera into the grotesqueries of farce is futile."

CHIEF OF POLICE DEFENDS HIMSELF IN DAMAGE CASE

(Journal Special Service.) New York, Oct. 9.—Chief of Police Gratzmeyer is defending himself against the suit of Peter Johnson to recover \$10,000 from him for alleged malicious and wrongful imprisonment. A jury to hear the suit has not yet been secured, the regular panel having been exhausted in obtaining a jury to hear other suits. Judge Gleason ordered a special venire of 50 men and all forenoon deputy sheriffs were busy serving subpoenas on taxpayers who were passing the courthouse on other business. Johnson alleges that he was imprisoned in the city jail by Chief Gratzmeyer without a warrant or probable cause; that his friends were not permitted to visit him, and that by reason of his imprisonment he was ruined and wounded \$10,000 worth. He states that he has resided in Portland many years, and has always borne a good reputation. He Yanckwich appears as attorney for Johnson. Chief Gratzmeyer is represented by Attorneys John F. Logan and R. Morrow. Johnson was charged with a statutory offense against 16-year-old Mabel Lavery. At a preliminary hearing in the police court the charge was dismissed.

NO STRONG DOORS

(Continued from Page One.) obstructed by from one to three doors, one of them a heavy door, strongly hinged and barred inside. All the hallways are also guarded with a small door, waist high, set with spring hinges. "These obstructions in such narrow, crooked passages are in case of fire a menace to the lives of the occupants and greatly endanger the surrounding property." A list of the street numbers where such doors and barricades were found is appended. "We will let them know that the construction of an iron-bound door is evidence of bad faith," said the mayor this morning after he had received the report. "The fire officials find that such doors are a menace to the surrounding property as well as the lives of the people inside the buildings and they cannot be allowed to remain." "Will any games run without the doors?" he asked. The mayor smiled. He hasn't forbidden fan-tan—only the doors. "Word Acquainted With Them." These doors are the obstacles which ex-Sheriff Word encountered while on his famous raids in Chinatown. On a number of evenings Word and his deputies were in the habit of hammering down iron-bound doors in order to gain admittance to a fantan game. The instant the posse showed up in the neighborhood the keen-eyed lookout sounded an electric buzzer which gave the alarm inside. Then the heavy doors were hurriedly closed and barred and the gamblers had plenty of time to make their escape. Consequently Word's raids were not very productive of prisoners, though they made his name a terror along Second street. "It takes too much time to hammer down a door in case we want to get in," says the mayor.

SOUTHERN STORM

(Continued from Page One.) Lacey & Co., who had sent Mr. Thrane, a member of the firm, to this coast to invest several millions for eastern and southern clients, will drop everything excepting tracts under immediate investigation. Mr. Thrane said: "I am advised that the southern tornado was very destructive and the principal losses were timber owners. The storm passed through some of the heaviest timbered counties and laid every tree for miles. Southern pine, like spruce and hemlock, is perishable, and when once down is quickly lost if not cared for. It is quite different from fir and cedar, which can lie on the ground several years practically without damage."

EXPORTERS UNABLE

(Continued from Page Two.) Brown & McCabe were depended upon to furnish this, for Captain Brown had previously announced that when he was asked to load he would load, if it took every cent he possessed. The office of the stevedoring firm was all bustle and hustle this morning, but this afternoon it was closed, all the employes presumably being out on a still hunt for workmen. The union longshoremen waited in vain in their headquarters at Front and Burnside streets for orders to load the Genevieve. Though the union had notified Brown and McCabe that they would refuse to handle grain trucked by strikbreakers, it had been announced, both by the stevedoring firm and by Balfour, Guthrie & Co., owners of the cargo, that the unionists would be given the first chance to do the loading. The longshoremen had planned to go over to the dock which called upon, there to make a proposition for a settlement between the strikers and their employers and to refuse to work if the settlement could not be effected. But Captain Brown evidently thought there would be no use of calling upon the longshoremen and so went out to find a crew of stevedores without consulting them.

SOZODONT CLEANSSES AND BEAUTIFIES TEETH

SOZODONT CLEANSSES AND BEAUTIFIES TEETH

SCAPPOOSE PLANS CORPORATION

People of Thriving Town Intend to Keep in Line With Their General Prosperity.

DOCTOR IS NEEDED TO HANDLE BIG PRACTICE

Chapman Timber Company is Running Logging Spurs Through Fine Timber and Has Model Camp for Its Two Hundred Men.

(Special Dispatch to The Journal.) Scappoose, Ore., Oct. 9.—With the unbroken prosperity which is being experienced in Scappoose and the surrounding country, there has been a movement set on foot to incorporate the town. The movement is backed by the public-spirited residents and will be pushed through to a successful culmination within a short time. Scappoose now has about 200 inhabitants and is growing rapidly, new arrivals from the coast being here to settle by the scores. With a fine school, two churches, a good depot, a planing mill, three saloons, two blacksmith shops, a new hotel, two restaurants, a public hall, a barber shop and a dentist, the religious and commercial lines are well represented. A site has also been purchased upon which a new Roman Catholic church is to be erected. There is but one profession to be filled as yet, as there is no physician located here, a doctor is needed. A good practice would be offered and it is believed a member of the medical profession will be numbered among the residents of the town. There is great activity in the building line, a number of new structures having already been completed and more being in the course of construction. Country is Prosperous. In the surrounding country there is also great prosperity. A score of creameries and a number of sawmills are located in the country tributary to this place. There are fine farms upon which all kinds of grains are raised and large stock ranches are being successfully conducted, while orchards abound where as fine fruit as any in the country is grown. The enterprise of the Chapman Timber company, which is operating in this section, has brought the lumbering industry in this vicinity up to a higher plane than most places in the west. The country is being crossed with a network of logging spurs and connections are made with the N. P. and P. & S. W. railroads. The Chapman company has about three miles of logging road inside the timber line now and has the right of way for its main line cleared as far as the forks of Scappoose creek, toward the Nehalem valley, which is the general direction in which it is building its line, among other novel features of the Chapman company's work is a 13,000-foot trestle at Willamette mouth. Under Superintendent West nearly 200 men are at work for the Chapman company and about 100 are employed in what is known as the finest lumber camp on the Columbia river. This company has just set up six donkey engines, five of which are now in operation and the sixth, which is reported as the largest in the Columbia camp, is nearly ready for use.

MURDERER OF SNYDER

(Continued from Page One.) of Rogers and also by the name of Bell. He had other names in various localities where he lived. On his return to Kansas City Perry told a number of his friends that Leonard Bell had visited him during the night of the robbery and was now trying to ascertain whether or not he was the man who had killed Bell. Leonard Bell has a criminal record in this country that is rarely equalled in daring and success. Though he has succeeded in escaping punishment for a number of the crimes with which he has been charged, he has also been convicted. He was arrested in Clay county, Missouri, for attempting to rob a bank and as a result served seven years in the penitentiary at Jefferson City. He was to be expert in the use of nitroglycerin. He was formerly a cell-mate with Perry and it was in a prison cell that the woman who afterward became Mrs. Snyder met the man she accused of the murder of her husband. Leonard Bell is now in the custody of the police in Hillsboro. He was arrested in Clay county, Missouri, for attempting to rob a bank and as a result served seven years in the penitentiary at Jefferson City. He was to be expert in the use of nitroglycerin.
