

SEASON HAS BEEN SUCCESSFUL

Nearly Half Million People Visited the Oaks During the Summer Months.

NEW ATTRACTIONS WILL BE THERE NEXT YEAR

Improvements Will Be Completed and Amusements Installed in Order That Resort Can Open Much Earlier Next Season.

According to the superintendent of the Oaks, D. C. Freeman, more than 450,000 people have passed through the entrance gates since June 5, the date of the delayed opening.

Next season, according to Mr. Freeman, will begin much earlier, as the management will see to it that all features are provided for and improvements made before the time set for the commencement of the summer's run.

Many new amusements devised will be provided by the management for next year and great changes will be made in the arrangements of the grounds.

A baseball diamond, tennis courts and other athletic features will be made for the little amusement hunters and sand piles for the tots will be put upon the grounds.

The park will be closed, with the exception of the skating rink, from this time on until the spring opening next May or June.

PROMINENT WANDERERS ARE RETURNING TO PORTLAND

Business Men Coming Back After Trips of Inspection and Recreation.

After several weeks spent investigating business conditions in San Francisco and the east, R. R. Hoop, president of the chamber of commerce, and Pacific coast representative of the United States corporation, will reach home today.

William McMurray, general passenger agent of the Harriman lines in the Pacific northwest, will arrive home today from Chicago, where he has passed several weeks in conference on passenger traffic matters and questions arising out of the new law affecting railroad rates.

Edward Cockingham, cashier of the Ladd & Tilton bank, and president of the Tacoma Eastern railroad, will return tomorrow morning from a week's business trip in Washington.

Governor Chamberlain and Jefferson Myers have returned from a trip of inspection of the country in the vicinity of Burns, Harney county. They were forcibly impressed with the vast stretches of that region that are already productive or can be made so by ordinary agricultural development which is expected to follow the advent of railroad transportation through central Oregon.

C. E. Linn, president of the United Railways company, who has been in New York City most of the time since his departure from Portland a few weeks ago, is expected to arrive here during the coming week.

PORTER KICKS TRAMP UNDER WHEELS OF TRAIN

John Detka is Killed While Attempting to Steal Ride on Pullman.

(Special Dispatch to The Journal.) Salem, Oct. 13.—A man who gave his name as John Detka was fatally injured yesterday while the overland was passing at the intersection of Twelfth and Court streets. He died five minutes after having been taken to the hospital. It was being taken there his assistant that he was riding on one of the Pullmans and that he was kicked off by the porter.

Detka was accompanied by George West, a knight of the road, who also was stealing a ride on the same coach. He missed his partner when reaching the depot and he together with Night Officer Busick went to see where the man was, and he was found lying across the track in front of the rapidly advancing second section.

An ambulance was sent for and the man was taken to the hospital. He was of dark complexion, weighed about 150 pounds and was five feet six inches tall and about 29 years of age.

WILL BUILD CITY

(Continued from Page One.)

age and the time consumed in bringing the cargo business to this point. St. James is expected to become the Everett of the Columbia river basin.

The Hill companies have, it is said, secured control of all the land in the vicinity of the proposed townsite. There will be no speculation in the month of the state investors and development projects will be asked to come in.

Hill's determination to build an ocean port at Gray's bay will commit him fully to the improvement of the mouth of the Columbia river by completion of the jetty. It may be expected that all the power and influence of the Northern Pacific, Great Northern and Burlington political departments will be thrown into the scale in favor of appropriations for future work. If the Gray's bay project becomes a reality, it will be impossible to send the largest ocean steamers over the bar until the channel has been deepened. By the time the Portland & Seattle is completed from Kennewick to St. James, Great Northern engineers hope that the channel will have been deepened to 40 feet and access given to all ocean-going vessels.

"When you have 40 feet on the Columbia river bar we will send our ships to Portland," Mr. Hill declared at the Portland banquet where he was a guest of honor.

HEARST HAS REPUBLICANS

(Continued from Page One.)

have brought the fear of Hearst once more into the Wall street mind, and caused a general selling of stocks today. The market weakened decidedly, prominent among losses in early trading anywhere from a half to a point compared with yesterday's closing prices.

It is learned that Hearst's star company, the New Jersey corporation which is the "holding" company for his various publishing corporations, does not appear on the books of the secretary of state, or of the state controller.

There is nothing to show Hearst ever paid the slightest attention to the law requiring foreign corporations to take out a license or do business in this state. The state controller never paid any corporation tax under the laws of this state, so far as the state controller's records show.

It appears that Hearst's star company does business like the Northern Securities company. It is pointed out that Hearst is thus guilty himself of the crime for which he has so loudly condemned the trusts, the crime of concealing a great business by such a way and so entangled legally that responsibility cannot be fixed upon it.

Candidates Hughes and Hearst ended tonight as lively a week of energetic campaigning as their most loyal partisans could wish. Hughes' tour has been regarded as a great success. He has addressed in the aggregate over 50,000 voters and has been accorded enthusiastic receptions everywhere. He will continue his valuable activity next week.

Hearst has also been reaching the ear of the farmers all the week, with apparently satisfactory results. His suddenness as a rule are quite demonstrative. Confidence is expressed by Charles F. Murphy that the disgruntled members of the Oregon Independence league county committee, who are clamoring for recognition, will be unable to make trouble, and that there will be no third judicial ticket nominated by the league in explanation. The Independence league is itself a corporation controlled by Hearst. Without his consent no third ticket under the name of the Independence league can be placed in the field, and as Hearst has practically endorsed the Tammany Hall judiciary nominees, Murphy is therefore not doing any unnecessary worrying.

STOCKMEN MEET TO SECURE ALLOTMENTS

Wallawa, Or., Oct. 13.—A meeting will be held in Wallawa for the stockmen desirous of securing a permit for grazing in the Wallawa or Clifton area. The meeting is for the grazing season of 1907, November 5, 1906, for the purpose of allotting the range. A. F. Porter, chief of the section of grazing of Washington, D. C., will be present at this meeting to take care of the grazing situation with the stockmen.
