GENERAL LOCKOUT IF ARBITRATION PLAN FAILS

ALL UNION MEN IN CITY MAY BE THROWN OUT BY GREAT OPEN SHOP SCHEME

Exporters Determined to Crush Unions by Sweeping Plan to Oust All Members

Threaten to Import Multitude of Strikebreakers of All Kinds and Make Portland Wide Open Town as Far as Labor is Concerned.

If the arbitration plan fails there will probably be a general lockout, not only of all union men from the waterfront, but of practically all union men in Portland. It will lead to the importation of strike-breakers and to the establishment of the open shop throughout this city. Statement of W. J. Burns, publicity agent for the exporters' association.

A gigantic plan to make of Portland an open shop town from one end to the other is being considered by the members of the Exporters' association and other large employers of labor in sympathy with them.

If the exporters and grab handers in joint conference this afternoon do not come to an agreement whereby the waterfront strike may be settled by arbitration, efforts will be put forth at once to put this plan into operation. Not only will all members of the waterfront federation be told to look for other jobs, but other employers of organized labor will discharge all union men working for them, if the plans do not miscarry.

Rumors of such a move have been current along the waterfront for the past two days. Today they were frankly confirmed by W. J. Burns, at the close of a meeting of the Exporters' association.

Big Union Struggle. Union men seem to be in the hands of the Citizens' alliance, which is the most aggressive enemy of organized labor in the United States and which is said to number many large employers of labor in its membership rolls. Though admitting that general movements to establish the open shop in other cities have been made in the past by the Citizens' alliance, the unionists say that they are not afraid of anything of that sort being extensively put into operation here. A general lockout of the unionists on the waterfront is being threatened.

BETTER TRAIN SERVICE FOR VALLEY PEOPLE

Southern Pacific Responds to Demand of Public by Arranging for Improved Service to Go Into Effect Before the End of the Month.

Responding to demands made for the last year or two by people in the Willamette valley, the Southern Pacific company has granted a new train service that will work a great change in the matter of accommodations and business travel between Portland and Springfield, Sheridan, Lebanon, Albany, Brownsville and other points. Three new trains will be put on and the time of the two present trains will be changed. The changes are effective October 23. Beginning on that date a new daily passenger train will leave Springfield at 5:30 a. m., arrive at Woodburn, 87 miles, at 9:05 a. m., and connect with the Cottage Grove local, which hereafter will reach Portland at 11 a. m. instead of 10:45. Returning in the afternoon, the Cottage Grove local will leave Portland at the same time it now leaves, 4:15 o'clock, and connect at Woodburn with the Springfield train leaving Woodburn at 7 p. m., and arriving at Springfield at 10 p. m. Effective on the same date the company will start two extra trains daily between Lebanon and Albany, 18 miles. The same equipment will serve these trains and make two round trips daily connecting with the Cottage Grove local.

MCKINLEY NOW WORKING FOR GAMBLING DEN

Former Land Fraud, Broke in Tientsin, China, Keeps Soul and Body Together by Spinning Roulette Wheel for Celestial Gambling Master.

Horace Greeley McKinley, who for some time has been designated as one of the land fraud kings of the state, has fallen from his lofty station since leaving Portland, according to a personal letter that has just reached this city, and is now occupying his time at Tientsin, China, in keeping a roulette wheel revolving under the eyes of an oriental master who has learned the art of the white man's gambling device.

McKinley left this country and his wife, Mrs. Marie Ware McKinley, going from San Francisco to the orient in company with "Little Egypt," returned for her starting money. His sudden departure was quite a shock to the government land fraud prosecutors, who had counted strongly on the support of the gentleman's testimony in the important cases which were soon to come up for trial.

His Adventures Abroad. Every effort was made to recover the presence of the distinguished land fraudster and partner of S. A. D. Puter, but owing to the fact that his extreme virtuality a misdemeanor against the government, was not extraditable he could not be brought back to Oregon. His first venture was in the brokerage business in Shanghai, but in this he proved to be a lamentable failure and the firm was dissolved. His English partner deciding that however much a success McKinley might have been as a land fraud thief his talents did not run much to the stock game.

Following the dissolution of the Shanghai firm McKinley experienced unpropitious success in some time and then having drifted to Tientsin became entirely broke and sought and obtained a position as tender of a roulette wheel in one of the big gambling dens of the Chinese city. At last reports he was still holding the position and was once more beginning to appear sleek, prosperous and contented.

Premier Election Designs. Paris, Oct. 18.—It is officially confirmed that Premier Sarlin has resigned to take effect tomorrow.

AIR DETAILS OF PROPHET DOWIE'S SCANDALOUS LIFE

News of the Women Who Figure in Alleged Dual Existence of Elijah the Restorer to Be Made Public in Leaves of Healing This Week.

Chicago, Oct. 18.—News of the women who figure in the scandal and the charges of a dual life against Alexander Dowie will be given, with explicit details of their relations with the fallen prophet of Zion, when the charges which led to the overthrow of the "First Apostles" are published in full in the Leaves of Healing on Saturday. This was announced today by Overseer Wilbur Glenn Voliva, who outlined what the charges are to be. "I shall not only publish the names of these women," said Voliva, "but I shall give the names of witnesses who can substantiate every detail of the charges. Dowie's scandalous secret life will be fully exposed. "I have sent notice to Dowie of this plan, and have offered him space in which to make an answer. Each charge to be mentioned has been made known to him. He can answer each one, but I do not believe that he will attempt to defend himself in the face of our evidence. "The charges to be published," continuing Voliva, "are those that led the church to rise in indignation against Dowie and depose him. "Dowie will go to his grave before he will answer any of the charges made against him," said Overseer Spetcher.

FLORIDA IS SWEEPED BY HURRICANE

Tropical Gale Raging on Peninsula and Driving Up Atlantic Coast. Wires Prostrated

Cuba Devastated and Cables Down—Wind Attains Velocity of Forty-Eight Miles an Hour and Rain Falls in Torrents—Houses Demolished.

(Journal Special Service.) Miami, Fla., Oct. 18.—A tropical hurricane from the south has swept through the West Indies, devastating Cuba, and is now raging over the entire Florida peninsula, driving northward along the Atlantic coast. The wind has a velocity of 48 miles an hour, and the rain is falling in torrents.

Wire communication with Cuba was cut off last night and wires are prostrated throughout the state. Jacksonville is the southernmost point the waves reach this noon. The gale here is increasing in velocity. The path of the storm is marked by uprooted and unroofed buildings and uprooted trees. The storm is likely to sweep along the Atlantic coast as far north as South Carolina. The weather bureau states that navigation will be unsafe for 48 hours. Storm signals are displayed from Jacksonville to Norfolk.

No advices have been received from Cuba. It is recorded that the tropical disturbances are of small diameter but of great severity. Before the Havana cable was lost the operator said that the land lines to the interior were down and that Havana was deluged. It is reported that great damage occurred in the provinces. The last message received mentioned the fact that there was "a big cyclone in Havana," and that the storm was leveling the land wires leading from the cable hut.

TWENTY MILES OF RAIL LAID ON NEW LINE

Hillsboro, Or., Oct. 18.—The Pacific Railroad Navigation Co. has rails laid for the first 20 miles out of Hillsboro, and has about 500 men working at the end of the line. This section of Washington county, already showing progress and development, will be rapid from this time on. Carstens & Hartley of Manning have sold their swampland to the full capacity.

BALLOT BATTLE FOR A BILLION

Voting Begins on Election to Decide Whether Wall Street Clique or Policy-Holders Shall Control Companies.

(Journal Special Service.) New York, Oct. 18.—Voting in the election which is to decide whether the Wall Street clique or the policyholders shall control the Mutual and New York Life Insurance companies and their \$900,000,000 assets began today and will continue until December 15, when the polls will close. It may take weeks to count the ballots, and in the event of a close election the contest may be carried to the courts.

There are 850,000 policyholders in the Mutual and about 875,000 in the New York Life. What percentages will vote is merely guess-work. In the Mutual Life there are three tickets in the field. One, nominated by the present management, is known as the "administration ticket"; the second is the "united committee" ticket, jointly nominated by the International Policyholders' committee and the Mutual Life Policyholders' association; the third, or fusion ticket, is nominated by the agents of the Mutual as a protest against the Peabody management for seeking to reelect the McCurdy old guard as trustees of the company. In the New York Life there are only two tickets, the administration nominee and those named by the International Policyholders' committee. Result of Investigations. The policyholders, headed by Richard Olney, have made a vigorous campaign to oust the administrations of both the Mutual and New York Life. The election is the fruit of the memorable investigation instituted a year ago by the New York state legislature, when the high officials of the big insurance companies were placed on the

HEROINE OF WOODSTOCK ROBBERY.

Mrs. N. M. Bellows, Who Fired at Burglar After He Had Struck Her on Head With Butt of Revolver.

WOMAN FIRES AT BURGLAR

Mrs. N. M. Bellows of Woodstock Shoots at Robber After Being Struck on Head With the Butt of a Revolver

Mrs. N. M. Bellows of Woodstock has proved herself a woman of nerve. Not many women would shoot at a burglar three times after being hit over the head with the butt of a robber's revolver, and yet that is what Mrs. Bellows did, and by her bravery she saved her valuable gold watch and a box of silver spoons which the robber dropped in his hurry to escape.

Mrs. N. M. Bellows, who is the daughter of Frank M. Tibbotts, an Indian war veteran, was awakened by her little daughter whispering, "Look, mamma, he's got your watch." "When I first saw the man standing before the dresser I thought that it was my brother Vivian," said Mrs. Bellows, but when he moved slightly and the rays of the sitting-room lamp, which was always kept burning, fell upon him I saw that it was a burglar. He was standing in front of the dresser and held in his hand by gold watch. I was not frightened then, but thought only of saving the watch. Under my pillow was the revolver, which I always keep there in case of burglars, and I slipped my hand under and got hold of the gun just as he turned and gave me a stunning blow on the head with the butt end of his gun.

WILL EXTEND VANDERBILT LINES WEST

Hundred Millions Stock Voted to Provide for Building Railroad to the Northwest

Directors Vote Additional Stock at Special Meeting in Chicago Today, but Make No Official Declaration of Intentions—New Depot for Chicago.

(Special Dispatch to The Journal.) Chicago, Oct. 18.—The Chicago & Northwestern railroad stockholders today voted an authorization for an issue of total capital stock of \$250,000,000, which provides for doubling the \$100,000,000 authorized prior to the present date. The additional \$150,000,000 will be used to extend the lines of the company and to build depots and bridges. A new depot, to cost \$10,000,000 for the Chicago terminal, is one of the projected improvements.

During the past year the company has extended the northern Wisconsin line 114 miles, the Wyoming branch 148 miles to Lander. Officers refuse to admit the project for an extension to the Pacific coast for the coming year, but say "the Northwestern is a growing road in a growing country." Directors elected were Chauncey Depew, Albert Keep, Samuel Barger, James C. Fargo, David P. Kimball, Henry C. Frick and Chauncey Keep.

Though no official statement has been issued, it is generally accepted that the doubling of the capital stock means that the company is determined to extend its lines through to the Pacific coast, following the example of the St. Paul and other competitors.

THIS ENGLISH LORD OWNED AMERICAN ACRES

(Journal Special Service.) Springfield, Ill., Oct. 18.—Lord William Scully, whose ownership of land in Illinois caused a revolution against alien landlords a few years ago, died in England yesterday, leaving \$200,000, mostly of the best Illinois farm lands. He came to Illinois penniless in 1858.

FEARS TO NAME CORTELYOU FOR TREASURY HEAD

President Anxious Not to Have Appointment of Trust Funds Collector Become Public Least It Have Adverse Influence on Campaign in New York.

(Journal Special Service.) Washington, Oct. 18.—Despite the fact that it is very definitely understood that the president has decided upon the appointment of Postmaster-General Cortelyou to be secretary of the treasury in succession to Shaw, the organs of the administration are taking pains to make it appear that no decision has been reached, and that there is no assurance that Cortelyou will be named.

Denials are not made, but it is simply explained that the president has not determined upon the appointment of Cortelyou. The explanation given for this is that the president, although determined to name Cortelyou, is anxious that the fact should not be known until after the election in New York. Cortelyou's appointment, it is said, would have a bad effect on the coming election. The postmaster-general is still chairman of the Republican national committee. There is every reason to believe that he expects to retain that post even if he is promoted to the secretaryship of the treasury. He managed the last national campaign for the Republicans, during which there was collected a vast sum from the insurance trusts and other trusts. These collections were strenuously denied at the time, but afterward were proved. It is feared that his promotion now to be the head of the treasury would cause a scandal of such proportions that there would be a serious loss of the confidence of the people.

IN PURSUIT OF SUPPOSED MURDERER

Spokane Detective Goes to Interior Town on Trail of Suspect in Mysterious Crime

Officers Baffled in Attempts to Locate Hutchinson Assassin—Various Theories Still Pursued—Looking for a Former Suitor of Mrs. Hutchinson.

Though possessed of information that is strangely suggestive in connection with the murder of Reno Hutchinson, who was shot and killed at Spokane Monday night, detectives of that city are completely baffled in their efforts to solve the mystery. In their dilemmas they have appealed to Portland for aid, but with the offer of every assistance they have made little advance toward a solution of the case.

Following a clue that seemed to give promise of solving the mystery, Detective McDonald of Spokane arrived in Portland last night. He conferred immediately after his arrival with Secretary Stone and other officials of the local Y. M. C. A., and this morning called upon Chief Grittmacher. He requested the assistance of a local detective in following the clue, but a few hours later called the request for aid with the explanation that the suspect he was following had left Portland.

Other Theories Suggested. Detective McDonald, though confirming his theories and beliefs closely to himself, is following a clue which he believes may implicate a former suitor of Mrs. Hutchinson. He has numerous other theories and clues which, however, have accomplished nothing toward apprehending the slayer of the Y. M. C. A. worker.

Those who have followed the case are inclined to believe that the mystery surrounding the death of Hutchinson may never be solved, but few exceptions they have abandoned the theory of holdups and are devoting themselves now to theorizing with reference to a motive for the crime.

No convincing evidence that the deed was prompted by a spirit of deadly

FRESNO FARMER LOSES \$5,000 BY OLD BUNGO GAME

Well-Dressed Confidence Men Switch Grip Filled With Iron Washers With One Full of Gold While Negotiating Blind Real Estate Transaction.

(Journal Special Service.) Fresno, Cal., Oct. 18.—Two well-dressed confidence men, binwood Mike Dutra, a wealthy ranchman living west of Hanford, out of \$5,000 by the old game of switching a grip full of iron washers for a grip containing \$5,000 while they negotiated a blind real estate deal.

Giving his name as J. E. Thomas, and claiming to be a prominent real estate broker, a man wrote Dutra a few weeks ago saying he would like to buy Dutra's big ranch, and asked for terms. Dutra replied and named a large amount, which Thomas accepted. Letters to Thomas were addressed to a Los Angeles post-office box, and after much correspondence Thomas agreed to meet Dutra on the farm. Instead of signing any papers, Dutra was asked to wait \$5,000 in cash, later to wait \$5,000 to be put up by Thomas to bind the bargain. Dutra blindly consented. Three men came to Hanford from the direction of San Francisco and one from Los Angeles. All consulted for some time at the hotel and then separated in couples. One couple went to the Dutra farm in a buggy. They talked with Dutra about the terms for the ranch, and Dutra showed the grip with \$5,000. The other two men came along in a rig and called to the two talking to Dutra in one side and pretended to be very anxious and interested in their property. All were passed down the road, but when they had been within 100 yards of the \$5,000.

LEADS INSURANCE FIGHT.

Richard Olney.

grindstone and forced to reveal the inside workings of the business by which they had feathered their own nests out of the funds of the companies. Under the provisions of the laws enacted by the last New York state leg-

Struggle is on for Immense Surplus Piled Up by Mutual and New York Life Insurance Companies.

islature, complete boards of directors for the Mutual Life, the New York Life and the Security Mutual of Huntington are to be elected. By reason of the action of the stockholders and policyholders of the Equitable Life in voting to mutualize the society as far as practicable the majority of a board of directors for this company also will be elected by its policyholders.

No Opposition Ticket. Tickets have been nominated for the five companies, and ballots with the names of the candidates have been mailed by the several companies to all policyholders. The polls opened today and will remain open two months, closing December 15. Voting both by mail and ballot is allowed. Each policyholder has one vote for directors for each company in which he holds a policy. The holding of more than one policy in a company does not carry with it the right to more than one vote. Policyholders of the Equitable, the Mutual Reserve and the Security Mutual have no choice but to vote the administration tickets or to refrain from voting; no opposition ticket in the case of any of the companies having been named. All of the present directors of the Mutual Reserve and the Security Mutual have been re-nominated. In the case of the Equitable, the directors, on the recommendation of the trustees of the Mutual Reserve and the Security Mutual have nominated an administration ticket containing 25 names. The Ryan stock trustees will elect the remaining 24 members of the board. None of the men on the Equitable administration ticket was a director of the society under the old regime.
