## JAPANESE SIMIANS EXPIRE AT SEA

Consumption Claims Five Man-Like Passengers on British Steamer Fulham.

VESSEL ARRIVES HERE FOR LUMBER CARGO

Was Blockade Runner During War Between Russia and Japan and Succeeded in Evading the Baltic Squadron Off Cape of Good Hope.

Five monkeys brought from Sorabaya, Java, on the British steamer Fulham, contracted consumption and died at sea in the vicinity of the Alutian Islands, near which the steamer ran in taking the great circle route. The simians were consigned to the deep in sailor fashion, tied to a board and weighted down. The loss was felt deeply by the officers of the ship, who had brought the species ashore with the intention of disposing of them on this side of the ocean.

The Fulham arrived in the harbor last night from San Francisco, at which port the cargo of sugar brought out from Java was discharged. The voyage up the coast was stormier and rougher than all the trip from the East Indian Islands and it took the big freighter four days to cover the distance from the Golden Gate to the mouth of the Columbia river. She reached Astoria yesterday morning at daylight. Pilot Pope brought her up the river, and after having been at anchor in the lower harbor for a few minutes arrangements were made to berth her at the Victoria dolphins until some sort of an understanding is reached for handling her outward lumber cargo. She is under charter to J. J. Moore & Co. to carry lumber to China and the cargo is already on the dock at the mills of the Portland Lumber company. It is not likely that any attempt will be made to start work until the waterfront strike assumes a different phase.

The Fulham is manned by Japanese and Chinese. Ordinarily she carries a crew of 40, but she arrived here with only 21 on board, nine of the Japanese having deserted her at different ports where she touched. From San Francisco, some left a Mororan, others at Comox, and a couple got away at San Francisco. The Fulham was one of the prominent blockade runners during the war between Russia and Japan. She narrowly escaped being captured by the Japanese fleet in the vicinity of Madagascar while en route from Europe to Japan with a cargo of arms and ammunition. She is in charge of Captain Gov.

## LOOKS OLD AND RUSTY

Ship Glenalvon Reaches Port After Slow Voyage From Europe.

After a slow voyage from Europe the British ship Glenalvon arrived up and dropped anchor in the lower harbor yesterday afternoon. She comes with general freight consigned to E. S. McRath & Co. and will load when for a return cargo to Europe. The Glenalvon is not much for looks and from an artistic standpoint will attract little attention while here. She looks weather-beaten and rusty and shows evidence of rough usage on the trip. According to the sailors, half of the crew nearly froze to death on the way out. They were not properly equipped for the cold weather off Cape Horn and the bunks on the windjammer proved anything but inviting for the men when they had a few hours off duty. In view of the hard trip out the sailors will undoubtedly seek new berths out of Portland and leave Skipper King to hunt new men. While no charges have been pre-

## Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So his publishers brought out on each bottle a wrapper, which contains all the ingredients of his medicines. This he feels he can well afford to do because the ingredients of which his medicines are made are made and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering its birth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating, nervous and curative exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs. A host of medical authorities of all the several schools of practice recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Medical Institute and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

ferred some of the sailors say that the food supply was none too good, so that taken all in all the voyage to the Columbia river was no pleasure trip.

## AT SEAMEN'S MISSION

Regular Weekly Concert Will Be Given Tomorrow Evening.

Gunn, steamship Hazel Dollar; song, C. Kleine, ship Invernesshire; song, G. Fernandez, French ship Jacobson; American, British, French and German national anthems.

## REAL PLEASURE TRIP

Steamer Alliance Favored by Fine Weather From Coos.

Captain Kelly reports that never before in his command, since the Pacific ocean, did he ever experience such ideal weather as on the last run of the steamer Alliance from Coos Bay. The coast was as smooth as a mirror and the sun shone as brightly as the height of summer. The 80 or more passengers enjoyed themselves immensely and none was sick. The Alliance brought a light freight this time because of being behind time. She arrived here last night, and effort will be made to get her away again tomorrow night. Captain Kelly and first officer Olson, also report that the Bay is real estate mad; everybody speculating and buying with the expectation of making a big clean up when the railroad enters from the north.

## ALONG THE WATERFRONT

The British steamer Wynecric shifted from the Victoria dolphins into the stream this morning and will leave down the evening bound for China with cargo of lumber.

The steamer Niomedea shifted to Alaska dock this morning, where she will finish discharging her inward cargo from Hongkong and Yokohama.

The steam schooner Jim Butler, Captain Olson, reached San Francisco this morning from Portland with a cargo of lumber. This was the maiden trip of the new steam schooner.

The British ship Jordanhill left Rotterdam for Portland on October 20, according to a report received by the Merchants' exchange this morning. She brings a cargo of cement consigned to W. P. Fuller & Co.

The steam schooner Johan Poulsen will be at the mills of Inman, Poulsen & Co. this evening to load a return cargo of lumber for San Francisco.

## MARINE NOTES

## SHAW RUSHES TO AID BANKS OF COUNTRY

(Special Special Service.) Washington, Oct. 22.—Treasury department announced today that all applicants for an increase in bank circulation under Shaw's promise of \$18,000,000 will be acted upon in the order received. Large banks may be allowed less than they seek in order to accommodate the smaller.

This is in accordance with Shaw's agreement to accept approved securities of the government as collateral for deposits already made, the bonds to be used immediately as a basis of circulation without withdrawal from the treasury.

The Best in Quality

# Smart Autumn Suits Coats and Skirts

Never were women's tailor-made garments so captivating as the showing for early autumn. We've a gorgeous display of the most charming suits, stunning coats and waists and gracefully draped skirts, triumphs of tailors' art and skill, all at prices totally out of keeping with the garments. In just such garments lies the success of our widely popular Suit Section. No garment offered that Dame Fashion has not stamped with approval. It's a fact better known every day to Portland's fashionable dressing women that the Roberts Bros. invariably give the best values in the city. We cannot be too enthusiastic over the offerings—they are simply phenomenal—you can make a clear saving of one third.
