Don't Speculate---Invest

I Have Made Millions of Dellars for Thousands of People by My Patents

I expect to make millions more. This stock has increased in value more than 100 per cent since September 1, 1905, and should make you a life income in handsome dividends. Be a safe and sane investor and get as much of the stock as your means will allow. The natural increase of business and inquiries for motors has forced the price of stock up several times. It will soon go higher.

#### The Bidwell Patents Will Double the Capacity of Any Motor

I never made an unsuccessful invention. My first invention was the electric fun, just as it is run all over this country in hot weather. I didn't get a patent on it, but see what a tremendous success it is!

I next invented the Trolley Car System, just as it is run today. I made it perfect and successful right from the start. It has never been improved since I invented it. Look at the millions of money it has made for the stockholders. The stock in the trolley manufacturing companies sold below 15 cents a share in 1525 and 1524. Poor men could buy that stock then. Thousands of them did buy it, and every one who hald on to it is a rich man today.

#### No Man on Earth Ever Lost a Penny He Invested With Me

If so, I will make it good. Next I invented the Railway Car Telephone System. It is a system by which passengers or train crews can telephone from still or moving cars anywhere the same as if scated in an office. It is a more perfect system in operation than any other telephone you over saw. This is on the road toward millions for the stockholders.

#### This Is My Greatest Invention

New I have invented something bigger and greater than either of the above. It is called the Bidwell Cold Motor. It is guaranteed not to burn out, and is exactly the kind of a motor the steam railroad people have been looking for. It will change all the steam railroad systems over to electric roads, because it will be cheaper to run than steam and can be run faster and more safely than any present method.

The one drawback the railroads have had in changing over to electricity has been that no motor as at present made can be run 150 miles at 50 miles an hour without burning out. It would melt the very wires.

By using the Bidwell Cold Motor a train of cars could be run from New Tork to Sah Francisco without a nitch.

Besides running faster, they would be more safe and sure than steam, cost less to operate, and would hast longer than any other motor now known.

The Bidwell Cold Motor is the greatest invention out since I invented the trolley car.

In stock will be sold on the aquare. There will be no hocus pocus about preferred or common stock, nor any other scheme, trick or wrinkle by which anybody can be frozen out.

Every dollar invested will represent one hundred cents of the best stock.

Every share will be exactly like every other share. The profit on every share stock is fully paid and non-assessable.

I have a lifelong reputation for square dealing. I will personally see to it that every stockholder gets a square deal on this.

More money is made every day by good judgment in investing money than by all the labor and wages in the country. Safe and shrewd investments in this stock will make fortunes.

You will never get rich on wages. No one ever did. Every man in this world who ever get big money got it either by speculation or investment. Speculation is unsafe. You stand more chance to lose than you do to make. Investment are right the other way. Make a safe investment and it is sure to bring you returns.

Don't healtate about this stock. It is absolutely safe and sure.

### Here Is an Important Point to Remember

There pever has been a failure of consequence in electrical manufacturing. Stop and think of that. All are immensely successful. All pay big dividends and have made their investors wealthy.

This company will soon be one of the biggest in electrical manufacturing in the world.

This is bound to be so, because there is not a place now where a motor or generator is used but will have to some or later change for the Bidwell Cold Motor or Generator. Why? Because we make something better than any other kind known.

#### Hetty Green, the Richest Woman in the World, Says: "The Way to Get Rich Is to Invest in Necessities."

The Hidwell Cold Motor is one of the greatest necessities of the twentieth century. This stock has already taken five jumps up. Now is the time to buy. It will soon advance. The profit is yours. Don't speculate—invest. Here you have a necessity. Look at this list below. Every one of these people made his fortune by supplying some great necessity:

Peter Cooper McCormick Vanderbilt Carnegie Rockefeller Whitney Belmont Senator Clark Mackay Marshall Field Heinze Pillsbury Studebaker Leiter Armour Fairbanks Swift

Frick Morgan Edison Stanford Moore Leeds Harriman Pullman

Here is the way manufacturing stocks in necessities jump: And this is only a few. Safer and surer than life insur-ance or trust stocks. All this advance has been made in 10

#### These Are Cold Facts—You Must Act Quickly

If you want some of this stock at the present low price you must come in now. There is only a small amount to be sold at the present price.

I firmly believe that within a short time the stock will be selling at 15 a share. This is your opportunity. It is a case of come quick or not at all. As to our reliability and financial standing we refer you to any commercial In order to make it possible for every man and woman to get in with me on this big deal I have decided to sell the stock for a short time only at the following prices:

#### REPUBLICANS ARE **GETTING READY**

Laying Deep and Intricate Plans to Capture Important Offices at Next Election.

The local Republicans are getting ready for the next campaign. They say they have the men and the people have the offices, and they are forming an organization that will bring the two into more harmonious relations from party and financial standpoints.

Shortly after the last campaign some of the prominent members of the G. O. P. who wondered how it was that in a state so overwehimingly Republican a Damocrat could win the governorship, asked F. E. Reed to discover the cause. Mr. Reed had been an activa worker in the political vineyards of the east and had gained some experience from young Carter Harrison, Mayor Dunne and others in Chicago; his answer to the question, "Why can't we get the offices?" was succinct.

"You have no organization."

The Republicans told him to go out and get an organization which would win offices and the emoluments thereof; for some months Mr. Reed has been engaged in the good work, which has reached a point where progress has to be reported.

It is said that over 2,000 voters from the 56 precincts in the city's 10 wards have been enrolled in the army that is

the 66 precincts in the city's 10 wards have been enrolled in the army that is the 66 precincts in the city's 10 wards have been enrolled in the army that is ready to march to the polls in solid phalanx and smatch the remunerative office from the ballot box. Already nearly 100 loyal Republicans have agreed to finance the organization, whose leaders say that at election time not one cent will be taken from the candidates. The services of the machine will be as free as air. Good government, the improvement of the city, the rewarding of bonorable men who for years have fought and been hied in the party's interests are the objects desired. The expenses of the organization will be met by the involuntary contributions of those who cannot be restrained from giving.

The block system will be used in perfecting the machine. In each block one of two men will represent the organization; these will report what's doing to a precinct Heutenant, who will tell the captain, who will carry the news to Teddy. Teddy will determine what should be done to the man on the block who refuses to ride the elephant. Punishment will include many things, from refusal to buy groceries from him to ostracizing his babies on the block.

The organization has no officers yet, but a meeting will be held in the near future when what promises to be a very important factor in the political life of the city and state will be launched under the management of Mr. Reed, from whom politics and politicians withhold few secrets.

#### Which You Pay When Cured

I want to impress it upon every weak man that can make him strong, vigorous, healthy, alert and free from every taint of disease and weakness. I have limited my specialty in practice to only a few of the more important disorders, as that I could KNOW these thoroughly. My experience along this one path for twenty-five years qualifies me to say positively that such troubles as Spermintorrhoes, Lost Vigor, Varioocele, Sydrocele, Gonorrhoes, Syphilis, Stricture and "Weakness" can be cured perfectly—so as to stay cured. Of course I use different methods than the ordinary physician. Most of these are original with me and were devised for just such cases as the ordinary courses of treatment fall to

#### The Scientific Treatment of Weakness

Dosing the system with powerful stimulants and tonics in an effort to restore functional vigor can have but one final result: The condition is rendered worse than before. "Weakness" is merely an indication of a low form of inflammation in the prostate gland, and this inflammation is but aggravated by stimulating ramedles that excite temporary activity. I employ the only scientific and fully effective treatment for "weakness," which effects a permanent cure by restoring the prestate gland to a sound and healthy state. I obtain complete results in every case I treat. Interesting literature and a beautifully engraved chart free if you will call.

#### Examination Free

I offer not only FREE consultation and advice, but of every case that comes to me I will make a careful examination and diagnosis without charge. No ailing man should neglect this opportunity to get expert opinion about his trouble. If you cannot call write for Diagnosis Chart. My offices day from 9 a. m. to 9 p. m. and Sundays from 10 to 1 only.
