Mr. Fields is powerless to raise the wages of his men, as the compensation of eight of them is fixed by lew, while the county court indicates the amount of wages of the remainder.

"If a balliff is worth \$80 a month, a clerk is worth \$180 a month," declared Commissioner Lightner when asked about it. "We have had the matter of resistant the materials of the clerks."

ter of raising the salaries of the cierks under advisement for some time, but do not know what we will do. If the do not know what we will do. If the clerks present a petition to us for increased salaries we will consider it. This, much is certain, if the bailiffs are entitled to increased salaries, Mr. Fields' deputies are also entitled to it. "We can get all the bailiffs needed in any court for \$50 a month, and just as efficient men as any that are now in the circuit court. I think the pay of the bailiffs ought not to have been raised. It means unnecessary expense

to the county."

Commissioner Barnes appeared to entertain the same views on the subject that Lightner does.

The clerks stated that a request to the county court for an increase salaries will be made today.

Index" means the power of the blood to destroy obnoxious germs, and Wright's discovery consists in his method of giving the blood necessary to do the work of destruction. Wright said inoculation with dead and not living germs of the disease gives the blood power to destroy the living germs.

Thus in the case of typhoid fever the patient is vaccinated with dead typhoid germs. His discovery goes further. By the aid of a great series of charts founded upon experiments, he showed how it is possible for a physician immediately after such inoculation of the patients to see if the "Opsonio" power of the blood has been increased, and so regulate the treatment with great accuracy.

GOVERNOR MEAD IS HEARD AT WOODLAND

Woodland, Wash., Oct. 23.—The second gun of the campaign was fired here last night when Governor Albert E. Mead and Hon. T. D. Rockwell of here last night when Governor Albert E. Mead and Hon. T. D. Rockwell of Spokane made two stirring speeches in behalf of the Republican principles.

Governor Mead is a fluent speaker, possesses a pleasing personality and a keen, logical delivery, and his speech teemed with timely and forceable arguments. His reception was most gratifying to all, and Woodland extended her best efforts to make his brief stay a pleasant one.

Mr. Rockwell, who is a prominent east sider, made a stirring party speech, and was warmly received.

The different county candidates were out in full force, and great interest is being manifested by all.

The removal of the county seat from Kalama to Kelso was one of the side issues that was generously discussed.

The audience was very appreciative and generous with applause, and was kept in good humor by the witty repartse of the speakers. The hall was filled to its capacity, and standing room was at a premium.
